**The Architecture of Rights** David Frydrych, 2021-10-13 What is a right What if anything makes rights different from other features of the normative world such as duties standards rules or principles Do all rights serve some ultimate purpose In addition to raising these questions philosophers and jurists have long been aware that different senses of a right abound To help make sense of this diversity and to address the above questions they developed two types of accounts of rights models and theories This book explicates rights modelling and theorising and scrutinises their methodological underpinnings It then challenges this framework by showing why the theories ought to be abandoned In addition to exploring structural concerns the book also addresses the various ways that rights can be used It clarifies important differences between rights exercise enforcement remedying and vindication and identifies forms of legal rights claiming and rights invoking outside of institutional contexts

Rights, Groups, and Self-Invention Eric J. Mitnick, 2018-01-18 Group differentiated rights or rights that attach on the basis of membership in a particular social or cultural group are an increasingly common and controversial aspect of modern pluralistic legal systems Eric Mitnick offers the first comprehensive treatment of this important form of right The book describes and critically assesses the group differentiated form of right from within analytical constitutive and liberal theory It further examines the extent to which group differentiated rights constitute aspects of human identity and it asks whether this should be a cause for concern from the perspective of liberal theory The more detailed normative work advanced in the book contextually applies the constitutive understanding of rights and the principles of liberal membership to particular examples of group differentiated citizenship Such examples range from ascriptive statuses such as slavery and alienage to more affirmative classifications such as those apparent in the contexts of civil unions and affirmative action finally to the claims of religious and other cultural groups for official recognition and accommodation of group based beliefs and practices
