La enseñanza media en la España franquista (1936-1975) Juan Antonio Lorenzo Vicente, 2003 , **Writing the Americas in Enlightenment Spain** Thomas C. Neal, 1931-07-31 How did literary discourse about empire contribute to discussions about the implications of modernity and progress in eighteenth century Spain Writing the Americas seeks to answer this question by examining how novels plays and short stories imagined and contested core notions about enlightened knowledge Expanding upon recent transatlantic and postcolonial approaches to Spain s Enlightenment that have focused mostly on historiographical and scientific texts this book disputes the long standing perception of the Spanish Enlightenment as an imitative movement best defined best by its similarities with French and British contexts Instead through readings of major and minor texts by authors such as Jos Cadalso Gaspar Melchor Jovellanos Pedro Monteng n and Jos Mar a Blanco White Writing the Americas argues that literary texts advanced a unique exploration of the compatibility between supposed universal principles and local histories one which often diverged noticeably from dominant trends and patterns in Enlightenment thought elsewhere The authors studied often drew directly from Spain s own imperial experiences to submit prevailing ideas about culture commerce education and political organization to scrutiny Writing the Americas provides a new critical lens through which to reexamine the aesthetic and political content of eighteenth century Spanish cultural production While in the past much of the debate about whether Spanish neoclassicism was modern literature has centered on formalistic qualities or romantic notions of originality or subjectivity ultimately Writing the Americas locates the modernity of these literary works within the very ideological tensions they display towards the prevailing intellectual trends of the time The interdisciplinary content and approach of Writing the Americas make it a valuable resource for a broad range of scholars including specialists in eighteenth century and modern Hispanic literature and culture colonial Hispanic literature and culture transatlantic American studies European Enlightenment studies and modernity studies *Spanish Art in Britain and Ireland, 1750-1920* Enriqueta Harris, 2010 This is a study wholly devoted to the reception of Spanish art in Britain and Ireland It examines the sources and extent of knowledge of Spanish art in the British Isles during an age of increasing contacts particularly in the aftermath of the Peninsular War **Spain and Spanish America in the Libraries of the University of California** University of California, Berkeley. Library, Alice Irene Lyser, 1928 **Gamboa's World** Christopher Albi, 2021-11-15 Gamboa s World examines the changing legal landscape of eighteenth century Mexico through the lens of the jurist Francisco Xavier de Gamboa 1717 1794 Gamboa was both a representative of legal professionals in the Spanish world and a central protagonist in major legal controversies in Mexico Of Basque descent Gamboa rose from an impoverished childhood in Guadalajara to the top of the judicial hierarchy in New Spain He practiced law in Mexico City in the 1740s represented Mexican merchants in Madrid in the late 1750s published an authoritative commentary on mining law in 1761 and served for three decades as an Audiencia magistrate In 1788 he became the first locally born regent or chief

justice of the High Court of New Spain In this important work Christopher Albi shows how Gamboa's forgotten career path illuminates the evolution of colonial legal culture and how his arguments about law and justice remain relevant today as Mexico debates how to strengthen the rule of law [The Reception of Positivism in Spain](#) José Franco-Chasán,2023-11-24

Pedro Dorado Montero was one of Spain's most relevant authors He contributed to modern Criminal law and Penology with a very unique theory the Protective Law for Criminals In a time when neoclassical penal theories and new positivist theories clashed Dorado Montero's proposal served as a bridge between the criminal law conceptions of the 19th and 20th centuries In order to explore his role in the introduction of positivism within Spain and the subsequent success of this trend this book addresses several aspects The first three analyzed are his scholarly career the historical and international context in which he lived and the various European and other international influences he was exposed to On this basis two major points are then discussed Firstly Dorado Montero has been traditionally included within the movement known as correccionalismo However his legal philosophical and criminal thought indicates otherwise It seems to lie closer to positivism than to neoclassical positions This research aims at challenging the accuracy of the eclectic label which traditional historiography has applied to him In turn Dorado Montero described a reality in which every moral value and legal representation was a mere product of mankind's imagination Man is responsible for the elaboration of morals law and culture in his own mind Thus for him there were as many moral and legal orders as there were human beings on the planet Such a claim is polemic even today Unsurprisingly the author received criticism from both neoclassical and positivist schools Thus the existence of a Doradian positivism is explored Despite the growing interest in these topics over the last few decades Dorado Montero has somehow been overlooked even though his *Derecho protector de los criminales* described the criminal law of the future as well one that will have to face the new neurological medical psychological and genetic challenges of our time [*Espana En La Busqueda de Su Destino*](#) Howard Headworth,2014-08-15

