
ESSAYS ON ACCOUNTING THEORY AND CURRENT ISSUE

Assignment 1

Essay Topic: "If constituency support is necessary before particular accounting approaches become embodied in accounting standards, does this have implications for the 'neutrality' and 'representational faithfulness' (qualitative characteristics that exist in various conceptual framework projects around the world) of reports generated in accordance with accounting standards?"

Word Count: 1,004

The slender discovery of an issue cannot be considered sufficient for assuring that the Board of Financial Accounting Standards is successful in undertaking the solution. There has to be a significantly high chance that the Board will deal with the resolution of issues in a way that has acceptability with respect to the constituency (Locke 2011). This is the scenario when there is lack of some previous understanding about the chances that the members of the board will have the ability of reaching a mutual consensus. This does not involve a general advice for undertaking a project formally.

In reference with this quotation, this essay will discuss the scenario if constituency support can be considered significant prior to the embodiment of accounting approaches in specific accounting standards. For serving the purpose of this essay, discussion will be created on key implications for representational faithfulness and neutrality of generated reports with respect to the accounting standards (Leo et al. 2009).

The decision of IASB has devoted significant resource for the improvement and completion of conceptual framework as an important event for the establishment of a combination of international accounting standards with good quality. It has placed an opportunity for having a lasting positive effect for the ones affected by and involved in financial and accounting reporting (Jubb et al. 2010). There is a rise of this opportunity on rare basis, and hence it is significant that the constituents will be provided with significant time for using opportunity with maximum scope. With respect to this, there is an encouragement of interested parties for participating in the process of IASB.

Previous studies lobbying the private and public sector have faced criticisms for the treatment of episodes as per the standards set as discrete events can be devoid from any factors being considered in accordance with the rise of specific issue. In the analysis of accounting

Managerial Capitalism in Retrospect R. Marris, 1998-10-25 An updated revisiting of the themes of Robin Marris classic *The Economic Theory of Managerial Capitalism* 1964 This was widely recognised as pathbreaking as it was the first attempt by a professional economist to make a formal theory of the behaviour and growth of a large scale managerial corporation based on a realistic assessment of the sociological and institutional environment The model determined the long run growth rates of individual firms on the basis of the financial and market environment on the one hand and the needs interest and aspirations of both managers and shareholders on the other Managers in particular were shown to trade desire for growth against fear of takeover These then novel important features of modern capitalism mergers takeovers and executive bonuses and the relationship between the growth of firms and the growth of the economy have become increasingly topical The book contains the original introduction along with reworked and updated coverage of the theoretical model along with completely new chapters both of micro theory and Marris substantive response to the debate which the original book created

Management Control Theory A.J. Berry, J. Broadbent, D.T. Otley, 2019-05-23 First published in 1998 this volume of readings provides an overview of the development of the study of Management Control theory over the past 35 years The period encompasses the publication of a major and seminal text by Anthony and Dearden in 1965 which acted as a touchstone in defining the range and scope of management control systems This laid management control's foundations in accounting based mechanisms of control an element which has been seen as both a strength and a constraint A good deal of work has followed providing both a development of the tradition as well as a critique In this volume we attempt to provide a range of readings which will illustrate the variety of possibilities that are available to researchers scholars and practitioners in the area The readings illustrate the view that sees control as goal directed and integrative They go on to explore the idea of control as adaption consider its relationship with social structure and survey the effects of the interplay between the organisation and the environment The essays included are not intended to lead the reader through a well ordered argument which concludes with a well reasoned view of how management control should be Instead it seeks to illustrate the many questions which have been posed but not answered and to open up agendas for future research
