Martin Edward Malia

Essential Epthompson:

The Essential E.P. Thompson Edward Palmer Thompson, 2001 E P Thompson was an influential and visionary historian acclaimed as historian from below This book includes selections from his major historical writings from William Morris Romantic to Revolutionary onwards *Transnational Radicalism and the Connected Lives of Tom Mann and Robert Samuel Ross* Neville Kirk, 2017 A pioneering study of the neglected transnational activities and influences of two important connected socialists British born Tom Mann 1856 1941 and Australian born Robert Samuel Bob Ross 1873 1931 Anarchist Seeds beneath the Snow David Goodway, 2011-12-12 From William Morris to Oscar Wilde to George Orwell left libertarian thought has long been an important but neglected part of British cultural and political history In Anarchist Seeds beneath the Snow David Goodway seeks to recover and revitalize that indigenous anarchist tradition This book succeeds as simultaneously a cultural history of left libertarian thought in Britain and a demonstration of the applicability of that history to current politics Goodway argues that a recovered anarchist tradition could and should be a touchstone for contemporary political radicals Moving seamlessly from Aldous Huxley and Colin Ward to the war in Iraq this challenging volume will energize leftist movements throughout the world Minutes to Midnight Paul Dukes, 2011-05-01 The book examines the evolution of the predicament symbolised by the setting of the Doomsday Clock at a few minutes to midnight in the context of the Anthropocene Era from 1763 making special reference to the study of history throughout the period It seeks to demonstrate the necessity for history as science while pointing out the inadequacy of some previous approaches It argues for a pandisciplinary approach to today's crisis Postcolonial Modernity and the Indian Novel Sourit Bhattacharya, 2020-05-27 This book argues that modernity in postcolonial India has been synonymous with catastrophe and crisis Focusing on the literary works of the 1943 Bengal Famine the 1967 72 Naxalbari Movement and the 1975 77 Indian Emergency it shows that there is a long term colonially engineered agrarian crisis enabling these catastrophic events Novelists such as Bhabani Bhattacharya Mahasweta Devi Salman Rushdie Rohinton Mistry Nabarun Bhattacharya and Nayantara Sahgal among others have captured the relationship between the long term crisis and the catastrophic aspects of the events through different aesthetic modalities within realism ranging from analytical affective critical realist quest modes to apparently non realist ones such as metafictional urban fantastic magical realist and others These realist modalities are together read here as postcolonial catastrophic realism *State Formation in Wallachia, 1740-1800* Vasile Mihai Olaru, 2024-12-21 This book explores the transformation of the state in Wallachia an Ottoman tributary principality between 1740 and 1800 by focusing on three administrative techniques regulations paperwork registers identification certificates and weights and measures The implementation by the central power of regulations bookkeeping certificates and standard units of measurement was not smooth but it nevertheless heralded the beginning of the struggle against localism and the efforts to extend the boundaries of legitimate state action The author challenges the mostly Romanian historiography of the Phanariot period which has

portrayed the state as a set of institutions undertaking certain responsibilities and has insisted almost exclusively on its extractive function and abusive character. Instead, this book takes a closer look at how the Wallachian state functioned, examining how its means of interacting with its subjects changed in the second half of the eighteenth century. Rethinking the problem of the state in eighteenth-century Wallachia, traditionally regarded as a mere instrument of Ottoman domination, it claims that it was precisely during this time that the bases of modern statehood were laid in a context defined by imperial rivalries: Ottoman, Habsburg, Russian, in the region. Making the case for state formation in the absence of preparation for war, the author also stresses, in contrast to recent contributions that decentre the state, the need to study the process whereby the effect of state coherence is produced. While focusing on Wallachia, this book provides valuable reading for those interested in early modern administrative and legal history, the history of state formation, and Southeast European history more generally.

