Essays On The Moral Concepts 1st Edition:

The Seventh Sense Peter Kivy, 2003-02-20 The Seventh Sense is the definitive study of the aesthetic theory of the great eighteenth century philosopher Francis Hutcheson arguably the founder of the modern discipline of aesthetics and one of the most important figures of the Scottish Enlightenment This new edition brings Peter Kivy's seminal work back into print substantially expanded by the addition of seven essays which deal primarily with Hutcheson's relation to other thinkers and his influence on eighteenth and early nineteenth century aesthetics Part I of The Seventh Sense presents a detailed analysis of Hutcheson's aesthetic theory Part II traces the considerable influence of Hutcheson's theory up to the early years of the nineteenth century Part III is a new and substantial addition to the original work collecting Peter Kivy's essays on this topic since the first edition appeared which deal primarily with Hutcheson David Hume and Thomas Reid Philosophers of art historians of philosophy and historians working on eighteenth century European art and culture will find this new edition an invaluable resource

Morality Within the Limits of Reason Russell Hardin, 1988 This provocative lucidly written reconstruction of utilitarianism focuses on the practical constraints involved in ethical choice information may be inadequate and understanding of causes and effects may be limited Good decision making may be especially constrained if other people are closely involved in determining an outcome Hardin demonstrates that many of these structural issues can and should be distinguished from the thornier problems of utilitarian value theory and he is able to show what kinds of moral conclusions we can reach within the limits of reason

British Books ,1916 Does Neuroscience Have Normative Implications?

Geoffrey S. Holtzman, Elisabeth Hildt, 2020-10-31 This book brings together a number of essays that are optimistic about the ways certain neuroscientific insights might advance philosophical ethics and other essays that are more circumspect about the relevance of neuroscience to philosophical ethics As a whole the essays form a self reflective body of work that simultaneously seeks to derive normative ethical implications from neuroscience and to question whether and how that may be possible at all In doing so the collection brings together psychology neuroscience philosophy of mind ethics and philosophy of science Neuroscience seeks to understand the biological systems that guide human behavior and cognition Normative ethics on the other hand seeks to understand the system of abstract moral principles dictating how people ought to behave By studying how the human brain makes moral judgments can philosophers learn anything about the nature of morality itself A growing number of researchers believe that neuroscience can indeed provide insights into the questions of philosophical ethics However even these advocates acknowledge that the path from neuroscientific to normative ethical ought can be quite fraught

Essays on Moral Realism Geoffrey Sayre-McCord, 1988 This collection of influential essays illustrates the range depth and importance of moral realism the fundamental issues it raises and the problems it faces

Explanation in Action Theory and Historiography Gunnar Schumann, 2019-05-29 Is the appropriate form of human action explanation causal or rather teleological While this is a central question in analytic philosophy of action it also has

implications for questions about the differences between methods of explanation in the sciences on the one hand and in the humanities and the social sciences on the other. Additionally, this question bears on the problem of the appropriate form of explanations of past human actions and therefore it is prominently discussed by analytic philosophers of historiography. This volume brings together causalists and anti-causalists to address enduring philosophical questions at the heart of this debate as well as their implications for the practice of historiography. Part I considers the quarrel between causalism and anti-causalism in recent developments in the philosophy of action. Part II presents papers by causalists and anti-causalists that are more narrowly focused on the philosophy of historiography.

Conceptions of Culture Thomas E. Wren, 2012-07-16 The concept of culture stands clearly but unsteadily at the heart of multicultural education. This book provides a systematic in-depth understanding of the role that culture plays in the massive literature of multicultural education as multiple and antithetical definitions of culture exist. The book also shows multicultural educators how to discern the definition used in any particular book or article. Thomas Wren deploys methods and concepts from philosophy and the social sciences to provide an analytic framework within which the history and current state of culture theory can be understood both for its own sake and for its educational significance. Although the book is full of theory, it is not a theoretical book in the usual sense. It is a road map accompanied by the related theoretical information and tools that graduate students and faculty need to

1. navigate the complex terrain of multicultural education literature
2. apply the book's analytical framework to that literature and to their own future practice and
3. anticipate the social changes and accompanying conceptual changes in our notions of culture that are now occurring as part of the cultural hybridity of today's students.

