España En El Siglo XX:

Evolución de la población española en el siglo XX, por provincias y comunidades autónomas, Vol 1. ,2007 Esta obra evalúa de manera exhaustiva la evolución de la población residente en España y en sus 52 provincias incluidas Ceuta y Melilla durante el siglo XX y su incidencia en el primer quinquenio del XXI. La información que aporta distingue la población española incluida la nacionalizada de la extranjera con separación según sexo y edad. El estudio está referido a la población residente diferente a la de hecho y de derecho aparecida en los censos de población elaborados por el Instituto Nacional de Estadística INE intentando ajustar las diferencias e incoherencias entre las distintas fuentes estadísticas disponibles. Este trabajo ha permitido corregir por ejemplo el desfase en más de 727 000 habitantes entre las poblaciones residente y de hecho recogido por el censo de población de 1940. Las fuentes utilizadas han sido los censos de población del INE ajustados con los datos del Registro Civil y las estadísticas oficiales publicadas por el mismo instituto relativas a las migraciones extranjeras tanto de los españoles como de los foráneos una vez anotados los datos oficiales de nacionalización. De esta forma la metodología utilizada se ha limitado a corregir las incoherencias advertidas. Los resultados muestran que la población española residente creció en el siglo XX el 112% que la población total aumentó el 120% y que la extranjera residente que en 1900 representaba sólo el 0,30% de la población total se alzó hasta el 3,80 al finalizar el siglo. El número de extranjeros residentes en el primer quinquenio del siglo XXI alcanza la cifra de 3 730 610 representando el 8,46% del total de la población española en esa fecha. Todo ello pone de manifiesto el convulso comportamiento de la población española durante el siglo XX y primeros años del XXI tanto por su evolución como por su asentamiento indicadores de futuros efectos demográficos que suponen para España un gran reto. El CD que acompaña a la obra recopila este conjunto de datos demográficos y pone a disposición de investigadores y sociedad en general las herramientas que permiten su explotación estadística personalizada.

Breve historia de España en el siglo XX Julián Casanova, Carlos Gil Andrés, 2012 Primer libro de la colección de compendios. Se trata de obras escritas con la voluntad de llegar a un público amplio necesitado de ideas concisas y textos introductorios escritos en un lenguaje llano que prescindiera de digresiones y largas peroratas y que tratara los temas de mayor interés. Y pocos o ninguno lo es más que la Historia de España del siglo XX. Sobre ningún otro asunto se ha escrito tanto ni debatido con más vehemencia. Un siglo de reyes y dictadores de tradición y revolución de experiencias democráticas y conflictos violentos de ideologías enfrentadas y valores compartidos de campesinos convertidos en soldados y en ciudadanos de profundas transformaciones que han cambiado de arriba a abajo el Estado y la sociedad. Más que un manual de consulta es un libro de lectura y reflexión que invita a leer otros libros a interesarse por el conocimiento histórico de nuestro pasado un arma como decía la poesía cargada de futuro.

La España del siglo XX Santos Juliá, José Luis García Delgado, Juan Carlos Jiménez, Juan Pablo Fusi, 2013-03-11 Primero la política y la sociedad después la economía y finalmente la cultura son los tres ejes vertebradores del incitante recorrido por la España del siglo XX que invitan a seguir las páginas de esta obra. Adquiere así su forma definitiva un proyecto editorial tras la

aparición de los tres tomos bajo el título común de Un siglo de España gestado hace un lustro con vocación unitaria y con un compartido planteamiento interpretativo por sus autores prestigiosos especialistas en historia española contemporánea y particularmente en una centuria del novecientos que tanto por logros como por fracasos en unos u otros pasajes del curso secular ha devuelto a lo español el protagonismo en la historia de Europa y del mundo actual. La España del siglo XX contiene en suma una visión abarcadora y sintética sugerente y rigurosa a la vez de un tiempo histórico atractivo y aleccionador como pocos.

Historia de la edición en España, 1836-1936 Jesús A. Martínez, 2001 Historia de España en el siglo XX Julián Casanova, Carlos Gil Andrés, 2009

Seguramente no hay otra época que más atención haya recibido por parte de los historiadores de dentro y fuera de nuestras fronteras y que cuente con un número mayor de buenas monografías y sólidas visiones de conjunto. Obras clásicas que han resistido bien el paso del tiempo, colecciones en varios volúmenes que estudian con detalle los diferentes periodos y manuales exhaustivos que abordan en profundidad los aspectos políticos, sociales, económicos y culturales del siglo que hemos dejado atrás. Pero un lector no especializado, un estudiante universitario o un extranjero curioso que quiera acercarse a la historia más reciente de España tiene dificultades para encontrar un texto que en pocas páginas presente los acontecimientos fundamentales y los problemas más importantes de un siglo complejo y diverso, controvertido y políticamente apasionado y apasionante. Un siglo de reyes y dictadores de tradición y revolución de experiencias democráticas y conflictos violentos de ideologías enfrentadas y valores compartidos de campesinos convertidos en soldados y en ciudadanos de profundas transformaciones que han cambiado de arriba a abajo el Estado y la sociedad. Y también una parte de la historia de Europa, las luces y las sombras del siglo de la civilización y la barbarie. Ese es el espacio que pretende ocupar este libro, una obra que combina el relato con el análisis, el ritmo de la narración con la pausa de la interpretación, el detalle de los acontecimientos con la actualización científica. Más que un manual de consulta es un libro de lectura y reflexión que invita a leer otros libros, a interesarse por el conocimiento histórico de nuestro pasado, un arma como decía la poesía cargada de futuro.
