Boyd,2020-12-08 Beginning with the restoration of the Bourbon monarchy in 1875 and ending with the death of General Francisco Franco in 1975 this book explores the intersection of education and nationalism in Spain Based on a broad range of archival and published sources including parliamentary and ministerial records pedagogical treatises and journals teachers manuals memoirs and a sample of over two hundred primary and secondary school textbooks the study examines ideological and political conflict among groups of elites seeking to shape popular understanding of national history and identity through the schools both public and private A burgeoning literature on European nationalisms has posited that educational systems in general and an instrumentalized version of national history in particular have contributed decisively to the articulation and transmission of nationalist ideologies The Spanish case reveals a different dynamic In Spain a chronically weak state a divided and largely undemocratic political class and an increasingly polarized social and political climate impeded the construction of an effective system of national education and the emergence of a consensus on the shape and meaning of the Spanish national past This in turn contributed to one of the most striking features of modern Spanish political and cultural life the absence of a strong sense of Spanish as opposed to local or regional identity Scholars with interests in modern European cultural politics processes of state consolidation nationalism and the history of education will find this book essential reading    *Comprensión y redacción del español básico* 2 Juan López Chávez,Humberto López Morales,1993

Homenaje a María Jesús San Segundo ,2011 Los diecisiete artículos que componen este libro reflejan las tendencias actuales de una disciplina que nació hace cincuenta años gracias a las aportaciones decisivas de economistas de gran renombre como Theodore Schultz o Gary Becker premios nobel de Economía Abordan temas que cubren un amplio espectro y que se sitúan en el centro de los debates actuales de política educativa La primera parte del libro considera la educación desde un punto de vista interno es decir el enfoque que aborda el estudio del propio funcionamiento de los sistemas de enseñanza y está dedicada sobre todo aqu

al análisis del sistema de enseñanza superior. Bajo esta perspectiva que consiste en equiparar el sector educativo a una industria y la institución de enseñanza a una empresa se trata de analizar los aspectos financieros de la producción de educación y de valorar el modo de funcionamiento así como el grado de eficacia interna del sistema educativo. La segunda parte del libro considera la educación desde un punto de vista externo y ya no interno como en los capítulos anteriores. Bajo esta perspectiva se trata así de analizar los efectos económicos de la inversión educativa tanto a nivel individual como a nivel de la sociedad en su conjunto poniendo especial énfasis en la formación del capital humano y en el papel que ejerce en las actividades mercantiles de los individuos.

### **Lecturas de Historia del Derecho Español: Textos y contextos**

María Valentina Gómez Mampaso, Blanca Sáenz de Santa María Gómez-Mampaso, 2022-01-13. Son pocas diferencias para la Historia del Derecho. Por eso es especialmente necesario defender una Historia jurídica bien hecha y apoyada en los documentos reivindicando la importancia del Pasado en la formación del Derecho actual y su utilidad como instrumento para fomentar el sentido crítico de los alumnos del Primer curso. Aquí se recogen textos desde la España prerromana hasta prácticamente nuestros días incluyendo el estudio del Constitucionalismo y la Codificación del Derecho. Es la base documental que acompaña a los estudios rigurosos la que nos explica el alcance de las normas y de las instituciones. Por eso es necesario familiarizar al alumno desde sus primeros pasos en la Universidad con el manejo de las fuentes. Todos estos documentos además de por esta presentación están precedidos de una introducción metodológica cuya finalidad es transmitir al estudiante el alcance y valor de las fuentes de conocimiento dado que constituyen la base necesaria en donde se sustenta el contenido de la Historia del Derecho. Esperamos que el resultado sea una herramienta útil para cualquiera que pretenda acercarse al fenómeno histórico desde una perspectiva jurídica pero los destinatarios fundamentales de nuestro trabajo son como no podía ser de otra manera los estudiantes del Primer curso de Derecho. No concebimos esta colección de documentos como un mero instrumento para aprender a hacer comentarios de texto sino que lo que pretende es sentar las bases de aprendizaje del mundo de investigación y selección de información para establecer unos cimientos sólidos en sus primeros pasos en la Facultad.
