The Essays of Arthur Schopenhauer; Counsels and Maxims Arthur Schopenhauer, 2020-03-06 Counsels and Maxims represents the second part of Schopenhauer's work originally titled *Aphorismen zur Lebensweisheit* first published in 1851 and translated by T B Saunders. The first part of the original has been translated under the name *The Wisdom of Life*. Both parts however deal with a single treatise with there being no division in the original.

The Essays of Arthur Schopenhauer; Studies in Pessimism Arthur Schopenhauer, 2020-03-06 The Essays here presented form a further selection from Schopenhauer's *Parerga* brought together under a title which is not to be found in the original and does not claim to apply to every chapter in the volume. The first essay is in the main a rendering of the philosopher's remarks under the heading of *Nachtrage zur Lehre vom Leiden der Welt* together with certain parts of another section entitled *Nachtrage zur Lehre von der Bejahung und Verneinung des Willens zum Leben*. Such omissions as I have made are directed chiefly by the desire to avoid repeating arguments already familiar to readers of the other volumes in this series.

Studies in Pessimism Arthur Schopenhauer, 2015-12-15 The Essays of Arthur Schopenhauer *Studies in Pessimism* Translated By T Bailey Saunders. The Essays here presented form a further selection from Schopenhauer's *Parerga* brought together under a title which is not to be found in the original and does not claim to apply to every chapter in the volume. The first essay is in the main a rendering of the philosopher's remarks under the heading of *Nachtrage zur Lehre vom Leiden der Welt* together with certain parts of another section entitled *Nachtrage zur Lehre von der Bejahung und Verneinung des Willens zum Leben*. Such omissions as I have made are directed chiefly by the desire to avoid repeating arguments already familiar to readers of the other volumes in this series. The Dialogue on Immortality sums up views expressed at length in the philosopher's chief work and treated again in the *Parerga*. The Psychological Observations in this and the previous volume practically exhaust the chapter of the original which bears this title. The essay on Women must not be taken in jest. It expresses Schopenhauer's serious convictions and as a penetrating observer of the faults of humanity he may be allowed a hearing on a question which is just now receiving a good deal of attention among us.