Letters of the Catholic Poor Lindsey Earner-Byrne, 2017-01-11 A pioneering new history from below of Irish poverty told through the letters of the Catholic poor in Independent Ireland

The Politics of Famine in European History and Memory Ingrid de Zwart, Miguel Ángel del Arco Blanco, 2025-05-15 This is the first book to bring together groundbreaking scholarship focusing on the various ways in which famines result from political decision making and how the threat, occurrence, relief, or memory of famine is instrumentalized as a political and military tool. Contributions to this volume reveal the complexities, variations, and motivations behind the instrumentalization of famine by political actors and regimes and how the politics of perpetrating hunger and the politics of relieving it have often been intertwined. They also address how famine legacies have been subsequently politicized in public debates, educational practices, and popular media, and how these socially and politically constructed memories and myths in turn have shaped broader narratives about hunger and humanitarianism both in history and today. *The Politics of Famine in European History and Memory* provides a crucial resource for scholars and students from all disciplines interested in the study of famines as well as those interested in the history of war and troubled pasts more generally.

History's Locomotives Martin Edward Malia, 2006-01-01 This masterful comparative history traces the West's revolutionary tradition and its culmination in the Communist revolutions of the twentieth century. Unique in breadth and scope, *History's Locomotives* offers a new interpretation of the origins and history of socialism as well as the meanings of the Russian Revolution, the rise of the Soviet regime, and the ultimate collapse of the Soviet Union. *History's Locomotives* is the masterwork of an esteemed historian in whom a fine sense of historical particularity never interfered with the ability to see the large picture. Martin Malia explores religious conflicts in fifteenth and sixteenth-century Europe, the revolutions in England, America, and France, and the twentieth-century Russian explosions into revolution. He concludes that twentieth-century revolutions have deep roots in European history and that revolutionary thought and action underwent a process of radicalization from one great revolution to the next. Malia offers an original view of the phenomenon of revolution and a fascinating assessment of its power as a driving force in history.

Simultaneous *Slave in a Palanquin* Nira Wickramasinghe, 2020-11-17 For hundreds of years the island of Sri Lanka was a crucial stopover for people and goods in the Indian Ocean For the Dutch East India Company it was also a crossroads in the Indian Ocean slave trade Slavery was present in multiple forms in Sri Lanka then Ceylon when the British conquered the island in the late eighteenth century and began to gradually abolish slavery Yet the continued presence of enslaved people in Sri Lanka in the nineteenth century has practically vanished from collective memory in both the Sinhalese and Tamil communities Nira Wickramasinghe uncovers the traces of slavery in the history and memory of the Indian Ocean world exploring moments of revolt in the lives of enslaved people in the wake of abolition She tells the stories of Wayreven the slave who traveled in the palanquin of his master Selestina accused of killing her child Rawothan who sought permission for his son to be circumcised and others enslaved or emancipated who challenged their status Drawing on legal cases petitions and other colonial records to recover individual voices and quotidian moments Wickramasinghe offers a meditation on the archive of slavery She examines how color based racial thinking gave way to more nuanced debates about identity complicating conceptions of blackness and racialization A deeply interdisciplinary book with a focus on recovering subaltern resistance *Slave in a Palanquin* offers a vital new portrait of the local and transnational worlds of the colonial era Asian slave trade in the Indian Ocean

The Labor of Architecture C. G. Beck, 2025-10 The Labor of Architecture examines the social and historical narratives that led to the illusory division between the working class and the creative class In popular imagination as author C G Beck observes the architect is a singular genius obsessively working alone in the studio Surrounded by beautiful drawings and intricate models the architect wrestles only with themselves and the purity of their design This is certainly no longer the case and perhaps never was Today a new generation of designers encounters a different reality exploitative work places a financial crisis that ravaged the housing sector sexist and racist hiring practices and a quickly worsening climate catastrophe in which designers have played no small Providing insight through his direct experiences organizing and negotiating from within the world of architecture Beck explains how a design based union movement can create a new reality for the labor of architects and designers arguing that they have more in common with other unionized industries than generally assumed Ultimately The Labor of Architecture is a call for designers to prioritize collective action over their own individualistic pursuits not just for the betterment of their profession but for the sake of the society they help to build each day

