Religion, a Dialogue, Etc Arthur Schopenhauer, 2015-11-23 Schopenhauer is one of the few philosophers who can be generally understood without a commentary All his theories claim to be drawn direct from the facts to be suggested by observation and to interpret the world as it is and whatever view he takes he is constant in his appeal to the experience of common life This characteristic endows his style with a freshness and vigor which would be difficult to match in the philosophical writing of any country and impossible in that of Germany If it were asked whether there were any circumstances apart from heredity to which he owed his mental habit the answer might be found in the abnormal character of his early education his acquaintance with the world rather than with books the extensive travels of his boyhood his ardent pursuit of knowledge for its own sake and without regard to the emoluments and endowments of learning He was trained in realities even more than in ideas and hence he is original forcible clear an enemy of all philosophic indefiniteness and obscurity so that it may well be said of him in the words of a writer in the *Revue Contemporaine* *ce n est pas un philosophe comme les autres c est un philosophe qui a vu le monde* It is not my purpose nor would it be possible within the limits of a prefatory note to attempt an account of Schopenhauer s philosophy to indicate its sources or to suggest or rebut the objections which may be taken to it M Ribot in his excellent little book *Footnote La Philosophie de Schopenhauer* par Th Ribot has done all that is necessary in this direction But the essays here presented need a word of explanation It should be observed and Schopenhauer himself is at pains to point out that his system is like a citadel with a hundred gates at whatever point you take it up wherever you make your entrance you are on the road to the center In this respect his writings resemble a series of essays composed in support of a single thesis a circumstance which led him to insist more emphatically even than most philosophers that for a proper understanding of his system it was necessary to read every line he had written Perhaps it would be more correct to describe *Die Welt als Wille und Vorstellung* as his main thesis and his other treatises as merely corollary to it The essays in this volume form part of the corollary they are taken from a collection published towards the close of Schopenhauer s life and by him entitled *Parerga und Paralipomena* as being in the nature of surplusage and illustrative of his main position They are by far the most popular of his

works and since their first publication in 1851 they have done much to build up his fame Written so as to be intelligible enough in themselves the tendency of many of them is towards the fundamental idea on which his system is based It may therefore be convenient to summarize that idea in a couple of sentences more especially as Schopenhauer sometimes writes as if his advice had been followed and his readers were acquainted with the whole of his work Religion - A Dialogue. - The Essays of Arthur Schopenhauer Arthur Schopenhauer,2012-03-10 Schopenhauer is one of the few philosophers who can be generally understood without a commentary All his theories claim to be drawn direct from the facts to be suggested by observation and to interpret the world as it is and whatever view he takes he is constant in his appeal to the experience of common life This characteristic endows his style with a freshness and vigor which would be difficult to match in the philosophical writing of any country and impossible in that of Germany If it were asked whether there were any circumstances apart from heredity to which he owed his mental habit the answer might be found in the abnormal character of his early education his acquaintance with the world rather than with books the extensive travels of his boyhood his ardent pursuit of knowledge for its own sake and without regard to the emoluments and endowments of learning He was trained in realities even more than in ideas and hence he is original forcible clear an enemy of all philosophic indefiniteness and obscurity so that it may well be said of him in the words of a writer in the Revue Contemporaine ce n est pas un philosophe comme les autres c est un philosophe qui a vu le monde **Religion: a dialogue, and other essays, selected [from Parerga] and tr. by T.B.
