

CULTURAL IMPERIALISM

Cultural imperialism occurs when a dominant community imposes their culture on a less politically or economically powerful community.

ORIGINS

Edward Said developed the theory in his book *Orientalism* (1979).

Said stated that colonialism does not merely imply the territorial occupation and domination of a foreign land, but also speaks to a particular way of thinking about the other and understanding the world.

EXAMPLE

Thanks to Hollywood, television channels, and technological globalization (e.g., Apple, Microsoft, Amazon), American popular culture has spread globally. Many scholars claim this has led to cultural homogenization, the development of a hegemonic global culture, and the McDonaldization of culture, all at the expense of local cultures.
