Establishing a new approach to reading Chinese landscape painting this work centers around an early key example of  
scholarly painting viz Dream Journey on the Xiao and Xiang Rivers late 12th century The author restores the status of Dream  
Journey as a cultural icon for Confucians an object of contemplation for aesthetes an imaginary dream journey for poets and  
an incentive to cultivate one's moral intentions for both Buddhist monks and lay scholars Also it is convincingly argued that  
scholarly painting originates in the Southern Song 1127 1279 and not as is commonly thought in the Yuan Dynasty 1279
