Food Packaging and Shelf Life Gordon L. Robertson, 2009-12-21 The importance of food packaging hardly needs emphasizing since only a handful of foods are sold in an unpackaged state With an increasing focus on sustainability and cost effectiveness responsible companies no longer want to over package their food products yet many remain unsure just where reductions can effectively be made Food Packaging and Shelf Life A Practical Guide provides package developers with the information they need to specify just the right amount of protective packaging to maintain food quality and maximize shelf life Current food packaging must take into consideration the biochemical chemical physical and biological changes that occur during processing distribution and storage Organized according to chapters devoted to specific food products this practical handbook defines the indices of failure for foods as diverse as milk fruits bottled water juices vegetables fish and beef It discusses the deteriorative reactions for each food and reviews how different packaging materials may influence time to failure and thus shelf life Other topics included biobased packaging packaging and the microbial shelf life of foods and shelf life testing methodology

Food and Beverage Stability and Shelf Life David Kilcast, Persis Subramaniam, 2011-04-08 Ensuring that foods and beverages remain stable during the required shelf life is critical to their success in the market place yet companies experience difficulties in this area Food and beverage stability and shelf life provides a comprehensive guide to factors influencing stability methods of stability and shelf life assessment and the stability and shelf life of major products Part one describes important food and beverage quality deterioration processes including microbiological spoilage and physical instability Chapters in this section also investigate the effects of ingredients processing and packaging on stability among other factors Part two describes methods for stability and shelf life assessment including food storage trials accelerated testing and shelf life modelling Part three reviews the stability and shelf life of a wide range of products including beer soft drinks fruit bread oils confectionery products milk and seafood With its distinguished editors and international team of expert contributors Food and beverage stability and shelf life is a valuable reference for professionals involved in quality assurance and product development and researchers focussing on food and beverage stability A comprehensive guide to factors influencing stability methods of stability and shelf life assessment and the stability and shelf life of major products Describes important food and beverage quality deterioration processes exploring microbiological spoilage and physical instability Investigate the effects of ingredients processing and packaging on stability and documents methods for stability and shelf life assessment

The Science and Craft of Artisanal Food Michael H. Tunick, Andrew L. Waterhouse, 2023 The word artisanal has had a significant impact on the marketing of consumer products Artisanal labelled products can be found in the shops of true artisans reflecting a genuine connection between the term and the product On the

other hand artisanal labelled commodities can also be found on global chains products reflecting a disconnect between the term and the manufactured goods This indiscriminate use has damaged what artisanal means for consumers A solution to reclaiming the meaning of artisanal or repositioning completely is to focus on the fundamental marketing tools of the 4Ps product price place promotion segmentation targeting and positioning and branding Combining these tools can help artisanal producers develop marketing and communications strategies to build meaningful relationships with their target market

Handbook of Molecular Gastronomy Christophe Lavelle,Herve This,Alan L. Kelly,Roisin Burke,2021-06-08 Handbook of Molecular Gastronomy Scientific Foundations and Culinary Applications presents a unique overview of molecular gastronomy the scientific discipline dedicated to the study of phenomena that occur during the preparation and consumption of dishes It deals with the chemistry biology and physics of food preparation along with the physiology of food consumption As such it represents the first attempt at a comprehensive reference in molecular gastronomy along with a practical guide through selected examples to molecular cuisine and the more recent applications named note by note cuisine While several books already exist for a general audience either addressing food science in general in a light way and or dealing with modern cooking techniques and recipes no book exists so far that encompasses the whole molecular gastronomy field providing a strong interdisciplinary background in the physics biology and chemistry of food and food preparation along with good discussions on creativity and the art of cooking Features Gives A Z coverage to the underlying science physics chemistry and biology and technology as well as all the key cooking issues ingredients tools and methods Encompasses the science and practice of molecular gastronomy in the most accessible and up to date reference available Contains a final section with unique recipes by famous chefs The book is organized in three parts The first and main part is about the scientific discipline of molecular and physical gastronomy it is organized as an encyclopedia with entries in alphabetical order gathering the contributions of more than 100 authors all leading scientists in food sciences providing a broad overview of the most recent research in molecular gastronomy The second part addresses educational applications of molecular gastronomy from primary schools to universities The third part provides some innovative recipes by chefs from various parts of the world The authors have made a particular pedagogical effort in proposing several educational levels from elementary introduction to deep scientific formalism in order to satisfy the broadest possible audience scientists and non scientists This new resource should be very useful to food scientists and chefs as well as food and culinary science students and all lay people interested in gastronomy

40TH GISFI STANDARDIZATION SERIES MEETING JOINTLY WITH INTERNATIONAL CONFERENCE ON 6G AND WIRELESS NETWORK TECHNOLOGIES Kolhapur Institute of Technology's College of Engineering (Autonomous),2023-07-07 **Coffee** Yi-Fang Chu,2012-03-27 Coffee Emerging Health Benefits and Disease Prevention presents a comprehensive overview of the recent scientific advances in the field The book focuses on the following topics coffee constituents pro and antioxidant properties of coffee constituents bioavailability of