It is two years after the entry in Granada by the Christians in 1492 In this brilliant sequel to his first historical novel *Al Andalus* His last years Howard Headworth elaborates a rich mix of personal drama and historical detail and presents a magnificent sense of the place Including the military campaigns of the great captain in Italy against the French the wedding of the Infanta Jeanne in Flanders with Philip the Beautiful the scandals of the Borgias in Rome and The Adventures of Christopher Columbus in the Indies in search of gold the Catholic Monarchs seeks To forge the future grandeur and destiny of Spain Howard Headworth lives in Almeria Spain for twenty years He was born in Wales and studied geology at the university there and at the Imperial College in London He uses his great experience as a scientific director as well as his passion for the history of his adopted country in this historical novel [*Comfort and Domestic Space in Modern Spain*](#) Professor Susan Larson,2024-08-30

Comfort and domestic space are complex narratives that can help draw our attention to everything from urban planning everyday objects and new technologies to class conflict racial and ethnic segregation and the gendering of domestic labour *Comfort and Domestic Space in Modern Spain* delves into

the history of ideas surrounding the modern home It explores how the collective experience of domestic space has been shaped by government ideologues technocrats and artists as well as working and middle class Spaniards since the late nineteenth century The book focuses on the social and cultural meanings of domestic space in ways that invite us to cross boundaries between private and public the particular and the general the local and the global and to pay attention to the role of the cultural imagination in making a house into a home Considering a wide variety of voices and perspectives that have resulted in new ideas about how to inhabit domestic space *Comfort and Domestic Space in Modern Spain* brings together an international interdisciplinary group of scholars to illuminate the cultural history of everyday life Poetic Castles in Spain Diego Saglia, 2021-12-28 British culture of the Romantic period is distinguished by a protracted and varied interest in things Spanish The climax in the publication of fictional and especially poetical narratives on Spain corresponds with the intense phase of Anglo Iberian exchanges delimited by the Peninsular War 1808-14 on the one hand and the Spanish experiment of a constitutional monarchy that lasted from 1820 until 1823 on the other Although current scholarship has uncovered and reconstructed several foreign maps of British Romanticism from the Orient to the South Seas exotic European geographies have not received much attention Spain in particular is one of the most neglected of these imaginary Romantic geographies even if between the 1800s and the 1820s and beyond it was a site of wars and invasions the object of foreign economic interests relating to its American colonies and a geopolitical area crucial to the European balance designed by the post Waterloo Vienna settlement This study considers the various ways in which Spain figured in Romantic narrative verse recovering the discursive materials employed in fictional representation and assessing the relevance of this activity in the context of the dominant themes and preoccupations in contemporary British culture The texts examined here include medievalizing and chivalric fictions Orientalist adventures set in Islamic Granada and modern day tales of the anti Napoleonic campaign in the Peninsula Recovering some of the outstanding works and issues elaborated by British Romanticism through the cultural geography of Spain this study shows that the Iberian country was an inexhaustible source of imaginative materials for British culture at a time when its imperial boundaries were expanding and its geopolitical influence was increasing in Europe and overseas *Margins for Manoeuvre in Cold War Europe* Laurien Crump, Susanna Erlandsson, 2019-11-28 The Cold War is conventionally regarded as a superpower conflict that dominated the shape of international relations between World War II and the fall of the Berlin Wall Smaller powers had to adapt to a role as pawns in a strategic game of the superpowers its course beyond their control This edited volume offers a fresh interpretation of twentieth century smaller European powers East West neutral and non aligned and argues that their position vis vis the superpowers often provided them with an opportunity rather than merely representing a constraint Analysing the margins for manoeuvre of these smaller powers the volume covers a wide array of themes ranging from cultural to economic issues energy to diplomacy and Bulgaria to Belgium Given its holistic and nuanced intervention in studies of the Cold War this book

will be instrumental for students of history international relations and political science

