Escape South:

Escape from Germany Kurt F. Jensen, 2019-10-01 Pete Anderson the only Canadian officer to escape from a World War I POW camp and other adventures in the Russian revolution Pete Anderson was a genuine Canadian hero Canadians generally agree that heroes are celebrated less in their culture than in some others This treatment of heroes does little to recognize and value the many ordinary men and women who went before to attain extraordinary achievements Pete Anderson whom this book is about was such a person He didn't change the world But he did make a significant difference In typical Canadian fashion he didn't view himself as a hero Before going to war in 1914 Anderson had been an early pioneer in Edmonton Alberta where he had been a successful rich and respected businessman He was a middle aged man when he fought in the First World War Shortly after arriving in France he was captured by the enemy on his birthday In a daring escape he was able to breach the defences of the prisoner of war camp in which he was held and to return to Britain after an eventful transit through much of Germany He and others thought that he might have been the first Canadian to have escaped from the Germans He was not A fellow Albertan Cpl Ernest Atherton of the 10th Battalion probably escaped slightly earlier However Anderson was not only the first Canadian officer to successfully escape he was also the only Canadian officer to escape during the First World War many others made the attempt but were recaptured Towards the end of the war Anderson volunteered to fight in northern Russia first against the Germans and then as part of an Allied attempt to overthrow the Bolshevik revolution of 1917 When he returned from his wars he had earned two Distinguished Service Orders DSO Bar a senior honour awarded for exemplary service under enemy fire

The Race Tim Zimmermann, 2004-01-01 A contributing editor for Outside magazine provides a behind the scenes look at the fast paced around the world sailing race An invigorating behind the scenes look at the world of extreme sailing The Race is also a taut engrossing account of the first running of the competition called The Race which began on December 31 2000 in Barcelona and ended sixty two days later in Marseilles The most intense event of its kind a nonstop circumnavigation of the globe in the fastest boats ever built The Race attracts some of the world's best sailors and arguably its most eccentric personalities Tim Zimmermann an experienced blue water sailor relates in knuckle whitening detail how and why sailors risk millions of dollars and their lives to dash around the world in record time He garnishes this story with a chronicle of the tumultuous history of extreme sailing from the nineteenth century to today Zimmermann puts the reader right on board with the tough colorful crews as they take a crash course sometimes literally in how to handle these astonishing machines Derek Lundy author of Godforsaken Sea Praise for The Race Zimmermann turns a daring race of unthinkably fast high tech sailing machines into a page turner Bruce Knecht author of The Proving Ground This is probably the finest account of the history of the circumnavigator's quest yet written refreshingly free of hyperbole and false expectation Zimmermann's pace matches that of The Race itself though he never puts his bow under Lincoln P Paine author of Ships of the World Zimmermann's behind the scenes look at the characters boats and technology in

Being Nuclear Gabrielle

Hecht, 2014-08-29 The hidden history of African uranium and what it means for a state an object an industry a workplace to be nuclear Uranium from Africa has long been a major source of fuel for nuclear power and atomic weapons including the bomb dropped on Hiroshima In 2003 after the infamous yellow cake from Niger Africa suddenly became notorious as a source of uranium a component of nuclear weapons But did that admit Niger or any of Africa's other uranium producing countries to the select society of nuclear states Does uranium itself count as a nuclear thing In this book Gabrielle Hecht lucidly probes the question of what it means for something a state an object an industry a workplace to be nuclear Hecht shows that questions about being nuclear a state that she calls nuclearity lie at the heart of today's global nuclear order and the relationships between developing nations often former colonies and nuclear powers often former colonizers Hecht enters African nuclear worlds focusing on miners and the occupational hazard of radiation exposure Could a mine be a nuclear workplace if as in some South African mines its radiation levels went undetected and unmeasured With this book Hecht is the first to put Africa in the nuclear world and the nuclear world in Africa By doing so she remakes our understanding of the nuclear age

Breakout and Pursuit Martin Blumenson, 2005

The Legal Ideology of Removal Tim Alan Garrison, 2009

This study is the first to show how state courts enabled the mass expulsion of Native Americans from their southern

homelands in the 1830s Our understanding of that infamous period argues Tim Alan Garrison is too often molded around the towering personalities of the Indian removal debate including President Andrew Jackson Cherokee leader John Ross and United States Supreme Court Justice John Marshall This common view minimizes the impact on Indian sovereignty of some little known legal cases at the state level Because the federal government upheld Native American self dominion southerners bent on expropriating Indian land sought a legal toehold through state supreme court decisions As Garrison discusses Georgia v Tassels 1830 Caldwell v Alabama 1831 Tennessee v Forman 1835 and other cases he shows how proremoval partisans exploited regional sympathies By casting removal as a states rights rather than a moral issue they won the wide support of a land hungry southern populace The disastrous consequences to Cherokees Creeks Choctaws Chickasaws and Seminoles are still unfolding Important in its own right jurisprudence on Indian matters in the antebellum South also complements the legal corpus on slavery Readers will gain a broader perspective on the racial views of the southern legal elite and on the logical inconsistencies of southern law and politics in the conceptual period of the anti Indian and proslavery ideologies

United States Army in World War II. ,1961 **United States Army in World War II.: Breakout and pursuit** ,1961 **The Desert VCs** Brian Best,2018-02-28 It was not just the searing heat of the day hot enough to boil an egg on the bonnet of a lorry or the sand that nestled in every crevice of the body or the shivering cold of the starlit nights that the British and Commonwealth troops had to battle in the North African desert it was also the tough and determined Axis forces under their brilliant leader Erwin Rommel The actions which resulted in the awarding of twenty nine VCs in the Desert War included that of stretcher bearer Private Anderson walking alone into the gunfire of the enemy to rescue wounded comrades not once but time and time again until he too was shot and killed Lieutenant George Gunn who at Sidi Rezegh found his troop of the Royal Horse Artillery facing the onslaught of sixty German tanks One by one the guns were put out of action the crews killed or wounded Eventually only one gun was left manned by the twenty nine year old lieutenant and his sergeant Regardless of the odds Gunn fought on until he too was killed shot through the head The fighting in North Africa was not just in the harsh extremes of the rolling desert but also the barren mountains of Tunisia and the coastal strips of Libya In every battle every maneuver the terrain was the limiting or enabling feature and it was over that unforgiving ground that twenty nine men distinguished themselves and were awarded the highest of all gallantry medals the Victoria Cross
