Henry David Thoreau's Writing Style

Thoreau is one of those writers that was completely forthcoming with his thoughts and views as they are in his head yet, instead of changing the wording so that the reader will understand, he uses these metaphors to help drive his point home. These metaphors are simple and give a clearer image of what his saying. These metaphors help explain that while his is intelligent, he understand that not every Tom, Dick, and Harry will fully understand. These metaphors also elude to Thoreau being a simple man who seems to really be one with nature.

Thoreau says, "I wanted to live deep and suck out all the marrow of life..." He is saying that he understand what life is and what he doesn't want it to be. Combining that with "I did not wish to live what was not life, living is so dear..." he is not only stating what his intent is but distinguishing it with another example, here it is resignation. He is attempting to compare life as he know it with the life he still has yet to experience, something the complete opposite of what he currently has. He also says, "I went to the woods because I wished to live deliberately, to front only the essential fact of life..." By illustrating the possiblitiy of regret, he shows that there is motive for an individuals identification and symoltaniously, changes an opinion of personal desire into a justified profesion.

It doesn't take long for the reader notices that Thoreau is pairing a simile with each one of his ideas. One would interprate this as a tactic that Thoreau used to help the reader understand what he was thinking, what he was trying to say. It is almost like he was translating his thoughts so that the public at large could understand him. One would have to agree that this is a great way to do this. Not just for the people of this day, but for people to read his work for many years to come. One of the similies he gives here is, "An honest man has hardly need to count more than his ten fingers, or in extreme cases he may add his ten toes, and lump the rest." This particular analogy relates back to his idea that, "Our life is fritted awy by detail." That similie simply emphasized his idea. This approach really grabs the readers attention and connects them to the text.

The reader experiences a rather long metaphor, which is not exactly how Thoreau was executing this piece, and therefore it stands out. One may feel like it just rambles on and takes a lot longer to comprehend what he is trying to say. He uses a lot of rehtoric devices, for example "still live mealy, like ants error upon erro, and clout upon clout..." to slow the pace. As though Thoreu is coming through the page saying, "Reader, it is a busy world out there, and it is a vicious circlce you are caught up in being of the world, please, slow down."

There is also an interesting phrase Thoreau threw in where he says, "starved before we are hungry." This phrase could throw a reader off, to sit a

Thoreau's Ecstatic Witness Alan D. Hodder,2008-10-01 When Henry David Thoreau died in 1862 friends and admirers remembered him as an eccentric man whose outer life was continuously fed by deeper spiritual currents But scholars have since focused almost exclusively on Thoreau s literary political and scientific contributions This book offers the first in depth study of Thoreau s religious thought and experience In it Alan D Hodder recovers the lost spiritual dimension of the writer s life revealing a deeply religious man who despite his rejection of organized religion possessed a rich inner life characterized by a sort of personal experiential nature centered and eclectic spirituality that finds wider expression in America today At the heart of Thoreau s life were episodes of exhilaration in nature that he commonly referred to as his ecstasies Hodder explores these representations of ecstasy throughout Thoreau s writings from the riverside reflections of his first book through Walden and the later journals when he conceived his journal writing as a spiritual discipline in itself and a kind of forum in which to cultivate experiences of contemplative non attachment In doing so Hodder restores to our understanding the deeper spiritual dimension of Thoreau s life to which his writings everywhere bear witness **Prospects for the Study of**

The American Village in a Global Setting Michael E. Connaughton, Suellen Rundquist, 2009-03-26 In October 2005 a conference honoring the contributions of Sinclair Lewis to Midwest and American culture and celebrating the friendship between Sinclair Lewis and Ida K Compton was held at St Cloud State University in St Cloud Minnesota Sinclair Lewis would no doubt have been flattered and perhaps a bit surprised by the breadth of this conference in his honor The fact that scholars writers students and readers gathered to discuss his work and its broader influence would have pleased him He would have learned that readers still found stimulus for serious thought in his writing and that his works can serve as a springboard to discussion of today's societal issues some of which might surprise him considerably The papers selected from the conference entitled *The American Village in a Global Setting* consider elements of Lewis' world through today's lens In Part I his version of community is compared to that documented in other ways including architecture and television Scholars address issues such as anti-Semitism theocratic communities the Irish and outdoor life In Part II the concept of community is expanded to the visions of other authors including his contemporaries such as Martha Ostenso Josephine Donovan and Willa Cather as well as more recent writers In Part III today's social and cultural issues in America are addressed expressing the global and interdisciplinary intent of the conference And last Part IV continues the global theme addressing international communities and pedagogical philosophies through film and literature

The Keys of Power Nathan Crick, 2017-08-31 Examines Transcendentalism as a distinct rhetorical genre concerned primarily and self-consciously with questions of power Nathan Crick has crafted a new critical rhetorical history of American Transcendentalists that interprets a selection of their major works between the years 1821 and 1852 as political and ethical responses to the growing crises of their times In *The Keys of Power* Crick argues that one of the most enduring legacies of the Transcendentalist movement is the multifaceted understanding of transcendental eloquence as a distinct rhetorical genre concerned primarily and self-consciously with questions of power Crick examines the Transcendentalist understanding of how power is constituted in both the self and in society conceptualizing the relationships among technology nature language and identity critiquing the ethical responsibilities to oneself the other and the state and defining and ultimately praising the unique role that art action persuasion and ideas have in the transformation of the structure of political

culture over historical time What is offered here is not a comprehensive genealogy of ideas a series of individual biographies or an effort at conceptual generalization but instead an exercise in narrative rhetorical theory and criticism that interprets some of the major specific writings and speeches by men and women associated with the Transcendentalist movement Sampson Reed Amos Bronson Alcott Orestes Brownson Ralph Waldo Emerson Margaret Fuller Henry David Thoreau and Frederick Douglass by placing them within a specific political and social history Rather than attempting to provide comprehensive overviews of the life and work of each of these individuals this volume presents close readings of individual texts that bring to life their rhetorical character in reaction to particular exigencies while addressing audiences of a unique moment This rhetoric of Transcendentalism provides insights into the keys of power that is the means of persuasion for our modern era that remain vital tools for individuals seeking to reconcile power and virtue in their struggle to make manifest a higher ideal in the world
