The Lexicon of Freemasonry appears as author of this Encyclopedia of Freemasonry and its Kindred Sciences which being a  
library in itself superseded most of the Masonic works which have been tolerated by the craft chiefly because none better  
could be obtained Here in one giant volume is a work which fulfils the hope which sustained the author through ten years  
literary labor that under one cover he would furnish every Mason who might consult its pages the means of acquiring a  
knowledge of all matters connected with the science the philosophy and the history of his order For more than thirty years Dr  
Mackey has devoted earnest and constant study and research to the history the objects and the condition of Masonry In the  
present work the crowning and successful result of a life s labors he has received no assistance from any one He says Every  
article was written by myself and he adds which would extenuate errors had he fallen into any For twelve months too of the  
time occupied upon this work I suffered from an affection of the sight which forbade all use of the eyes for purposes of study  
During that time now happily passed all authorities were consulted by the willing eyes of my daughters all writing was done  
by their hands I realized for a time the picture so often painted of the blind bard dictating his sublime verses to his daughters  
and his preface closes with the words Were I to dedicate this work at all my dedication should be To Filial Affection Up to the  
present time the modern literature of Freemasonry has been diffuse lumbering unreliable and out of all reasonable
