Language Matters Timothy Reagan, 2009-04-01 This book addresses a timely and very important topic language in education Language apparently is a very tricky business On the one hand everyone uses language and virtually everyone has strong views about language In the educational domain this seems to be especially true Language is not merely an intrinsic component of the educational process as the medium of instruction in the classroom but also serves as the mediator of social reality for students and teachers alike It plays a central role in articulating and conveying not only social cultural and empirical ideas but ideological concepts as well It is also used to make judgments about the speaker not to mention its role in maintaining differential power relations And yet in spite of this the role of language is not sufficiently recognized in classroom practice much of the time Nor is language except in fairly narrow ways really an especially central part of the curriculum in spite of its incredible importance To be sure we do spend a great deal of time and money attempting to teach students to read and write that is to provide them with basic literacy skills and we provide nominal support for foreign language education programs We also provide limited support for children coming to school who do not speak English What we do not do though is to recognize the absolute centrality of language knowledge and language use for the educated person This book seeks to address these issues from the broad perspective of critical pedagogy

Encyclopedia of Language and Education Leo van Lier, P. Corson, 2013-11-01

ENCYCLOPEDIA OF LANGUAGE AND EDUCATION This is one of eight volumes of the Encyclopedia of Language and Education published by Kluwer Academic The publication of this work signals the maturity of the field of language and education as an international and interdisciplinary field of significance and cohesion These volumes confirm that language and education is much more than the preserve of any single discipline In designing these volumes we have tried to recognise the diversity of the field in our selection of contributors and in our choice of topics The contributors come from every continent and from more than 40 countries Their reviews discuss language and education issues affecting every country in the world We have also tried to recognise the diverse interdisciplinary nature

of language and education in the selection of the editorial personnel themselves. The major academic interests of the volume editors confirm this. As principal volume editor for Volume 1, Ruth Wodak has interests in critical linguistics, sociology of language and language policy. For Volume 2, Viv Edwards has interests in policy and practice in multilingual classrooms and the sociology of language. For Volume 3, Bronwyn Davies has interests in the social psychology of language, the sociology of language and interdisciplinary studies. For Volume 4, Richard Tucker has interests in language theory, applied linguistics and the implementation and evaluation of innovative language education programs.

Critical Essays on Resistance in Education David M. Moss, Terry A. Osborn, 2010. It is possible to say that resistance in education has always been resisted; the point of course is who is doing the resisting. Why they are resisting, what they are resisting, and whose interests are being served by these acts of resistance. David M. Moss and Terry A. Osborn's provocative collection of essays on educational resistance gives new scope and meaning to the term resistance in the context of today's challenges to and on behalf of social justice education. It is an important contribution to the field of critical education. Peter McLaren, Graduate School of Education and Information Studies, University of California, Los Angeles. Book Jacket.

The Foreign Language Educator in Society Timothy G. Reagan, Terry A. Osborn, 2001-12. Introduces teachers, future teachers of foreign languages to what they need to know, understand about language attitudes, language practices, language rights, language policy, and related issues. Brings together foreign language and critical pedagogy. Designed for.
