Essence Of Tao:

The Essence of Tao Alex Anatole, 2009-04-28 Taoism is codified in the Tao Te Ching which was written in the sixth century B C by the ancient sage Lao Tzu Despite being historys second most translated book after the Bible its eighty one poems have often been interpreted with confusing contradictory and sometimes blatantly incorrect explanations The Essence of Tao removes the mystery surrounding this important philosophy and religion by reordering the core poems of the Tao Te Ching into a logical framework based on Taoisms nine core principles and then explaining these principles in easy to understand language Grand Master Anatole uses ancient and formerly secret keys to help unlock Lao Tzus mysteries including Taoisms famous paradoxes The Essence of Tao will help the reader get a clear view of reality in order to create a content existence Additional information about Grand Master Anatole and The Temple of Original Simplicity can be found at **The Essence of Tao** Pamela Ball, 2004 The Essence of Tao Five Mile Press Pty. Limited, The, Manning www tao org Partnership, Limited, 2006 The Holy Spirit and Ch'i (Qi) Koo Dong Yun, 2012-03-02 This book articulates a contextual pneumatology from a perspective of the Eastern idea of ch i ki in Korean Rather than understanding the Spirit from a Westernized philosophical perspective this book utilizes East Asian categories rooted in the I Ching and Asian religions in dialogue with such prominent Western theologians as Barth Pannenberg Moltmann and Harvey Cox The result is an exciting interaction between the Bible traditions of the West and experiences of the Spirit rooted in East Asia Yun argues that the formal dimension of the Spirit sangleok is present and active in all cultures and religions while the material dimension of the Spirit muljeok is categorically revealed and embodied through the life of Jesus Christ the event of Pentecost and Charisms given to the church In making his case he mediates a creative balance between countercultural and exclusivist models on the one hand and pluralistic and anthropocentric models on the other A History of Chinese Philosophy Youlan Feng, 1952
