

The Israel-Lebanon Conflict: Media Opinion

✓ Exclusively available on IvyPanda

The demonization of Israel in the Islamic world has been well documented by web sites such as MEMRI, the Middle Eastern Media Research Institute which translates many articles from Arabic, Turkish and Farsi into English so that the West will know what is being said in those far-away countries. In doing so, MEMRI opened a Pandora's box of anti-Semitism: on Hamas TV a drama portrayed Jews as blood drinkers (SD 2308), and also on Hamas TV the Friday sermon cites the Protocols of the Elders of Zion, calls on the faithful to annihilate the Jews and compares Jews to dogs (SD 2310).

In Saudi Arabia clerics teach children to hate the Jews (SD 2310). In Egypt a sheikh charged that Jews infect food with cancer and ship it to Muslim countries (SD 2259), and another calls for a jihad against the Jews, who are devils in human form (SD 2254). Mahmoud Ahmadinejad says that to question the Holocaust is to cut the "vital arteries of the Zionist regime" (SD 2221). An Egyptian cleric says Israeli president Simon Peres has a helmet filled with the dried blood of Egyptian POWs he murdered in 1967, and repeats the widely believed idea that Jews are the sons of apes and pigs (SD 2198). Then there is the blood libel, which has Jews slaughtering Christians to use their blood for matzos (SD 1453), and so on.

The extreme anti-Israel propaganda of the Middle East has filtered into the Western media, although in a greatly diluted form. A good example of anti-Semitic demagoguery was provided by British Member of Parliament George Galloway while being interviewed by SkyNews reporter, Anna Botting in July, 2006. The subject was Israel's invasion of Lebanon in retaliation against Hezbollah attacks.

During the interview the screen was split into three parts, a Google Earth map at the bottom, with scenes from Lebanon and Galloway's image above. While one screen showed Israeli soldiers carrying wounded comrades to an ambulance, Botting introduced Galloway and posed her first question. Both were denounced by Galloway as "preposterous," which was his way of establishing his dominant position in the interview. He was dressed in an open-necked black shirt and black jacket for effect, and held his head back as if to say he couldn't quite take this exercise seriously.

The War for Lebanon, 1970-1985 Itamar Rabinovich, 1985 The war for Lebanon, a conflict of domestic and external forces seeking to shape and control the Lebanese entity, began long before 1970 and unfortunately did not end in 1983. But these years, the focus of this book, form a particularly significant phase in the history of both Lebanon and its immediate environment. The events of this period unfolded through 4 distinct stages: the collapse of the Lebanese political system between 1970 and 1975, the civil war of 1975-76, the lingering crisis of the years 1976-82 and the war of 1982. This book primarily explores the interplay between Lebanon's domestic politics and developments in the larger Middle East.

Secularism, Women & the State Barry Alexander Kosmin, Ariela Keysar, 2009 *How Border Peripheries are Changing the Nature of Arab States* Maha Yahya, 2023-01-01 This book addresses the multiple dimensions of the limited reach or breakdown of central authority in border regions of Arab states and their implications for state sovereignty and modes of governance. These include the emergence of illicit networks of exchange, the rise of new nonstate actors in border regions including paramilitary or jihadi groups and the transformation of border areas into areas of regional conflict. Collectively, the essays in this volume address such processes which have been observable in conflict-stricken countries such as Syria, Iraq and Yemen and in fragile political or economic contexts like the ones in Lebanon, Tunisia and Algeria as well as in relatively stable Emirates such as Kuwait. The contributions also shed light on how border peripheries in the Arab world have impacted the center of political and economic power in their states. exchanges this study asks how these historical circumstances shaped local debates in Beirut over artistic pedagogy the social role of the artist the aesthetics of form and ultimately the development of a national art Drawing on a range of archival material and taking an interdisciplinary approach Sarah Rogers argues that the genealogies of modern art can never be understood as isolated national histories but rather that they participate in an ever contingent global modernism This book will be of particular interest to scholars in art history Cold War studies and Middle East studies

Development Against Democracy Irene L. Gendzier, 2017-08-20 This new updated edition of the influential *Development Against Democracy* is a critical guide to postwar studies of modernisation and development In the mid twentieth century models of development studies were products of postwar American policy They focused on newly

independent states in the Global South aiming to assure their pro Western orientation by promoting economic growth political reform and liberal democracy However this prevented real democracy and radical change Today projects of democracy have evolved in a radically different political environment that seems to have little in common with the postwar period Development Against Democracy however testifies to a revealing continuity in foreign policy including in justifications of humanitarian intervention that echo those of counterinsurgency decades earlier in Latin America the Middle East and Southeast Asia Irene L Gendzier argues that the fundamental ideas on which theories of modernisation and development rest have been resurrected in contemporary policy and its theories representing the continuity of postwar US foreign policy in a world permanently altered by globalisation and its multiple discontents the proliferation of failed states the unprecedented exodus of refugees and Washington s declaration of a permanent war against terrorism
