depth of avoidance BOOK JACKET *The Modern Restoration* Stephen Parker, Peter Davies, Matthew Philpotts, 2012-04-17
This book seeks to move twentieth century German literary history away from its stubbornly persistent reliance on the political turning points of 1933 and 1945 In the first part of the book the authors analyze a synchronic corpus of literary journals identifying a restorative aesthetic mood in the years 1930 1960 which persists across political date boundaries In the second part the careers of five writers are considered diachronically against this prevailing restorative climate Gottfried Benn Johannes R Becher Bertolt Brecht G nter Eich and Peter Huchel Combining these two approaches the authors show that a fresh perspective that challenges established literary historical periodisations can shed light on the common cultural and aesthetic ground shared by writers editors and critics across the ideological divides of the era **Journal of the Royal Asiatic Society of Great Britain & Ireland** ,1883 Hans Magnus Enzensberger Alasdair King, 2007 The writings of Hans Magnus Enzensberger are a provocative commentary on the post 1945 period in Germany Poet and essayist of international standing and frequent contributor to political and cultural debates his work has accompanied the development of the Federal Republic from the 1950s to German unification and after This study makes explicit the links between Enzensberger s literary imagination and the cultural and political history of Germany and offers a close reading of both Enzensberger s poetry and his seminal essays on politics and culture proposing that they be considered as part of a single artistic project The book argues that Enzensberger s significance lies in his sustained exploration of the relationship between literary and cultural practices and political democracy in Germany It offers detailed analyses of Enzensberger s poetry and considers his essays on the consciousness industry and on the constituents of a theory of the media in the context of the political development of the Federal Republic in the half century following 1945 Post World War 2 essays on cinema and television on tourism consumption and migration and on digital media and the future of literature are also considered and analysed Enzensberger s work is situated as part of an ongoing critical debate between him and key intellectual figures such as Theodor W Adorno Walter Benjamin Siegfried Kracauer Jurgen Habermas Jean Baudrillard and Michel Foucault The Library Bulletin of Cornell University ,1886