Goyal, 2017-11-14 With contributions from a broad range of leading professors and scientists this volume focuses on new areas of processing technologies in foods and plants to help meet the increasing food demand of the rapidly growing populations of the world The first section of the book is devoted to emerging entrepreneurship and employment opportunities for rural peoples in food and agricultural processing specifically beekeeping technology and honey processing herbal formulations for treatment of dental diseases and engineering interventions for the extraction of essential oils from plants Part 2 contains three chapters that discuss technological interventions in foods and plants for human health benefits looking particularly at coffee tea and green leaf vegetable processing technology The volume goes to look at several management strategies in agricultural engineering with a chapter on production technology of ethanol from various sources and its potential applications in various industries including chemical food pharmaceutical as well as biofuel Food grain storage structures are addressed as well focusing on minimizing losses from microbial pests as well as insect pests during grain storage by utilizing different efficient storage structures The volume provides a valuable resource for students instructors and researchers of foods and plants processing technology In addition food and plant science professionals who are seeking recent advanced and innovative knowledge in processing will find this book helpful

Consumer Preferences and Acceptance of Food Products Derek V. Byrne, 2020-12-01 The acceptance and preference of the sensory properties of foods are among the most important criteria determining food choice Sensory perception and our response to food products and finally food choice itself are affected by a myriad of intrinsic and extrinsic factors The pressing question is how do these factors specifically affect our acceptance and preference for foods both in and of themselves and in combination in various

contexts both fundamental and applied In addition which factors overall play the largest role in how we perceive and behave towards food in daily life Finally how can these factors be utilized to affect our preferences and final acceptance of real food and food products from industrial production and beyond for healthier eating A closer look at trends in research showcasing the influence that these factors and our senses have on our perception and affective response to food products and our food choices is timely Thus in this Special Issue collection Consumer Preferences and Acceptance of Food Products we bring together articles which encompass the wide scope of multidisciplinary research in the space related to the determination of key factors involved linked to fundamental interactions cross modal effects in different contexts and eating scenarios as well as studies that utilize unique study design approaches and methodologies

Functional and Speciality Beverage Technology P Paquin, 2009-01-29 As consumer demand for traditional carbonated drinks falls the market for beverages with perceived health promoting properties is growing rapidly Formulating a nutritional nutraceutical or functional beverage with satisfactory sensory quality and shelf life can be challenging This important collection reviews the key ingredients formulation technology and health effects of the major types of functional and speciality beverage Chapters in part one consider essential ingredients such as stabilizers and sweeteners and significant aspects of formulation such as fortification technology and methods to extend shelf life Dairy based beverages are the focus of Part two with chapters covering methods to improve the nutritional and sensory quality and technological functionality of milk a crucial ingredient in many healthful beverages Chapters on newer dairy ingredients such as whey and milk fat globule membrane complete the section Part three then reviews advances in the significant plant based beverage sector with chapters on popular products such as fruit juices sports drinks tea and coffee Soy proteins are also covered Chapters on product development and the role of beverages in the diet complete the volume With its distinguished editor and contributors Functional and speciality beverage technology is an essential collection for professionals and academics interested in this product sector Reviews the key ingredients formulation technology and health effects of the major types of functional and speciality beverages Essential ingredients such as stabilizers and sweeteners and significant aspects of formulation such as fortification technology and methods to extend shelf life are considered Focuses on methods to improve the nutritional and sensory quality and technological functionality of milk

Salt, Fat and Sugar Reduction Maurice O'Sullivan, 2020-03-12 Salt Fat and Sugar Reduction Sensory Approaches for Nutritional Reformulation of Foods and Beverages explores salt sugar fat and the current scientific findings that link them to diseases The sensory techniques that can be used for developing consumer appealing nutritional optimized products are also discussed as are other aspects of shelf life and physicochemical analysis consumer awareness of the negative nutritional impact of these ingredients and taxes and other factors that are drivers for nutritional optimization This book is ideal for undergraduate and postgraduate students and academics food scientists food and nutrition researchers and those in the food and beverage industries Provides a clear outline of current legislation on global ingredient taxes Demonstrates effective

protocols sensory multivariate and physico chemical for salt fat and sugar reduction Outlines reduction protocols with and without the use of replacer ingredients for salt fat and sugar reduction Illustrates the full process chain consumer to packaging and the effects of reformulation by reduction of ingredients *Processing and Impact on Antioxidants in Beverages* Victor R Preedy, 2014-04-05 *Processing and Impact on Antioxidants in Beverages* presents information key to understanding how antioxidants change during production of beverages how production options can be used to enhance antioxidant benefit and how to determine the production process that will result in the optimum antioxidant benefit while retaining consumer acceptability In the food industry antioxidants are added to preserve the shelf life of foods and to prevent off flavors from developing These production added components also contribute to the overall availability of essential nutrients for intake Moreover some production processes reduce the amount of naturally occurring antioxidants Thus in terms of food science it is important to understand not only the physiological importance of antioxidants but what they are how much are in the different food ingredients and how they are damaged or enhanced through the processing and packaging phases This book specifically addresses the composition and characterization of antioxidants in coffee green tea soft drinks beer and wine Processing techniques considered here include fermentation and aging high pressure homogenization enzymatic debittering and more Lastly the book considers several selective antioxidant assays such as Oxygen Radical Absorbance Capacity ORAC and Trolox Equivalent Antioxidant Capacity TEAC assays Provides insights into processing options for enhanced antioxidant bioavailability Presents correlation potentials for increased total antioxidant capacity Includes methods for the in situ or in line monitoring of antioxidants to reduce industrial loss of antioxidants in beverages Proposes processing of concentrated fractions of antioxidants that can be added to foods