Essays: Scientific, Political, and Speculative, Volume II Herbert Spencer, 2021-12-02

A Reader in Moral Philosophy Daniel R. DeNicola, 2022-02-23 This lively anthology provides classic and contemporary defenses and critiques of the central ethical theories along with readings on a selection of moral issues such as freedom of expression, immigration, and the treatment of non-human animals. Generous excerpts of canonical texts are included alongside contemporary works, all carefully selected and thoughtfully edited for student use. Readings on the ethical theories are organized intuitively by implicit source of value: god, human, nature, culture, reason, consent, character, emotion, care, particulars, and intuitions. The interconnections among readings amplify teaching possibilities and create a vigorous conversation about morality.

Iris Murdoch Guy Backus, 1986

A Treatise of Legal Philosophy and General Jurisprudence Enrico Pattaro, 2007-10-08 A Treatise of Legal Philosophy and General Jurisprudence is the first ever multivolume treatment of the issues in legal philosophy and general jurisprudence from both a theoretical and a historical perspective. The work is aimed at jurists as well as legal and practical philosophers. Edited by the renowned theorist Enrico Pattaro and his team, this book is a classical reference work that would be of great interest to legal and practical philosophers as well as to jurists and legal scholars at all levels. The work is divided into two parts: the theoretical part, published in 2005, consisting of five volumes, covers the main topics of the contemporary debate; the historical part, consisting

of six volumes Volumes 6 8 published in 2007 Volumes 9 and 10 published in 2009 Volume 11 published in 2011 and volume 12 forthcoming in 2012 2013 accounts for the development of legal thought from ancient Greek times through the twentieth century The entire set will be completed with an index Volume 1 The Law and the Right a Reappraisal of the Reality that ought to be by Enrico Pattaro This work brings out and recovers the normative dimension of law called the reality that ought to be placing within this reality the idea of what is right Part I reconstructs the current as well as the traditional civil law conception of the reality that ought to be and raises some critical theoretical issues Part II introduces some basic concepts on language and behaviour and presents a conception of norms as beliefs Part III aims to find explanations for the idea of a reality that ought to be Part IV consists of inquiries focussed on Homeric epic the natural law school and the normativistic view of positive law

The Concept and Practice of Conversation in the Long Eighteenth Century, 1688-1848 Katie Halsey, Jane Slinn, 2009-05-05 This collection of essays brings together eighteenth century scholars from a variety of disciplines to discuss conversation in the eighteenth century as concept and practice At the heart of the volume is a simple question are eighteenth century conceptualisations of the role and purpose of conversation still relevant or useful to scholars and thinkers today This volume contains essays by leading scholars of the period as well as early career researchers and answers a need for a broad ranging discussion of the concept of conversation in the arts social sciences and humanities The long eighteenth century is a particularly fruitful starting point for work on this topic since ideas about conversation permeated all types of writing in this period from the early forerunners of scientific textbooks to philosophical dialogues The collection covers an exceptionally wide range of long eighteenth century authors artists lawmakers texts and works of art and although the focus of the volume is largely on eighteenth century Britain the volume takes note of the rich relationships between continental European thought and British intellectual life in the period and of the influence of British ideas in the newly independent American republic

An Essay Concerning Human Understanding John Locke, 1894

The British Aesthetic Tradition Timothy M. Costelloe, 2013-03-18 The British Aesthetic Tradition From Shaftesbury to Wittgenstein is the first single volume to offer readers a comprehensive and systematic history of aesthetics in Britain from its inception in the early eighteenth century to major developments in Britain and beyond in the late twentieth century The book consists of an introduction and eight chapters and is divided into three parts The first part The Age of Taste covers the eighteenth century approaches of internal sense theorists imagination theorists and associationists The second The Age of Romanticism takes readers from debates over the picturesque through British Romanticism to late Victorian criticism The third The Age of Analysis covers early twentieth century theories of Formalism and Expressionism to conclude with Wittgenstein and a number of views inspired by his thought

