Esoterism And Symbol:

Esoterism and Symbol R. A. Schwaller de Lubicz, 1985-02-01 This is an initiation into the tone structure and mentality of Egyptian knowledge the basis of all Western theology and science It is a redefinition of those concepts which are basic to the pharaonic transmission the glory of ancient Egypt The author explores the process of becoming as related to consciousness and revealed in nature the kinship between man and the mineral plant and animal kingdoms the stages of awareness leading to Cosmic Consciousness and the mystery of the formation of substance into matter **Esoterism and Symbol** Daniel Odier, R. A. Schwaller de Lubicz, 1986 *The Spiritual Technology of Ancient Egypt* Edward F. Malkowski, 2007-10-03 How ancient Egyptians understood quantum theory Investigates the history of how modern religion and the Age of Science were inspired by the sacred science of the ancients Examines how quantum theory explains that the cosmos arises from consciousness Reveals the unanimity between Schwaller de Lubicz's sacred science and the science of a cosmos governed by quantum mechanics Since the dawn of the Age of Science humankind has been engaged in a methodical quest to understand the cosmos With the development of quantum mechanics the notion that everything is solid matter is being replaced with the idea that information or thought may be the true source of physical reality Such scientific inquiry has led to a growing interest in the brain's unique and mysterious ability to create perception possibly through quantum interactions Consciousness is now being considered as much a fundamental part of reality as the three dimensions we are so familiar with Although this direction in scientific thought is seen as a new approach the secret wisdom of the ancients presented just such a view thousands of years ago Building on Ren A Schwaller de Lubicz's systematic study of Luxor's Temple of Amun Mut Khonsu during the 1940s and 50s Edward Malkowski shows that the ancient Egyptians worldview was not based on superstition or the invention of myth but was the result of direct observation using critical faculties attuned to the quantum manifestation of the universe This understanding of reality as a product of human consciousness provided the inspiration for the sacred science of the ancients precisely the philosophy modern science is embracing today In the philosophical tradition of Schwaller de Lubicz *The Spiritual Technology of Ancient Egypt* investigates the technical and religious legacy of ancient Egypt to reveal its congruence with today's New Science *Secrets of Ancient America* Carl Lehrburger, 2015-01-02 The real history of the New World and the visitors from both East and West who traveled to the Americas long before 1492 Provides more than 300 photographs and drawings including Celtic runes in New England Gaelic inscriptions in Colorado and Asian symbols in the West Reinterprets many archaeological finds such as the Ohio Serpent Mound Reveals Celtic Hebrew Roman early Christian Templar Egyptian Chinese and Japanese influences in North American artifacts and ruins As the myth of Columbus discovering America falls from the pedestal of established history we are given the opportunity to discover the real story of the New World and the visitors from both East and West who traveled there long before 1492 Sharing his more than 25 years of research and travel to sites throughout North America Carl Lehrburger employs epigraphy

archaeology and archaeoastronomy to reveal extensive evidence for pre Columbian explorers in ancient America He provides more than 300 photographs and drawings of sites relics and rock art including Celtic and Norse runes in New England Phoenician and Hebrew inscriptions in the Midwest and ancient Shiva linga and Egyptian hieroglyphs in the West He uncovers the real story of Columbus and his motives for coming to the Americas He reinterprets many well known archaeological and astronomical finds such as the Ohio Serpent Mound America s Stonehenge in New Hampshire and the Crespi Collection in Ecuador He reveals Celtic Hebrew Roman early Christian Templar Egyptian Chinese and Japanese influences in famous stones and ruins reconstructing the record of what really happened on the American continents prior to Columbus He also looks at Hindu influences in Mesoamerica and sacred sexuality encoded in archaeological sites Expanding upon the work of well known diffusionists such as Barry Fell and Gunnar Thompson the author documents the travels and settlements of trans Atlantic and trans Pacific explorers miners and settlers who made it to the Americas and left their marks for us to discover Interpreting their sacred symbols he shows how their teachings prayers and cosmologies reveal the cosmic order and sacred landscape of the Americas The Esoteric in Religious and Spiritual Traditions Patrick Laude,2025-06-28

