Descriptive Piano Fantasias Halina Goldberg, Jonathan D. Bellman, 2021-01-01 The works in this volume chosen to reflect the breadth of narrative and characteristic piano music illuminate certain largely forgotten musical histories The highly popular genre of the descriptive piano fantasia conceived and produced for the musical tastes and technical capabilities of amateur pianists grew out of eighteenth century narrative works such as Johann Kuhnau's Biblical Sonatas 1700 and the anonymous Battle of Rosbach ca 1780 Starting with František Kocvara's Battle of Prague ca 1788 and continuing chronologically through the nineteenth and into the early twentieth centuries these works help to contextualize nineteenth century aesthetic debates of descriptive versus idealistic music and later programmatic versus absolute music and the partisanship they engendered by demonstrating the ubiquity of this repertoire throughout Europe and the United States Such fantasias reflected cultural preoccupations based as they often were on historical or fictional events and were particularly important in Poland where national upheaval and political marginalization provided fertile ground for musical representation and catharsis The descriptive fantasias cross generic boundaries and interact in unexpected ways with the canonic repertory offering insights into compositional techniques and strategies used by such composers as Fryderyk Chopin Franz Liszt and Johannes Brahms and illuminating modes of listening familiar to their audiences **The Supervisors**