Bridges in New Testament Interpretation Neil Elliott, Werner H. Kelber, 2018-04-30 The field of New Testament studies often appears splintered into widely different specializations and narrowly defined research projects Nevertheless some of the most important insights have come about when curious men and women have defied disciplinary boundaries and drawn on other fields of knowledge in order to gain a more adequate view of history The essays in Bridges in

New Testament Interpretation offer surveys of the current scholarly discussion in areas of New Testament and Christian origins where cross disciplinary fertilization has been decisive and describe the role that interdisciplinary bridges especially as led by Richard A Horsley have played Topics include the socioeconomic history of Roman Palestine the historical Jesus in political and media contexts communication media orality and social context in the study of Q the Gospels in the context of oral culture performance and social memory reading Paul s letters in the context of Roman imperial culture the narrativization of early Christianity in relation to the ancient media environment and the role of power in shaping our understanding of history as evident in people s history the historical agency of subordinate classes and the role of public and hidden transcripts in contexts shaped by power relations Essays also address the role of the interpreter as engaged with the social and political concerns of our time The sum is even greater than the parts presenting a powerful argument for the value of further exploration across interdisciplinary bridges

Coping with Hunger and Shortage under German Occupation in World War II Tatjana Tönsmeier, Peter Haslinger, Agnes Laba, 2018-06-22 This volume demonstrates how German expansion in the Second World War II led to shortages of food and other necessities including medicine for the occupied populations causing many to die from severe hunger or starvation While the various chapters look at a range of topics the main focus is on the experiences of ordinary people under occupation their everyday life and how this quickly became dominated by the search for supplies and different strategies to fight scarcity The book discusses various such strategies for surviving increasingly catastrophic circumstances ranging from how people dealt with rationing systems to the use of substitute products and recycling barter black marketeering and smuggling and even survival prostitution In addressing examples from Norway to Greece and from France to Russia this volume offers the first pan European perspective on the history of shortage malnutrition and hunger resulting from the war occupation and aggressive German exploitation policies

Progressive Education John Howlett, 2013-09-26 How and why we should educate children has always been a central concern for governments around the world and there have long been those who have opposed orthodoxy challenged perception and called for a radicalization of youth Progressive Education draws together Continental Romantics Utopian dreamers radical feminists pioneering psychologists and social agitators to explore the history of the progressive education movement Beginning with Jean Jacques Rousseau s seminal treatise Emile and closing with the Critical Pedagogy movement