Reimagining the Transatlantic, 1780-1890 Joselyn M. Almeida, 2016-04-08 In her thought provoking study of Britain's relationship with Latin America and the Caribbean during the Romantic and Victorian periods Joselyn M Almeida makes a compelling case for extending the critical boundaries of current transatlantic and circumatlantic scholarship She proposes the pan Atlantic as a critical model that encompasses Britain's relationship to the non Anglophone Americas given their shared history of conquest and the slave trade and underscores the importance of writings by Afro British and Afro Hispanophone authors in formulating Atlantic culture In adopting the term pan Atlantic Almeida argues for the interrelationship of the discourses of discovery conquest enslavement and liberation expressed in literary motifs such as the New World Columbus and Las Casas the representation of Native Americans the enslavement and liberation of Africans and the emancipation of Spanish America Her study draws on the works of William Robertson Ottobah Cugoana Francisco Clavijero Francisco Miranda Jos Blanco White Richard Robert Madden Juan Manzano Charles Darwin and W H Hudson uncovering the shared cultural grammar of travel narratives abolitionist poems novels and historiographies that crosses national and linguistic boundaries

The Spanish Coastal Systems Juan A. Morales, 2018-09-03 This monograph presents the state of art of the geologic knowledge about the Spanish coast obtained through scientific research in the last 30 years From a general point of view coasts are the most quickly changing systems of the Earth This is critical since many human resources such as the main part of economic and social activities are located in the coastal areas Especially in the case of Spain these coasts include cities wide industrial areas including harbor

complexes important ecologic systems and our main economic resource tourism Understanding the dynamic functioning of each element of this coast is vital for correct future coastal management so as to solve problems derived from bad plans developed in the last decades of the twentieth century This is a valuable text for advanced graduate students and coastal researchers which connects the specific dynamic functioning of the main Spanish coastal environments and their relationships with human activities

Juan Goytisolo Alison Ribeiro de Menezes,2005 This book assesses Goytisolo's contribution to cultural debates in Spain since the sixties and revises the prevailing critical interpretation of his fiction arguing that his works represent an ethical engagement with postmodernist theory rather than an illustration of it This monograph offers two new perspectives on Spanish writer Juan Goytisolo First under the themes of authorship and dissidence it integrates his writing across several genres providing a rounded assessment of his contribution to cultural debates in Spain since the sixties and arguing that resistance to repressive discourses characterizes his essays and autobiographies as much as his fiction Second it revises the prevailing critical interpretation of Goytisolo's fiction by building on four premises that his novels are less clearly oppositional than prevailing interpretations imply that in order to engage with discourses of identity he employs an idiom which contrary to his own statements is not a poststructuralist autonomous world of words that a textual practice grounded in the recognizable experience of post Civil War Spain rather than one which seeks out the realm of pure textuality is essential to Goytisolo's subversive political intentions and that the autobiographical element of much of his work constitutes a more complex narrative aesthetic than has been appreciated The book argues that if Goytisolo's work is interpreted as an ethical engagement with postmodernist theory rather than as an illustration of it then certain contradictions for which he has been criticized are seen in a new and valuable light ALISON RIBEIRO DE MENEZES is a Senior Lecturer in Spanish at University College Dublin

Jews and Muslims in Contemporary Spain Martina L. Weisz,2019-05-20 The book analyzes the place of religious difference in late modernity through a study of the role played by Jews and Muslims in the construction of contemporary Spanish national identity The focus is on the transition from an exclusive homogeneous sense of collective Self toward a more pluralistic open and tolerant one in an European context This process is approached from different dimensions At the national level it follows the changes in nationalist historiography the education system and the public debates on national identity At the international level it tackles the problem from the perspective of Spanish foreign

policy towards Israel and the Arab Muslim states in a changing global context From the social communicational point of view the emphasis is on the construction of the Self Other dichotomy with Jewish and Muslim others as reflected in the three leading Spanish newspapers
