Art and Revolution in Latin America, 1910-1990 David Craven, 2006-01-01 In this uniquely wide ranging book David Craven investigates the extraordinary impact of three Latin American revolutions on the visual arts and on cultural policy The three great upheavals in Mexico 1910-40 in Cuba 1959-89 and in Nicaragua 1979-90 were defining moments in twentieth century life in the Americas Craven discusses the structural logic of each movement's artistic project by whom how and for whom artworks

were produced and assesses their legacies. In each case he demonstrates how the consequences of the revolution reverberated in the arts and cultures far beyond national borders. The book not only examines specific artworks originating from each revolution's attempt to deal with the challenge of socializing the arts but also the engagement of the working classes in Mexico, Cuba, and Nicaragua with a tradition of the fine arts made newly accessible through social transformation. Craven considers how each revolution dealt with the pressing problem of creating a dialogical art, one that reconfigures the existing artistic resource rather than one that just reproduces a populist art to keep things as they were. In addition, the author charts the impact on the revolutionary processes of theories of art and education articulated by such thinkers as John Dewey and Paulo Freire. The book provides a fascinating new view of the Latin American revolutionaries from artists to political leaders who defined art as a fundamental force for the transformation of society and who bequeathed new ways of thinking about the relations among art, ideology, and class within a revolutionary process.

Carlos Chávez and His World Leonora Saavedra, 2015-08-25. Carlos Chávez (1899-1978) is the central figure in Mexican music of the twentieth century and among the most eminent of all Latin American modernist composers. An enfant terrible in his own country, Chávez was an integral part of the emerging music scene in the United States in the 1920s. His highly individual style, diatonic dissonant contrapuntal, addressed both modernity and Mexico's indigenous past. Chávez was also a governmental arts administrator, founder of major Mexican cultural institutions, and conductor and founder of the Orquesta Sinfónica de México. **Carlos Chávez and His World** brings together an international roster of leading scholars to delve into not only Chávez's music but also the history, art, and politics surrounding his life and work. Contributors explore Chávez's vast body of compositions, including his piano music, symphonies, violin concerto, late compositions, and Indianist music. They look at his connections with such artistic greats as Aaron Copland, Miguel Covarrubias, Henry Cowell, Silvestre Revueltas, and Paul Strand. The essays examine New York's modernist scene, Mexican symphonic music, portraits of Chávez by major Mexican artists of the period, including Diego Rivera and Rufino Tamayo, and Chávez's impact on El Colegio Nacional. A quantum leap in understanding Carlos Chávez and his

milieu this collection will stimulate further work in Latin American music and culture The contributors are Ana R Alonso Minutti Amy Bauer Leon Botstein David Brodbeck Helen Delpar Christina Taylor Gibson Susana Gonz lez Aktories Anna Indych L pez Roberto Kolb Neuhaus James Krippner Rebecca Levi Ricardo Miranda Juli n Orb n Howard Pollack Leonora Saavedra Antonio Saborit Stephanie Stallings and Luisa Vilar Pay Bard Music Festival 2015 Carlos Ch vez and His World Bard College August 7 9 and August 14 16 2015

Modernity and the Architecture of Mexico Edward R. Burian, 2010-06-28 Since the mid 1970s there has been an extraordinary renewal of interest in early modern architecture both as a way of gaining insight into contemporary architectural culture and as a reaction to neoconservative postmodernism This book undertakes a critical reappraisal of the notion of modernity in Mexican architecture and its influence on a generation of Mexican architects whose works spanned the 1920s through the 1960s Nine essays by noted architects and architectural historians cover a range of topics from broad based critical commentaries to discussions of individual architects and buildings Among the latter are the architects Enrique del Moral Juan O Gorman Carlos Obreg n Santacilia Juan Segura Mario Pani and the campus and stadium of the Ciudad Universitaria in Mexico City Relatively little has been published in English regarding this era in Mexican architecture Thus *Modernity and the Architecture of Mexico* will play a groundbreaking role in making the underlying assumptions ideological and political constructs and specific architect s agendas known to a wide audience in the humanities Likewise it should inspire greater appreciation for this undervalued body of works as an important contribution to the modern movement