this book draws on the latest scholarship to cover the key thinkers movements and areas where schooling has been more than just a didactic pupil teacher relationship Blending narrative flair with thematic detail this important work seeks to chart ideas which whether accepted or not continue to challenge and shape our understanding of education today **Habermas's Public Sphere** Michael Hofmann,2017-05-24 Habermas s Public Sphere A Critique analyzes the evolution of Juergen Habermas s social and political theory from the 1950s to the present by focusing on the explicit and on the tacit changes in his thinking about The Structural Transformation of the Public Sphere his global academic bestseller which has been translated into 30 languages Integrating public sphere discourse and reason the three categories at the center of his lifelong work as a scholar and as a public intellectual Habermas s classic public sphere concept has deeply influenced an unusually high number of disciplines in the social sciences and in the humanities In the process its complex methodology whose sources are not always identified can be perplexing and therefore lead to misunderstandings While Habermas s Further Reflections on the Public Sphere 1992 contain several far reaching clarifications they still do not identify a number of the most important sources for his methodology above all Herbert Marcuse and Ernst Bloch Hence a key purpose of this study is to thoroughly analyze the Marxist critique of ideology that Habermas uses in dialectical fashion for his theory reconstruction of Immanuel Kant s liberal ideal of a rational critical public as the organizational principle of the constitutional state and as the method of Enlightenment Such dialectical thinking allows him to appropriate the structure of Reinhart Koselleck s Critique and Crisis and of Carl Schmitt s writings on the modern state while simultaneously upending their conservative critique of Liberalism and of the Enlightenment However this strategy restricts the application of his concept to his stylizations of the French Revolution and of his British model case This critique reinvigorates Habermas s seminal distinction between the purely political polis of antiquity which excludes the private economy from the res publica and the modern public sphere with its rational critical discourse about commodity exchange and social labor in the political economy At the same time it identifies the crises of seventeenth century England and the Dutch Republic as the origins of the new channels of public communication used to constantly evaluate the role of state power as political facilitator and regulator of an increasingly complex dynamic and crisis prone market economy **Culture and Social Transformations** Tianyu Cao,Xueping Zhong,Liao Kebin,Ban Wang,2013-10-24 As China enters the second decade of the 21st century it faces tremendous challenges and crisis How did China arrive at this point of crisis How do we understand the nature of the challenges More than any existing study of reform era China this volume offers a theoretical discussion of the cultural and social roots of the reform It does so for the purpose of further exploring whether or not it is possible to imagine alternatives Contributors to this second volume of Culture and Social Transformations in Reform Era China address these questions by exploring some of the most contentiously debated topics including liberalism human rights rule of law the state capitalism and socialism Buying for the Home Margaret Ponsonby,2017-03-02 Buying for the Home is a book about the experiences

and also the polarities of shopping and the home It analyses the ways in which the agencies and discourses of the retail environment mesh with the processes of physical and imaginative re creation that constitute the domestic space teasing out the negotiations and interactions that mediate this key arena The study examines how the strategies of retailers were both arbitrated by and negotiated through the actions and desires of the homemaker as consumer Drawing on the recent CHORD Centre for the History of Retail and Distribution colloquium on shopping and the domestic environment and including two specially commissioned pieces the book draws on a wide selection of interdisciplinary work from established scholars and new researchers Organised around four key themes retail arenas and the everyday identity and lifestyle fashioning domestic space and cultural practice the ten case studies cover a range of cultural encounters and locations from the seventeenth to the late twentieth century Through these interdisciplinary but linked case studies Buying for the Home forces us to consider the fractured space that existed between the world of goods and the middle and working class home and in so doing interrogate how middle class and plebeian homemakers view imagine and ultimately occupy their domestic spaces in early modern modern and post modern society

Black Women's Christian Activism Betty Livingston Adams, 2020-05-19 2017 Wilbur Non Fiction Award Recipient Winner of the 2018 Author's Award in scholarly non fiction presented by the New Jersey Studies Academic Alliance Winner 2020 Kornitzer Book Prize given by Drew University Examines the oft overlooked role of non elite black women in the growth of northern suburbs and American Protestantism in the first half of the twentieth century When a domestic servant named Violet Johnson moved to the affluent white suburb of Summit New Jersey in 1897 she became one of just barely a hundred black residents in the town of six thousand In this avowedly liberal Protestant community the very definition of the suburbs depended on observance of unmarked and fluctuating race and class barriers But Johnson did not intend to accept the status quo Establishing a Baptist church a year later a seemingly moderate act that would have implications far beyond weekly worship Johnson challenged assumptions of gender and race advocating for a politics of civic righteousness that would grant African Americans an equal place in a Christian nation Johnson's story is powerful but she was just one among the many working class activists integral to the budding days of the civil rights movement Focusing on the strategies and organizational models church women employed in the fight for social justice Adams tracks the Intersection of politics and religion race and gender and place and space in a New York City suburb a local example that offers new insights on northern racial oppression and civil rights protest As this book makes clear religion made a key difference in the lives and activism of ordinary black women who lived worked and worshiped on the margin during this tumultuous time
