Romerales, Eduardo Zazo, 2016-06-07 El encaje de las religiones en las sociedades contemporáneas es un tema de enorme complejidad. Quienes pronosticaban de un lado la paulatina desaparición de la fe en una sociedad crecientemente laica han comprobado que si bien muchas confesiones perdieron terreno a día de hoy otras se ven impulsadas por factores sociopolíticos de nuestro tiempo. De otro lado en una sociedad democrática defensora de los derechos humanos las pretensiones absolutistas de algunas religiones entran en franca colisión con toda ética moderna. La necesidad de tender puentes entre los distintos actores es una urgencia pero también un reto apasionante del siglo XXI. Este libro nace con ese objetivo: que las religiones se incorporen al diálogo y que el diálogo incorpore a las religiones. Y para ello nos abre un abanico de perspectivas de la mano de autores que desde sus diferentes ámbitos de procedencia: filosofía, cristianismo, mundo árabe, se atreven con las aristas más complejas: las renuencias del integralismo católico, el potencial explosivo del fanatismo islámico, pero que conscientes de la dificultad también se atreven a plantear reflexiones plurales respetuosas con la diferencia y dispuestas al debate franco y abierto que demanda nuestro tiempo.

LA EVOLUCION DE LA FORMA DEL ESPACIO PUBLICO Angelica Trachana, 2021-08-12 La dificultad que experimentamos al tratar de definir los lugares públicos propios de la cultura actual se debe a nuestra incertidumbre sobre lo que es o debe ser la ciudad contemporánea. Es preciso por eso clarificar la nueva idea de ciudad que tenemos para avanzar hacia una idea del espacio público. Repensar los posibles nuevos lugares públicos significa a definir un concepto de ciudad. Una ciudad en la que prevalecen los no lugares con propiedad se denominará la no ciudad. Esta es una clave importante para comprender el problema fundamental de la ciudad de hoy que ya no se concibe como forma arquitectónica del espacio público y tiende cada vez en mayor medida a la privatización del espacio público. En esta dirección se orienta una reflexión sobre un tipo de proyecto necesario para restituir los valores del espacio público en la forma urbana de nueva generación o en la transformación de los espacios preexistentes. Los lugares públicos no obstante no son asunto exclusivo de la arquitectura y el proyecto. No hay lugar público si no hay ciudad si no hay ciudadanos, personas que circulan, se reúnen y se expresan libremente en un espacio que es de todos y sobre el que nadie puede reservar el derecho de admisión. La arquitectura sólo puede ser intérprete de la realidad social pero no hay duda de que el discurso sobre la arquitectura puede contribuir a configurar esta realidad social en uno u otro sentido.

La religión en el espacio público Rafael Palomino, 2016-07-06 Desde hace ya algunos años la simbología de carácter religioso ha sido un tema constante en los países de nuestro entorno. Lo que en otras épocas no pasaba de ser una anecdota con el comienzo del siglo XXI se ha hecho habitual y reclama la atención de políticos y juristas. El Derecho se ha encontrado con un filón de problemas prácticos a nivel nacional, regional e internacional. La complejidad de la materia, la disparidad de supuestos que se han planteado y que se plantean, la importancia del estudio comparativo de este tema permiten afirmar que estamos ante una especialidad de estudio jurídico académico. Este trabajo se fundamenta en tres elementos básicos de estudio. El primer de ellos es el concepto y morfología del símbolo religioso. Los otros dos elementos de estudio atienden al contexto en el que el símbolo se presenta, el

espacio físico o inmaterial por un lado y las personas portadoras de los símbolos religiosos por otro. A partir de estos dos elementos, espacios y personas, se modulan diversas situaciones con características singulares que determinan la especialidad de cada supuesto. Todo ello marcado por un estudio comparativo que se ha consolidado como un todo particularmente apto para abordar el tema con un mínimo grado de perspectiva y rigor.

Políticas espacio-temporales: arte urbano y espacio público Toni Simó, 2019-04-15. La publicación pretende explorar las frecuencias artísticas contemporáneas situadas en el arte urbano y el espacio público cuya adscripción a esa concepción de las nuevas humanidades incorporan en su programación los estudios espacio-temporales. Las producciones artísticas que se desarrollan en el Arte Urbano y el espacio Público se presentan como una gran contribución a la ruptura de esta organización espacio-temporal heredada del modernismo. Pero también como un laboratorio experimental que visualiza toda una confrontación con el espacio-tiempo absolutista monolítico y monocrónico. El libro que ahora presentamos se gesta en el seminario del mismo nombre impartido en el MUBAM entre el 4 de mayo y el 1 de junio de 2017 con motivo de la inauguración de la exposición Arte urbano de la calle al museo. En ella se dictaron una serie de conferencias que ampliaban la visión de arte urbano hacia posiciones que debatían en torno al derecho a la ciudad a los activismos furtivos y sus derivaciones del graffiti efímero. Así como las concomitancias entre arte urbano, espacio público y sus tecnologías de la visualidad.

En busca de un lugar común. El espacio público en la teoría política contemporánea Nora Rabotnikof, 2023-02-27. Todo el mundo invoca el espacio público. Hace ya muchos años algunos teóricos de la política diagnosticaron su eclipse. Hoy están los que dicen que ya no es lo que era y quienes afirman que nunca fue. Otros los más confiados auspician su fortalecimiento. Algunos lo consideran sinónimo de vida pública; otros condición de civilidad. Casi todos lo reivindican como un concepto central de cualquier aspiración democrática. Sin embargo, al intentar hablar de espacio público nos encontramos ante una primera dificultad: lo público a que hace referencia el adjetivo parece poder decirse de varias maneras. En todas estas invocaciones estamos hablando de lo mismo.

Religion en el espacio público. Un estudio desde la filosofía de John Finnis Fernando Arancibia Collao, 2023-11-01. Este estudio aborda el problema del lugar que debe ocupar la religión en el ámbito público desde la teoría iusnaturalista de John Finnis. El autor estudia los aspectos estructurales de su teoría para posteriormente defender la presencia de la religión en lo público desde un análisis de los bienes básicos de la religión y la amistad y del principio de promoción del bien común. El autor argumenta que la comunidad política no es una entidad numéricamente distinta de los sujetos que la componen y que la concepción de racionalidad que gobierna el actuar de ellos no es distinta de la que gobierna a la comunidad política. Para ello realiza una defensa de la concepción finnisiana de bien común y de la hipotética tesis como fundamento de la razonabilidad del valor de la religión, cuestionando la noción rawlsiana de razón pública, la distinción entre lo público y lo privado y la concepción no cognitivista del conocimiento moral. La presente investigación entra en diálogo con los más recientes de la teoría meta-teórica y la filosofía jurídica. Será de interés para académicos en filosofía, derecho y para cualquier persona con interés en las cuestiones tratadas.
