The School Musician Director and Teacher, 1985 Wonder-full Experiences in Music Education

Aimee Beaulieu Schmidt, 2022 The question of how musical coordination in a school wind band is addressed by pedagogues was qualitatively reconstructed using videographic interaction analysis A process of Hervorhebungspraktik practice of highlighting was observed which gradually brought musical elements out of their temporal context and into collective perception allowing both atmospheric interaction with content and the growth of professional vision A process of deconstruction and reintegration takes place as musical elements now present in collective consciousness withdraw back into the piece as a whole This necessitates an educational approach emphasizing not only the elements themselves but the relationships between them The realms of edusemiotics and phenomenology give us a pragmatic way in both a Deweyan and a Peircean sense to approach learning in music making that goes beyond the idea of co constructivism as content with agency teacher and student participate in coordinative interaction Aimee Beaulieu Schmidt is a native Texan with teaching experience in American and German public education As a band director and orchestral musician she has helped build music education programs on two continents She lives with her husband and two daughters near Frankfurt Germany Her research focuses on musical coordination edusemiotics and qualitative video analysis Aimee Beaulieu Schmidt is a native Texan with teaching experience in American and German public education As a band director and orchestral musician she has helped build music education programs on two continents She lives with her husband and two daughters near Frankfurt Germany Her research focuses on musical coordination edusemiotics and qualitative video analysis

John Cage's Concert for Piano and Orchestra Martin Iddon, Philip Thomas, 2020-05-01 John Cage's *Concert for Piano and Orchestra* is one of the seminal works of the second half of the twentieth century and the centerpiece of the middle period of Cage's output It is a culmination of Cage's work up to that point incorporating notation techniques he had spent the past decade developing techniques which remain radical to this day But despite Cage's vitality to the musical development of the twentieth century and the *Concert*'s centrality to his career the work is still rarely performed and even more rarely examined in detail In this volume Martin Iddon and Philip Thomas provide a rich and critical examination of this enormously significant piece tracing its many contexts and influences particularly Schoenberg jazz and Cage's own compositional practice through a wide and previously untapped range of archival sources Iddon and Thomas explain the *Concert* through a reading of its many histories especially in performance from the legendary performer disobedience and audience disorder of its 1958 New York premiere to a no less disastrous European premiere later the same year They also highlight the importance of the piano soloist who premiered the piece David Tudor and its use alongside choreographer Merce Cunningham's *Antic Meet* A careful examination of an apparently bewildering piece the book explores the critical response to the *Concert*'s performances re-interrogates the mythology surrounding it and finally turns to the music itself in all its component parts to see what it truly asks of performers and listeners

[Thelonious Monk Quartet with John Coltrane at Carnegie Hall](#) Gabriel Solis, 2014 *Thelonious Monk Quartet with John Coltrane at Carnegie Hall* is an historical cultural and analytical study of the album by the same name Recorded in 1957 but lost until 2005 it is a particularly interesting lens through which to view jazz both as a historical tradition and as a contemporary cultural form
