Aesthetical Essays of Schiller Friedrich Schiller, 2015-11-19 The special subject of the greater part of the letters and essays of Schiller contained in this volume is Aesthetics and before passing to any remarks on his treatment of the subject it will be useful to offer a few observations on the nature of this topic and on its treatment by the philosophical spirit of different ages First then aesthetics has for its object the vast realm of the beautiful and it may be most adequately defined as the philosophy of art or of the fine arts To some the definition may seem arbitrary as excluding the beautiful in nature but it will cease to appear so if it is remarked that the beauty which is the work of art is higher than natural beauty because it is the offspring of the mind Moreover if in conformity with a certain school of modern philosophy the mind be viewed as the true being including all in itself it must be admitted that beauty is only truly beautiful when it shares in the nature of mind and is mind s offspring Viewed in this light the beauty of nature is only a reflection of the beauty of the mind only an imperfect beauty which as to its essence is included in that of the mind Nor has it ever entered into the mind of any thinker to develop the beautiful in natural objects so as to convert it into a science and a system The field of natural beauty is too uncertain and too fluctuating for this purpose Moreover the relation of beauty in nature and beauty in art forms a part of the science of aesthetics and finds again its proper place But it may be urged that art is not worthy of a scientific treatment Art is no doubt an ornament of our life and a charm to the fancy but has it a more serious side When compared with the absorbing necessities of human existence it might seem a luxury a superfluity calculated to enfeeble the heart by the assiduous worship of beauty and thus to be actually prejudicial to the true interest of practical life This view seems to be largely countenanced by a dominant party in modern times and practical men as they are styled are only too ready to take this superficial view of the office of art **Aesthetical and Philosophical Essays** Frederick Schiller, C. Essays Frederick Schiller, 2014-05-07 *Aesthetical and Philosophical Essays* by Frederick Schiller. The Philosophical Spirit of Different Ages. Complete New Edition. The special subject of the greater part of the letters and essays of Schiller contained in this volume is Aesthetics, and before passing to any remarks on his treatment of the subject it will be useful to offer a few observations on the nature of this topic and on its treatment by the philosophical spirit of different ages. First then aesthetics has for its object the vast realm of the beautiful and it may be most adequately defined as the philosophy of art or of the fine arts. To some the definition may seem arbitrary as excluding the beautiful in nature but it will cease to appear so if it is remarked that the beauty which is the work of art is higher than natural beauty because it is the offspring of the mind. Moreover if in conformity with a certain school of modern philosophy the mind be viewed as the true being including all in itself it must be admitted that beauty is only truly beautiful when it shares in the nature of mind and is mind's offspring. Viewed in this light the beauty of nature is only a reflection of the beauty of the mind, only an imperfect beauty which as to its essence is included in that of the mind. Nor has it ever entered into the mind of any thinker to develop the beautiful in natural objects so as to convert it into a science and a system. The field of natural beauty is too uncertain and too fluctuating for this purpose. Moreover the relation of beauty in nature and beauty in art forms a part of the science of aesthetics and finds again its proper place. But it may be urged that art is not worthy of a scientific treatment. Art is no doubt an ornament of our life and a charm to the fancy but has it a more serious side? When compared with the absorbing necessities of human existence it might seem a luxury, a superfluity calculated to enfeeble the heart by the assiduous worship of beauty and thus to be actually prejudicial to the true interest of practical life. This view seems to be largely countenanced by a dominant party in modern times and practical men as they are styled are only too ready to take this superficial view of the office of art. *Aesthetical Essays of Frederick Schiller* Friedrich von Schiller, 2016-05-03 Notice This Book is published by Historical Books Limited [www publicdomain org uk](http://www.publicdomain.org.uk) as a Public Domain Book if you have any inquiries requests or need any help you can just send an
