Tunstall, 2009-08-25 This book contends that Josiah Royce bequeathed to philosophy a novel idealism based on an ethico religious insight This insight became the basis for an idealistic personalism wherein the Real is the personal and a metaphysics of community is the most appropriate approach to metaphysics for personal beings especially in an often impersonal and technological intellectual climate The first part of the book traces how Royce constructed his idealistic personalism in response to criticisms made by George Holmes Howison That personalism is interpreted as an ethical and panentheistic one somewhat akin to Charles Hartshorne s process philosophy The second part investigates Royce

s idealistic metaphysics in general and his ethico religious insight in particular In the course of these investigations the author examines how Royce s ethico religious insight could be strengthened by incorporating the philosophical theology of Dr Reverend Martin Luther King Jr and Emmanuel Levinas s ethical metaphysics The author concludes by briefly exploring the possibility that Royce s progressive racial anti essentialism is in fact a form of cultural antiblack racism and asks whether his cultural antiblack racism taints his ethico religious insight *Library of Congress Catalogs* Library of Congress,1978

 and Human Free Choice* Robert Joseph Matava, 2016-01-19 In *Divine Causality and Human Free Choice* R J Matava explains  
 the idea of physical premotion defended by Domingo B ez whose position in the Controversy de Auxiliis has been typically  
 ignored in contemporary discussions of providence and freewill Through a close engagement with untranslated primary texts  
 Matava shows B ez s relevance to recent debates about middle knowledge Finding the mutual critiques of B ez and Molina  
 convincing Matava argues that common presuppositions led both parties into an insoluble dilemma However Matava also  
 challenges the informal consensus that Lonergan definitively resolved the controversy Developing a position independently  
 advanced by several recent scholars Matava explains how the doctrine of creation entails a position that is more satisfactory  
 both philosophically and as a reading of Aquinas *Thales of Miletus* Patricia F. O'Grady, 2017-03-02 What is the basic  
 building block of the universe Thales of Miletus was the first to ask this fundamental yet to be answered question in the sixth  
 century B C This book offers an in depth account of the answers he gave and of his adventure into many areas of learning  
 philosophy science mathematics and astronomy Thales proved that the events of nature were comprehensible to man and  
 could be explained without the intervention of mythological beings Henceforth they became subject to investigation  
 experiment questioning and discussion Presenting for the first time in the English language a comprehensive study of Thales  
 of Miletus Patricia O Grady brings Thales out of pre Socratic shadows into historical illumination and explores why this  
 historical figure has proved to be of lasting significance *Music for Others* Nathan Myrick, 2021 Musical activity is one of  
 the most ubiquitous and highly valued forms of social interaction in North America to say nothing of world over being  
 engaged from sporting events to political rallies concerts to churches Moreover music s use as an affective agent for political  
 and religious programs suggests that it has ethical significance Indeed many have said as much It is surprising then that  
 music s ethical significance remains one of the most undertheorized aspects of both moral philosophy and music scholarship  
*Music for Others Care Justice and Relational Ethics in Christian Music* fills part of this scholarly gap by focusing on the

religious aspects of musical activity particularly on the practices of Christian communities Based on ethnomusicological fieldwork at three Protestant churches and a group of seminary students studying in an immersion course at South by Southwest SXSW and synthesizing theories of discourse formation and care ethics oriented towards restorative justice it first argues that relationships are ontological for both human beings and musical activity It further argues that musical meaning and emotion converge in human bodies such that music participates in personal and communal identity construction in affective ways yet these constructions are not always just Thus considering these aspects of music s ways of being in the world Music for Others finally argues that music is ethical when it preserves people in and restores people to just relationships with each other and thereby with God
