Politics, Individualism, and Atheism: An Examination of the Political Attitudes of Atheist Activists in a Canadian City

Jonathan Simmons

Given the growth of atheism in the Western world (including activist organizations), and atheists becoming more political, it is essential to understand the identities and values that motivate atheist activism. One avenue for exploring these identities and values is through an examination of individual political attitudes. Although the scholarship on atheist activists' political attitudes is limited, some scholars have identified the apparent growth of right-wing sentiments within the US atheist movement (LeDrew 2016). Others have identified a contentious relationship between prominent atheists' political attitudes and egalitarian views (e.g., anti-sexism and anti-racism) (Amarasingam, Amarnath, and Brewster 2016). Of those scholars who have commented on atheists' viewpoints, most emphasize the liberalism of the broader population of atheists. The purpose of this article is to examine the political attitudes of atheist activists in Edmonton, Alberta, Canada, and highlight a core set of political attitudes and values that atheists share despite intra-movement disagreements about the relationship between atheist identity and political ideology. My findings show that some Canadian atheist activists' share a cluster of liberal and Enlightenment ideals that includes personal liberty, individualism, and an absolutist view of free expression. This article will be of interest to scholars of atheist activism as well as social movement scholars.

Introduction

Given the expansion of organized atheism and the potential emergence of atheist politics, it is essential to understand how atheist activists conceptualize their atheist identities and relevant political attitudes and values. Consequently, this article provides insight into how a shared set core values shape some Canadian atheists' activism despite background tensions over formal politics and the direction of atheism as a social movement. Most of my participants found themselves united by significant personal attitudes and values that eclipsed their more pedestrian concerns regarding party politics. These attitudes were in turn reflected in their approaches to atheist activism and their viewpoints regarding the emergence of New Atheism, a primarily American literary phenomenon as well as a more strident form of atheist activism.¹ The article is organized as follows: first, I describe the literature addressing the political views of atheist activists. Then I describe my method. The remainder of the article focuses on atheist activists' political affiliations and attitudes. I conclude with a discussion of the implications of this article and offer suggestions for further research.

Existing Research

Existing research on the religious "nones," that is, the segment of society not professing a religious affiliation, suggests that persons in the atheist subset of this broader

category are socially liberal on matters like gender roles and sexual orientation. Research looking at party affiliation, at least in the United States, also suggests liberal political leanings toward Democratic affiliation (Baker and Smith 2009). Research on secular groups in British society parallel American findings. For example, David Voas and Abby Day (2007, 1017) find that British atheists are more likely to be liberal and to the left on the liberal/conservative or left/right scale respectively. The literature, however, on the attitudes of atheists in Canada is comparatively limited. The purpose of this article is to explore the attitudes and values of a subset of Canadian atheists through a qualitative study of atheist activists in Edmonton, Alberta, Canada.

The religious character of the United States sometimes dominates discussions of atheist activism, especially given the emergence of New Atheism, which is a relatively recent and primarily American cultural phenomenon and social movement (Cotter et al. 2017).² Canada may not come immediately to mind when thinking about self-conscious atheist activism, but a plethora of provincial and municipal atheist organizations increasingly represent the interests of atheists in Canada. (Although the Centre for Inquiry [CFI] is headquartered in the United States, it is the most significant atheist organization in Canada with affiliates in most provinces [Tomlins 2015]).

Although a comparison is beyond the scope of this article, parallels between Canadian and American forms of atheist activism are compelling, especially given Canadians' use of US New Atheist discourses such as those emphasizing science and more strident anti-religious

The Path of Moses: Scholarly Essay on the Case of Women in Religious Faith, 2022-06-27 Writing in the late 19th century, Moses Salamon, rabbi of a small Hungarian community, hoped to convince his fellow rabbis to recognize women as equally privileged members of the People of Israel. The result was his *The Path of Moses: A Scholarly Essay on the Case of Women in Religious Faith*, a ground-breaking enquiry into the causes of women's exclusion from most of Judaism's religious practices. Predating contemporary feminism, it gave early expression to ideas found in today's religious feminist critique of women's role in Judaism, thus undermining attempts to dismiss those ideas as shallowly mimicking fashionable secular opinion. *The Path of Moses* is here published for the first time in English, accompanied by the Hebrew original, an introduction, and commentary.

