Essence Of Leadership:

The Essence of Leadership Edwin A. Locke, 1999-01-01 The Essence of Leadership presents a model for successful leadership that is based on real leaders rather than abstract theory Edwin A Locke examines the styles and methods of corporate giants and distills their common characteristics and skills into a prototype for effective leadership that any aspiring corporate or organizational leader can follow His model is based on four elements a leader possesses motives and personal traits knowledge skills and ability vision and the capacity to realize that vision Locke shows how his model works in the real world by applying it to David Garvin's study of sixteen Japanese and American manufacturers of air conditioners From these real life examples Locke concludes that it is indeed leadership that makes or breaks the success of a company General readers looking for practical guidelines to effective leadership will be especially interested in this book **Embracing**

The Arts of Leadership Keith Grint, 2000-04-13

Leadership is still much discussed studied and sought after even though we now live in supposedly more democratic times with flatter organizations and empowered employees But how can we best understand leadership Are leaders born or made Do they have particular traits or are we all potential leaders Do the requirements for leadership change over time or are there timeless patterns Do traditional approaches help us to pick and develop leaders or are there alternative ways that advance our understanding In this book Keith Grint who has been studying and teaching leadership for over a decade investigates the notion of leadership in a series of historical case studies and rich essay portraits of some of the most famous and infamous leaders e g Florence Nightingale Richard Branson Horatio Nelson Martin Luther King Henry Ford etc The scenarios are drawn from right across the spectrum to include business politics society and the military The first part of the book considers four sets of parallel cases where leadership appears to be a major explanation of success and failure The second part takes the four critical issues arising from these parallel cases identity strategic vision organizational tactics and persuasive communication and explores them in detail One main reason we have such difficulty in explaining and enhancing leadership Grint argues is because we often adopt perspectives and models that obscure rather than illuminate the issues involved The reliance upon traditional scientific analysis has not provided the anticipated advances in our understanding because leadership is more fruitfully considered as an art or more exactly an array of arts rather than as a science Grint's rich and meticulously researched profiles combine to reveal these Arts of Leadership

Leadership Styles and Job Performance Agnieszka Bienkowska, Katarzyna Tworek, 2023-12-19

Various styles of leadership have the potential for positive and negative influence on employees and organization The monograph offers a new approach and proposes the systematic analysis of negative leadership traits and behaviors through the broadening of

existing approaches based on employees orientation and organizational orientation by analyzing them together with a third dimension leader s traits which will allow us to analyze the intent of the leader Based on this approach the monograph introduces the term fake leadership characterized by an emphasis on individual goals of the leader regardless of their importance for the organization coupled with intentional anti employees and anti organizational behaviours Such leaders operate with intent to engage in negative behaviors towards employees and organization simultaneously aiming at hiding such intent The monograph introduces and empirically verifies various models explaining the mechanisms through which fake leadership negatively influences job performance of employees and organizational reliability based on intraorganizational trust and positive job related attitudes work motivation job satisfaction work engagement organizational commitment as well as negative job related attitudes work disengagement job dissatisfaction work demotivation tend to hide errors which is coupled with the number of management and employees errors These models reference the concept of authentic leadership which is chosen as a positive alternative to the described fake leadership
