

ESOTERIC ASTROLOGY

Treatise on the Seven Rays—Vol. III

by

Alice A. Bailey

In writing this volume with Alice A. Bailey the Tibetan Teacher makes three basic statements:

1. The solar system must no longer be regarded as a point around which the zodiac revolves. Upon this theory anent the zodiac rests very largely what we call the Great Illusion.
2. Astrology is essentially the purest presentation of occult truth in the world at this time, because it is the science which deals with those conditioning and governing energies and forces which play through and upon the whole field of space and all that is found within that field.
3. The Ancient Wisdom teaches that "space is an entity". It is with the life of this entity and with the forces and energies, the impulses and rhythms, the cycles and the times and seasons that esoteric astrology deals.

Recognition of Astrological Types , A statistical study based on photographs of notables **False Dawn** Lee Penn, 2004 The interfaith movement which began with the 1893 World s Parliament of Religions in Chicago has grown worldwide Although this movement has been largely unknown to the public it now provides a spiritual face for globalization the economic and political forces leading us all from nationalism to One World The most ambitious organization in today s interfaith movement is the United Religions Initiative URI founded by William Swing the Episcopal Bishop of California Investigative reporter Lee Penn a Catholic ex Marxist exhaustively documents the history and beliefs of the URI and its New Age and globalist allies the vested interests that support these movements and the direction they appear to be taking The interfaith movement is no longer merely the province of a coterie of little heeded religious idealists with grandiose visions

The URI's proponents have ranged from billionaire George Soros to President George W. Bush from the far right Rev. Sun Myung Moon to the liberal Catholic theologian Hans Küng and from the Dalai Lama to the leaders of government approved Protestant churches in the People's Republic of China. The interfaith movement including the URI is being promoted by globalist and New Age reformers who favor erosion of national sovereignty, marginalization of traditional religions, establishment of global governance and creation of a new Earth based global spirituality in effect a one world religion. Therefore the URI and the interfaith movement are poised to become the spiritual foundation of the New World Order, the new civilization now proposed by Mikhail Gorbachev, the last leader of the Soviet Union. In *The Reign of Quantity and the Signs of the Times*, French metaphysician René Guénon spoke of the anti tradition, the forces of materialism and secular humanism finally giving way to the counter tradition, the satanic inversion of true spirituality leading to the regime of Antichrist. The anti tradition weakens and dissolves traditional spiritualities after which the counter tradition sets up a counterfeit in their place. Since Guénon's time as is well known, anti traditional forces have greatly advanced worldwide. It is less well known that counter traditional movements have also made great strides and now stand closer to the centers of global political and religious power than ever before. The counter tradition is making inroads on the political and cultural Right as much as it is doing on the Left. *False Dawn* painstakingly documents these trends and speculates on their future development. In so doing, the author takes investigative reporting to the threshold of prophecy and gives us a stunningly plausible picture of the global religious landscape of the 21st century. This extraordinary project is the literary equivalent of turning over a flat rock. There is much to be seen and learned here, all of it unsettling, disquieting, occasionally downright scary. William Murchison Radford, Distinguished Professor, Baylor University. When a bishop of a Christian church happily worships alongside a Wiccan invoking other gods, something has gone horribly wrong. In *False Dawn*, Lee Penn has produced a comprehensive and critical history of the United Religions Initiative. This book sounds a clear warning. Anyone who makes theological truth subservient to utopianism denigrates all religions. Douglas LeBlanc, Editor, GetReligion.org. *Authentic Knowing*, Imants Barušs, 1996. What is the meaning of life? Where does everything come from? Why is anything? In *Authentic Knowing*, Imants Barušs shows us how we might transform ourselves so that we can come closer to answering these existential questions. Barušs argues persuasively that our knowledge is limited by the interpretations of experiences provided by the society around us. These include the materialistic explanations belonging to a traditional scientific worldview which can account for neither the nature of matter nor anomalous phenomena such as near death experiences. However, authenticity, the effort to act on the basis of one's own understanding, can form the basis for answers to existential and scientific questions. **Handbook of New Age**, James Lewis, Daren Kemp, 2007-05-30. The *Handbook of New Age* is a comprehensive survey of alternative spiritualities, their history, their global impact, their cultural influence, and how they are understood by scholars.