Annual Review of the Sociology of Religion. Volume 7 (2016) Roberto Cipriani, Franco Garelli, 2016-06-27 Recent studies show that atheism is increasing. The reasons for this development have not as yet been examined thoroughly. Many atheists continue to be residual groups in surveys on religiosity, making it difficult to examine who they are and why they have chosen to be atheists. Moreover, they are minority groups in most countries; former Soviet bloc countries are left out of discussion; many do not identify with any organized groups of atheists or agnostics. Atheist groups and ideologies then represent a wide range of attitudes, behaviour, and ways of acting towards religion. The lack of a clear definition of what being atheist or an unbeliever means today invites us to study the issue in greater depth. This volume represents a first attempt at understanding and scrutinizing atheism. Thanks to all contributors, it provides both a global perspective and specific insights into specific cases.

Atheism: The Basics Graham Oppy, 2018-10-03 *Atheism: The Basics* is a concise and engaging introduction to belief in the non-existence of deities. Atheism has long fascinated people, but debate around this controversial position may seem daunting. In this lively and lucid book, Graham Oppy addresses the following important questions: What does it mean to be an atheist? What is the difference between atheism, agnosticism, theism, and innocence? How has atheism been distributed over time and place? What does science tell us about atheism? Are there good reasons to be an atheist? Are there good reasons not to be an atheist? What do we mean by new atheism? With a glossary of key terms and suggestions for further reading throughout the book, it considers key philosophical arguments around atheism, making this an ideal starting point for anyone seeking a full introduction to the arguments between those who hold atheistic beliefs and those who do not.

Freedom of Being Human Rabjot Singh Isher, 2016 The story incorporates the essence of Belief, Non-belief. It explores the

psychology of human experience thinking behavior It contemplates whether ethics morality revenge hate are relative terms More importantly it speaks about love It depicts the constant struggle of few individuals The clash of their ideologies their love and hate towards each other Each one of them seek satisfaction through the fulfillment of their motives The story explores the human capability to make truly free and uncorrupted choices which are not influenced by experiences conditioning or even destiny It highlights various facets of our existence which has baffled the greatest of minds since the dawn of civilization Further it encourages the readers to derive their own conclusions for it instills a sense of appreciation in them before they could jump to the criteria of success failure or judgment Every human life is uniquely different and thus must be understood by different frames of reference In the end I would say the book carries a simple message The dignity is not in being born as a human but in relishing the potential of what one can become as a human and this is where each one of us individually express the freedom of being human

Say What? Joel T. Heinen, 2018-11-28 Religion is a funny thing Most people believe in one or another and assert that theirs is true Many religious people also assert that every other religion believed in by anyone else ranges from completely false to highly suspect There are religions that believe in many gods others that believe in one god and there are even religions that preach no gods There are also sects within religions that disavow other sects within the same religion There are religions that are extinct and new religions formed all the time The reformation of older religions is also ongoing What all religions seem to have in common are 1 supernatural beliefs that others don't believe and 2 absolutely no real demonstrable evidence that can be repeated and shown to others in support of any of their supernatural beliefs If you think about it religion truly is a funny thing in every sense of that word Many people define their religion to be the all encompassing paradigm of their existence that causes them to do completely virtuous altruistic things Yet religion also causes others who are equally or even more pious to commit mass murder And both have been true for many religions throughout history This volume takes a broad and satirical look at religions writ large mainly to question It's aimed largely at atheists and those on the fence but theists may be encouraged to read it too and question for themselves How did you acquire religion Why What do you believe Why Why not believe other equally implausible things that others do believe This volume is just a light hearted attempt to ask C'est tout
