Essays on Assemblage James Leggio,Helen Margaret Franc,1992 *Studies in Modern Art 2* ,1992 Welcome to Painterland Anastasia Aukeman,2016-08-09 The Rat Bastard Protective Association was an inflammatory close knit community of artists who lived and worked in a building they dubbed Painterland in the Fillmore neighborhood of midcentury San Francisco The artists who counted themselves among the Rat Bastards which included Joan Brown Bruce Conner Jay DeFeo Wally Hedrick Michael McClure and Manuel Neri exhibited a unique fusion of radicalism provocation and community Geographically isolated from a viable art market and refusing to conform to institutional expectations they animated broader social and artistic discussions through their work and became a transformative part of American culture over time Anastasia Aukeman presents new and little known archival material in this authorized account of these artists and their circle a colorful cultural milieu that intersected with the broader Beat scene Essays in Collective Epistemology Jennifer Lackey,2014-11-20 We often talk about groups believing knowing and testifying For instance we ask whether the Bush Administration had good reasons for believing that Saddam Hussein had weapons of mass destruction or whether BP knew that its equipment was faulty before the oil spill in the Gulf of Mexico Epistemic claims of this sort often have enormously significant consequences given the ways they bear on the moral and legal responsibilities of collective entities Despite the importance of these epistemic claims there has been surprisingly little philosophical work shedding light on these phenomena their consequences and the broader implications that follow for epistemology in general *Essays in Collective Epistemology* aims to fill this gap in the literature by bringing together new papers in this area by some of the leading figures in social epistemology The volume is divided into four parts and contains ten articles written on a range of topics in collective epistemology All of the papers focus on fundamental issues framing the epistemological literature on groups and offer new insights or developments to the current debates some do so by providing novel examinations of the epistemological relationship that groups bear to their members while others point to new cutting edge approaches to theorizing about concepts and issues related to collective entities Anyone working in epistemology or concerned with issues involving the social dimensions of knowledge should find the papers in this book both interesting and valuable **Archaeological essays in honor of Irving B. celebrates and seeks to understand the overlooked appearances of hybrid forms in visual culture artefacts and practices that meld or interweave incongruous elements in innovative ways And with an emphasis on the material aspects of such entities the book adopts the term mixed form for them Focusing on key phenomena in the last half millennium such as the cabinet of curiosities the broadside ballad and the chapbook as early forms of image text the scrapbook assemblage and in digital times so called mixed reality the book argues that while the quality of inconsistency is traditionally dismissed its expression nevertheless plays a vital role in social life Crucially *Mixed Forms of Visual Culture* relates its phenomena to the emergence of the division of labour under capitalism and addresses the shifting relationships between art and life when singularity and uniformity are variously valued and dismissed in the two arenas and at different points in history Two of the book's chapters take the form of visual essays with one comprising an anthology of found scrapbook pages and the other offering an analysis of artists' scrapbooks The book is richly illustrated throughout

Junk Gillian Whiteley, 2010-11-30 Trash garbage rubbish dross and detritus in this enjoyably radical exploration of Junk Gillian Whiteley rethinks art's historical and present appropriation of junk within our eco-conscious and globalised culture She does this through an illustrated exploration of particular materials key moments and locations and the telling of a panoply of trash narratives Found and ephemeral materials are primarily associated with assemblage object-based practices which emerged in the mid 1950s and culminated in the seminal exhibition *The Art of Assemblage* in New York in 1961 With its deployment of the discarded and the filthy Whiteley argues assemblage has been viewed as a disruptive transgressive artform that engaged with narratives of social and political dissent often in the face of modernist condemnation as worthless kitsch In the Sixties parallel techniques flourished in Western Europe the US and Australia but the idiom of assemblage and the re-use of found materials and objects with artist as bricoleur is just as prevalent now This is a timely book that uncovers the etymology of waste and the cultures of disposability within these economies of wealth

Nature of Commerce in General Richard Cantillon, Richard Cantillon is one of the key figures in the early history of economics. He was certainly not the first to think about economic problems but he was the first to have clear insight into the way the economy functions as a system. He was arguably the first to structure a theory of how the economy works. In this sense, he could be called the first real economist. Today, his ideas on population determination of prices, wages, and interest, the role of the entrepreneur, banking, and the influence of money supply on the economy are increasingly quoted and appreciated. This is a translation of the *essai sur la nature du commerce en general*, his only surviving work. It was circulated in manuscript form for many years after his death and was extremely influential, albeit not well known at least throughout the eighteenth century. *Essays on the Nature of Commerce in General* shaped the development of economics through its formative influence on François Quesnay and Adam Smith. It is a cornerstone upon which all subsequent economic theory has been built. Transaction is proud to breathe new life into this classic work as part of its distinguished series in economic theory and history. In his new introduction, Anthony Brewer showcases Cantillon, the prophetic thinker, for a new generation of readers. This volume's broad-based appeal and great cultural import can no longer afford to be overlooked. Students of economic theory, intellectual historians, and sociologists will find this volume indispensable. Richard Cantillon (1680-1734) Little is known about Cantillon except that he was Irish and turned briefly from a successful banking career, mainly in France, to write one of the most outstanding works in the history of the subject. *L'essai* Anthony A. Brewer is professor of the history of economics at the University of Bristol. He is on the editorial advisory board of the scholarly journal *History of Political Economy* and has held visiting posts at Duke University and Chuo University, Tokyo. He is the author of *Richard Cantillon: Pioneer of Economic Theory*, *Marxist Theories of Imperialism: A Critical Survey*, and *A Guide to Marx's Capital*. **Perspective: Selected Essays on Space in Art and Design** Sarina Miller, 2023-09-12 *Perspective: Selected Essays on Space in Art and Design* explores the ways in which visual and physical space have been designed and experienced in different cultures. This book amplifies the significance of space as a design element by examining its implications in various contexts through a global perspective of art and design. Miscellaneous Essays by H. T.