Liberalism, Constitutionalism, and Democracy Russell Hardin, 2003 In his ground breaking book the leading political philosopher Russell Hardin develops a new theory of liberal constitutional democracy Arguing against the standard consensus theories the author shows how social co ordination on limited

sociological mutual advantage lies at the heart of liberal constitutionalism when it works to produce stable government The book argues that liberalism constitutionalism and democracy are co ordination theories They work only in societies in which co ordination of the important power groups for mutual advantage is feasible It then goes on to examine and interpret the US constitution as motivated centrally by the concern with creating a government to enable commerce In addition the book addresses the nature of the problems that the newly democratic newly market oriented states face The analysis of constitutionalism is based on its workability not on its intrinsic normative or universal appeals Hardin argues similarly there are harsh limits on the possibilities of democracy In general democracy works only on the margins of great issues Indeed it is inherently a device for regulating marginal political conflicts

The Image of the Middle Ages in Romantic and Victorian Literature Kevin L. Morris, 2019-06-26 Originally published in 1984 The Image of the Middle Ages in Romantic and Victorian Literature looks at the impact of medievalism in the 18th and 19th centuries and the importance of post Enlightenment literary religious medievalism The book suggests that religious medievalism was not a superficial cultural phenomenon and that the romantic spirit with which it was chronologically connected was intimately associated with the metaphysical The book suggests that this belief gave birth to the metaphysical yearning and cultural expression of the eighteenth and nineteenth century The book seeks to clarify the post Enlightenment relationship between aesthetic culture and aesthetic religion romanticism medievalism and religious trends

Darshana International, 1986

The Development of Ethics Terence Irwin, 2007 This book is a selective historical and critical study of moral philosophy in the Socratic tradition with special attention to Aristotelian naturalism It discusses the main topics of moral philosophy as they have developed historically including the human good human nature justice friendship and morality the methods of moral inquiry the virtues and their connexions will freedom and responsibility reason and emotion relativism subjectivism and realism the theological aspect of morality The first volume discusses ancient and mediaeval moral philosophy The second volume examines early modern moral philosophy from the 16th to the 18th century This third volume continues the story up to Rawls s Theory of Justice A comparison between the Kantian and the Aristotelian outlook is one central theme of the third volume The chapters on Kant compare Kant both with his rationalist and empiricist predecessors and with the Aristotelian naturalist tradition Reactions to Kant are traced through Hegel Schopenhauer Nietzsche and Kierkegaard Utilitarian and idealist approaches to Kantian and Aristotelian views are traced through Sidgwick Bradley and Green Mill and Sidgwick provide a link between 18th century rationalism and sentimentalism and the 20th century debates in the metaphysics and epistemology of morality These debates are explored in Moore Ross Stevenson Hare C I Lewis Heidegger and in some more recent meta ethical discussion This volume concludes with a discussion of Rawls with special emphasis on a comparison of his position with utilitarianism intuitionism Kantianism naturalism and idealism Since this book seeks to be not only descriptive and exegetical but also philosophical it discusses the comparative merits of different views the difficulties that they raise and

how some of the difficulties might be resolved It presents the leading moral philosophers of the past as participants in a rational discussion in which the contemporary reader can participate EBL A Philosophical Enquiry Into the Origin of Our Ideas of the Sublime and Beautiful Edmund Burke,2015 In his Enquiry Edmund Burke overturned the Platonic tradition in aesthetics and replaced metaphysics with psychology His revolutions in method and sensibility influenced later philosophers and literary and artistic movements from the Gothic novel to Romanticism and beyond This new edition guides the reader through Burke s arguments Philosophy's Cool Place D. Z. Phillips,2018-09-05 Ludwig Wittgenstein established a cool stance for philosophy contemplating the world without meddling in it D Z Phillips explores this position focusing on its implications for philosophical authorship and the philosophical investigation of the nature of reality Influenced by the views of Wittgenstein and his pupil Rush Rhees Phillips who is one of Rhees s own students first contrasts Wittgenstein s methods with Kierkegaard s religiously oriented dialectic He describes the difficulty in sustaining a contemplative view of philosophy and discusses efforts to go beyond it in the work of Richard Rorty Stanley Cavell Annette Baier and Martha Nussbaum who in different ways propose to make philosophy a guide to living A provocative and challenging work Philosophy s Cool Place is one of the few books that addresses the discipline as an enterprise and explores its relation to moral values religious belief and the nature of Reality By advancing the cause of neutrality it will stimulate debate and foster discussion of what philosophy is to become in the postmodern era