This book offers a comparative examination of the esoteric dimension across diverse religions including Buddhism Christianity Hinduism and Islam It seeks to answer the question of whether the concept of the esoteric can be applied across traditions and explores intersections convergences and differences in its use and presence therein The book provides new avenues for research by moving beyond the study of Western esotericism and examining how the category of the esoteric can be applied in the contexts of Abrahamic faiths and Asian traditions The book is organized into six centers of reflection including the esoteric dialectics of hiding and revealing the claim of esoteric traditions to restore wholeness and provide a comprehensive understanding of reality the character of immediacy and directness the intrinsic esoteric distinction between two truths and the non dualistic leanings of esoteric schools in terms of the unity of reality and the subjective immanence of an all embracing Divine Selfhood Overall the book provides a comprehensive phenomenology of the esoteric in religions It will be of interest to researchers and students of theology and religious studies **Insights Into Christian Esotericism**

René Guénon,2005-05 One of Ren Gu non s lifelong quests was to discover or revive the esoteric initiatory dimension of the Christian tradition In the present volume along with its companion volume *The Esotericism of Dante* Gu non undertakes to establish that the three parts of *The Divine Comedy* represent the stages of initiatic realization exploring the parallels between the symbolism of the *Commedia* and that of Freemasonry Rosicrucianism and Christian Hermeticism and illustrating Dante s knowledge of traditional sciences unknown to the moderns the sciences of numbers of cosmic cycles and of sacred astrology In these works Gu non also touches on the all important question of medieval esotericism and discusses the role of sacred languages and the principle of initiation in the Christian tradition as well as such esoteric Christian themes and organizations as the Holy Grail the Guardians of the Holy Land the Sacred Heart the Fedeli d Amore and the Courts of Love

and the Secret Language of Dante One chapter in the present volume Christianity and Initiation is of special interest with regard to the history of the Traditionalist School When first published as an article it gave rise to some controversy because Gu non here reaffirmed his denial of the efficacy of the Christian sacraments as rites of initiation a point of divergence between the teachings of Gu non and those of other key perennialist thinkers Both The Esoterism of Dante and Insights into Christian Esoterism will be of inestimable value to all who are struggling to come to terms with the fullness of the Christian tradition

The Esoterism of Dante René Guénon, Henry Fohr, James Richard Wetmore, 2005-05 Especially since the Renaissance some in Western Christendom have suspected that the deeper dimension of their tradition has somehow been lost and have therefore sought to discover or create an esoteric or initiatic Christianity In the middle of the nineteenth century two scholars Gabriele Rossetti and Eug ne Aroux pointed to certain esoteric meanings in the work of Dante Alighieri notably *The Divine Comedy* Partly based on their scholarship Gu non in 1925 published *The Esoterism of Dante* From the theses of Rosetti and Aroux Gu non retains only those elements that prove the existence of such hidden meanings but he also makes clear that esoterism is not heresy and that a doctrine reserved for an elite can be superimposed on the teaching given the faithful without standing in opposition to it One of Ren Gu non s lifelong quests was to discover or revive the esoteric initiatory dimension of the Christian tradition In the present volume along with its companion volume *Insights into Christian Esoterism* which includes the separate study *Saint Bernard* Gu non undertakes to establish that the three parts of *The Divine Comedy* represent the stages of initiatic realization exploring the parallels between the symbolism of the *Commedia* and that of Freemasonry Rosicrucianism and Christian Hermeticism and illustrating Dante s knowledge of traditional sciences unknown to the moderns the sciences of numbers of cosmic cycles and of sacred astrology In these works Gu non also touches on the all important question of medieval esoterism and discusses the role of

sacred languages and the principle of initiation in the Christian tradition as well as such esoteric Christian themes and organizations as the Holy Grail the Guardians of the Holy Land the Sacred Heart the Fedeli d Amore and the Courts of Love and the Secret Language of Dante In addition to Dante various other paths toward a possible Christian esoterism have been explored by many investigators the legend of the Holy Grail the Knights Templars the tradition of Courtly Love Freemasonry Rosicrucianism and Christian Hermeticism and Gu non deals with all of these in the present volume as well as his Insights into Christian Esoterism In the latter one chapter in particular Christianity and Initiation will be of special interest with regard to the history of the Traditionalist School When first published as an article it gave rise to some controversy because Gu non here reaffirmed his denial of the efficacy of the Christian sacraments as rites of initiation a point of divergence between the teachings of Gu non and those of other key perennialist thinkers Both The Esoterism of Dante and Insights into Christian Esoterism will be of inestimable value to all who are struggling to come to terms with the fullness of the Christian tradition

