

Mom,

For the times I forgot to thank you,
For all the *special* things you do,
For some words that go unspoken,
Mom...just know that *I love you.*

You always stop and listen,
to my *triumphs* and my fears,
encouraging and teaching me.
And *sometimes* drying tears.

And if sometimes I forget to tell you,
I truly *hope* you see,
I *appreciate* all the things you do,
And you mean the *world* to me.

Mother-Texts Julie Kelso, Marie Porter, 2010-07-12 Every day human beings tell and are told stories sometimes in obvious ways sometimes not Most of our communication with each other direct or indirect involves narrative production and reception Narrative is constitutive of human being However whose narratives are heard Feminists argue that the relations between language knowledge gender and power particularly the question as to whether man made and controlled language is a material fit to receive and convey woman's stories are critical issues because historically patriarchy has worked to silence women's dialogue Male knowledge unsurprisingly created and continues to create unrepresentative maternal narratives which lead to unreal expectations of mothers and motherwork It is therefore disconcertingly significant for mothers that neither mothers nor their motherwork have been considered worthy of historical record nor are historical records usually written from a mother's perspective Hence the narrative research in this book which gives recognition to motherhood mothers and or the work they do is valuable It adds to the rapidly accumulating maternal research research that is now available for the historical record Mothers are speaking up developing a canon of literature research narrated in maternal language and claiming maternal knowledge and power

Reflections is a raw and inspirational tale of personal growth empathy and social change exploring the depths of humanity and the transformative power of love and acceptance **Dandelions for Dinner** Sam P. Stamatis, Peter S.

Stamatis, 2011-12-22 What happens to a family already on the brink of disaster when the world around them crumbles Dandelions for Dinner presents a memoir set in the sleepy town of Gargaliani Greece spanning the last quarter of the nineteenth century through the Greek Civil War of the 1940s Told through the eyes of a thirteen year old boy it is an epic tale of youth family poverty war and unjust loss It is also an uplifting story of how in the midst of calamity survival is possible by using your head taking your hits and maintaining an undying faith Though it is the tale of a family that is by all standards poor Dandelions for Dinner demonstrates just how rich the poor can be when they have hope faith and love for one another when they maintain the lessons of their parents and forefathers nurture a love of education and never let up on their hope for freedom This memoir is above all a story about the importance of America not only for those who live there but also for all those who reside in the dark corners of faraway lands and dream of a better life Over the course of their life together any family will most assuredly experience both want and plenty suffering and joy Dandelions for Dinner is the surprising story of what remains when everything else is lost The Dynamics of Powerful Parenting Raymond Messer, 2005 The Dynamics of Powerful Parenting is a book about power the power held by a parent to shape the development of a child and the power of a child to either accept or reject those efforts Often when things are not working well for parents with their children they will continue doing the same things yet with ever more vigor Usually the result will be more of the same only worse A secret to understanding the dynamics of many human behaviors lies in the paradox of the Chinese Finger Puzzle aka Chinese Handcuff The Chinese finger puzzle is a tube woven from bamboo shoots that is several inches long and about the diameter of a person's fingers true to its nature the tube will narrow as its ends are pulled Thus when the tube is slipped over the ends of fingers or thumbs on opposing hands the subject's efforts to pull his or her fingers apart are met with increasing resistance from the device So it is with much of being human The thing that people wish to avoid most is the very thing that results from their efforts to do so Dynamics is a book written with this paradox in mind It is a book of insights about parenting that turns upside down many of the things that are currently held dear in traditional parenting efforts It is a book that downplays the use of punishment but never overlooks the need for discipline and responsibility Dynamics encourages parents to think about what they are doing how they are doing it and what they are experiencing as a result then provides useful tools for changing undesired outcomes It is a book that can produce positive results that will benefit generations yet unborn *Women of Color* Diane Long Hoeveler, Janet K. Boles, 2001-08-30 Beginning in the late 1960s women's studies scholars worked to introduce courses on the history literature and philosophies of women While these initial efforts were rather general women's studies programs have started to give increasing amounts of attention to the special concerns of women of color The topic itself is politically charged and there is growing awareness that the issues facing

women of color are diverse and complex Expert contributors offer chapters on the major concerns facing women of color in the modern world particularly in the United States and Latin America Each chapter treats one or more groups of women who have been underrepresented in women s studies scholarship or have had their experiences misinterpreted including African Americans Latina Americans Asian Americans and Native Americans Women of Color includes chapters on theories related to race gender and identity One section provides discussions of literature by women of color including works by such authors as Toni Morrison and Maxine Hong Kingston The book also focuses on the place of women of color in higher education including chapters on women of color and the women s studies curriculum and the role of librarians in shaping women s studies programs

Gender, Sexuality, and the Cold War Philip E. Muehlenbeck, 2017-06-19 As Marko Duman i writes in his introduction to Gender Sexuality and the Cold War despite the centrality of gender and sexuality in human relations their scholarly study has played a secondary role in the history of the Cold War It is not an exaggeration to say that few were left unaffected by Cold War gender politics even those who were in charge of producing disseminating and enforcing cultural norms were called on to live by the gender and sexuality models into which they breathed life This underscores the importance of this volume as here scholars tackle issues ranging from depictions of masculinity during the all consuming space race to the vibrant activism of Indian peasant women during this period to the policing of sexuality inside the militaries of the world Gender Sexuality and the Cold War brings together a diverse group of scholars whose combined research spans fifteen countries across five continents claiming a place as the first volume to examine how issues of gender and sexuality impacted both the domestic and foreign policies of states far beyond the borders of the United States during the tumult of the Cold War

Feminist Criminology Claire M. Renzetti, 2013-06-07 Feminist criminology grew out of the Women s Movement of the 1970s in response to the male dominance of mainstream criminology which meant that not only were women largely excluded from carrying out criminological research they were also barely considered as subjects of that research In this volume Claire Renzetti traces the development of feminist criminology from the 1970s to the present examining the diversity of feminisms which have developed liberal feminist criminology Marxist radical and socialist feminist criminologies structured action theory left

Chaplin,1999-07-29 Praise for the First Edition One of the best and clearest descriptions of the significance of the imposition of masculine patterns of thought on a culture a lucid and non jargon fraught account of the strands of thought which make up the feminist approach to and adaptation of psychotherapy The Guardian For counsellors therapists trainees and others who want a deeper understanding of how society affects them psychologically the revised and updated edition of Feminist Counselling in Action is the ideal resource Drawing on feminist theory Jocelyn Chaplin points to the deeply entrenched hierarchical ways of thinking which permeate every level of our lives The author presents an alternative rhythm model that when applied in counselling increases self confidence wholeness and improved relationships In this model the counsellor is not seen as the expert or the doctor and the client is not a patient They are two equal but different people using clues to understand and improve the life of the client To illustrate the author includes vivid case examples throughout **Taking**
