Essays In Economic Sociology:

Essays in Economic Sociology Max Weber, 1999-09-05 Economic sociologist and Weber scholar Richard Swedberg has in this volume selected essays from Weber's enormous body of writings on the subject of economic sociology. The central themes of the anthology are modern capitalism and its relationships to politics, law, culture, and religion. *Two Essays on Economic Sociology of Education and Two Essays on the Economics of Antitrust Law and Regulation* Yoon-Ho Alex Lee, 2006

Lifestyles and Social Change Terhi-Anna Wilska, Leena Haanpää, 2006 *The Sociology and Professionalization of Economics* A. W. Bob Coats, 2005-08-17 A W Coats has made unique contributions to the history of economic thought, economic methodology, and the sociology of economics. This volume collects together for the first time a substantial part of his work on the sociology and professionalization of economics. *Essays in the Economic Sociology of Inequality* Franco Bonomi Bezzo, 2020 *Essays in Socio-Economics* Amitai Etzioni, 2013-03-09 These essays deal with various aspects of a new rising field, socio-economics. The field is seeking to combine the variables studied by neoclassical economists with those typically studied by other social sciences. The combination is expected to provide a better understanding of economic behavior and the economy as well as society, make more reliable predictions, and be more in line with normative values we seek to uphold. The new field, though, may be less elegant mathematically and possibly less parsimonious than neoclassical economics. Some of my ideas on this subject are included in a previously published book, *The Moral Dimension Toward A New Economics* New York: The Free Press, 1988. They also led to a formation of an international society of several thousand scholars who are interested in the field, the Society for the Advancement of Socio-Economics. The essays at hand are in effect grouped. The first two previously published respectively in the *Journal of Economic Psychology* and *Business Ethics Quarterly* reflect my most recent thinking. They both have a utopian streak that may stand out especially in these days when unfeathered capitalism is the rage. The first points to people who far from making consuming ever more their life's project, seek a less affluent way of life. It examines the psychological foundations and the social consequences of such an approach.

The Sociology and Professionalization of Economics Alfred William Coats, 1993 A W Coats has made unique contributions to the history of economic thought, the sociology of economics, and economic methodology. This newest volume in the series *British and American Economic Essays* is the first to draw together a substantial portion of his work on the sociology and professionalization of economics. This volume contains the work for which Coats is perhaps most widely known. It gathers his essays on the social nature of economics as a science, the origin and history of some of the institutions which have done the most to shape the development of the discipline, and the issue of economics as a profession. As with the other volumes in the series, there is a particular emphasis on the similarity and differences between economics and economists in Britain and in North America. *A Voice of Reform* Tatiana I. Zaslavskaja, Murray Yanowitch, A. Schultz, 2016-07-22 First Published in 1989. It has become common both in Soviet and in Western writings about the USSR to characterize the early 1980s as the immediate

pre Gorbachev period as years of stagnation or at the very least near stagnation in the Soviet system Since the sudden outburst of reformist thinking since 1985 it is clear there is actually an elaboration and reinforcement of concepts and ideas that had already begun to emerge in the pre Gorbachev years The writings of Tat iana I Zaslavskaia trained as an economist and today one of the most influential and best known Soviet sociologists provide an illustration of this proposition

of society and economy against the backdrop of recent crises as well as technological political and social change in Europe.