Guénonian Esoterism and Christian Mystery Jean Borella, 2005-03

Rene Guenon s explication of the principles of an interior understanding of sacred forms has established his reputation in the West as the master theorist of esoterism But till now his doctrine has not been the focus of thorough study in Christian circles and this has had serious consequences Guenonian Esoterism and Christian Mystery is the first major work to combine an analysis of Guenon s ideas about esoterism with a critical examination of their application to Christianity in terms of data provided by Christianity itself But to accomplish this such data cannot simply be surveyed superficially it must be known firsthand hence the abundance of citations and references in this text Such an approach not only lets us decide about certain issues but may also help us rediscover an all too misunderstood facet of the revelation of Christ Jean Borella taught philosophy at the University of Nancy until 1995 A Platonist by formation he has been strongly influenced by Guenon and Eastern metaphysics But his deepest inspiration derives from unceasing meditation on the Christian faith which led him to undertake the present searching critique of Guenonian Christianity A religious philosopher he strives to hear the reverberations awakened in human thought by revelation Rene Guenon was one of the great metaphysical minds of the last few centuries and it was a great loss to the Catholic Church when he converted to Islam Prof Borella shows in this landmark study exactly where Guenon s work remains of perennial value for Christians but also demonstrates the limitations and personal idiosyncrasies which led Guenon to

distort some of the most important elements of Catholic and Orthodox doctrine Prof Borella's book may well stimulate the recovery of authentic metaphysics within the Church for which Guenon longed but which he despaired of seeing in his lifetime Stratford Caldecott Editor Second Spring Director UK of the G K Chesterton Institute for Faith Culture

The Serpent Symbol in Tradition Charles Dailey, 2022-01-24 Serpent and dragon symbolism is ubiquitous in the art and mythology of premodern cultures around the world Over the centuries conflicting hypotheses have been proposed to interpret this symbolism which while illuminating have proved insufficient to the task of revealing a singular meaning for the vast majority of examples In *The Serpent Symbol in Tradition* Dr Dailey argues that in what the symbolist Rene Guenon and the historian of religions Mircea Eliade have called traditional or archaic societies the serpent dragon transculturally symbolizes matter a state of being that is constituted by the perception of the physical world as chaotic in comparison to what traditional peoples believed to be the higher meta physical source of the physical world or nature In the course of Dr Dailey's investigations into the meaning of traditional serpent dragon symbolism the following contributions have proved invaluable 1 Guenon's interpretation of the language of traditional symbolism and the metaphysics that underlies it as well as his interpretation of the terminology of the Hindu Doctrines 2 Eliade's interpretation of traditional archaic societies by means of his concepts of chaos creation Axis Mundi World Axis and Sacred and Profane and 3 the insights of various other researchers of serpent dragon symbolism Beyond purporting to resolve some of the mystery of the ancient and varied symbolism of the serpent dragon *The Serpent Symbol in Tradition* strives to serve the related functions of interpreting the symbolic meanings of a wide variety of premodern artifacts and narratives as well as providing a study of the origination and ancient human awareness of the mentioned state of matter

Al-Kemi André Vandenbroeck, 1987 Al Kemi recounts the story of the eighteen months that Andre VandenBroeck spent in daily contact with the remarkable French philosopher hermeticist and Egyptologist R A Schwaller de Lubicz 1887 1961 It provides a passionately felt personal and dramatic introduction to the startling world of this contemporary alchemist Structured like a mystery and distilled in the crucible of memory for fifteen years Al Kemi provides a passionately felt personal and dramatic introduction to the startling world of this twentieth century alchemist

Frithjof Schuon Jean-Baptiste Aymard, Patrick Laude, 2012-02-01 The first book in English devoted to the religious philosopher Frithjof Schuon 1907 1998 to appear since his death this biography also provides an analysis of his work and spiritual teachings Relying on Schuon's published works as well as unpublished correspondence and other documents the authors highlight the originality of Schuon's life and teachings in terms of his consistent focus on esoterism defined as the inner penetration of sacred forms and spiritual practices vis vis the religio perennis the eternal wisdom that lies at the core of all sacred paths Schuon's life they argue is a quest for the inner meaning of religious experience as is indicated by his connections to Christianity Hinduism Islam and Native American Shamanism Spiritual seekers from all backgrounds will appreciate this comprehensive study of this towering figure of comparative religion
