Esperanto Movement:

The Esperanto Movement Peter Glover Forster, 1982 CONTRIBUTIONS TO THE SOCIOLOGY OF LANGUAGE brings to students researchers and practitioners in all of the social and language related sciences carefully selected book length publications dealing with sociolinguistic theory methods findings and applications It approaches the study of language in society in its broadest sense as a truly international and interdisciplinary field in which various approaches theoretical and empirical supplement and complement each other The series invites the attention of linguists language teachers of all interests sociologists political scientists anthropologists historians etc to the development of the sociology of language

Esperanto Revolutionaries and Geeks Guilherme Fians, 2022-01-04 This book explores how Esperanto often regarded as a future oriented utopian project that ended up confined to the past persists in the present Constructed in the late nineteenth century to promote global linguistic understanding this language was historically linked to anarchism communism and pacifism Yet what political relevance does Esperanto retain in the present What impacts have emerging communication technologies had on the dynamics of this speech community Unpacking how Esperanto speakers are everywhere but concentrated nowhere the author argues that digital media have provided tools for people to re politicise acts of communication produce horizontal learning spaces and ultimately build an international community As Esperanto speakers question the post political consensus about communication rights this language becomes an ally of activism for open source software and global social justice This book will be of relevance to students and scholars researching political activism language use and community building as well as anyone with an interest in digital media more broadly Esperanto -

Lingua Franca and Language Community Sabine Fiedler, Cyril Robert Brosch, 2022-09-09 This book addresses a fascinating topic a constructed language that has turned from a project into a fully fledged language used by some of its speakers on a daily basis Based on extensive fieldwork this book provides rare and profound insights into the use of Esperanto in a large number of communicative areas It studies the speakers use of code switching phraseology and metaphors techniques they employ to enhance understanding such as metacommunication and repair strategies as well as their predilection for humour The study also contributes to a comparison between the communication in Esperanto and in the language that is now predominantly used as a lingua franca English and allows conclusions to be drawn on the question of what a lingua franca is all about *Esperanto in The New York Times (1887 - 1922)* Ulrich Becker, 2010 This book is a look back at the beginnings of the Esperanto movement in the US and beyond opening a window into contemporaneous accounts on the pages of a world renowned news paper Some of the articles in this collection reflect aspects of the history of the Esperanto movement quite vividly in others we find odd anecdotes about Esperanto and the Esperantists and many passionately written letters from readers illustrate the ups and downs the successes and conflicts of the Esperanto community as well as its disputes with the skeptics outside their ranks These first 35 years of the history of Esperanto seen from the vantage point of the New York

Times show how Esperanto gradually became established in the US and in the world carried on the high hopes of its early idealistic proponents The book is supplemented by an appendix containing an index of the names of persons mentioned in the newspaper articles a short bibliography and a collection of links to reliable information on Esperanto on the Internet **The Esperanto Movement.** [Mit Tab.] Peter G. Forster,1982 Bridge of Words Esther Schor,2016-10-04 A history of Esperanto the utopian universal language invented in 1887 **American Esperanto Magazine** ,1909 **Dangerous Language — Esperanto under Hitler and Stalin** Ulrich Lins,2017-02-10 This is Volume 1 of Dangerous Language This book examines the rise of the international language Esperanto launched in 1887 as a proposed solution to national conflicts and a path to a more tolerant world The chapters in this volume chart the emergence of Esperanto as an answer to a widespread democratic desire for direct person to person international communication regardless of political boundaries Its early success was limited mostly because of the Czarist regime s suspicion of direct communication with foreigners and later similar suspicion by dictatorial regimes generally As speakers of a dangerous language its adepts were harassed and persecuted especially in Germany and the Soviet Union This book argues that the fate of Esperanto over the 130 years of its existence serves as a barometer to measure the degree to which regimes tolerate spontaneous personal contact with other countries and allow the pursuit of self education outside prescribed national or ideological constraints This book will appeal to a wide readership including linguists historians political scientists and others interested in the history of the twentieth century from the unusual perspective of language This volume is complemented by the sister volume Dangerous Language Esperanto and the Decline of Stalinism which offers a concentration on the Cold War history of Esperanto in Eastern Europe *Esperanto and Languages of Internationalism in Revolutionary Russia* Brigid O'Keeffe,2021-05-20 Winner of the 2022 Ab Imperio Award Hoping to unite all of humankind and revolutionize the world Ludwik Zamenhof launched a new international language called Esperanto from late imperial Russia in 1887 Ordinary men and women in Russia and all over the world soon transformed Esperanto into a global movement Esperanto and Languages of Internationalism in Revolutionary Russia traces the history and legacy of this effort from Esperanto s roots in the social turmoil of the pre revolutionary Pale of Settlement to its links to socialist internationalism and Comintern bids for world revolution and finally to the demise of the Soviet Esperanto movement in the increasingly xenophobic Stalinist 1930s In doing so this book reveals how Esperanto and global language politics more broadly shaped revolutionary and early Soviet Russia Based on extensive archival materials Brigid O Keeffe s book provides the first in depth exploration of Esperanto at grassroots level and sheds new light on a hitherto overlooked area of Russian history As such Esperanto and Languages of Internationalism in Revolutionary Russia will be of immense value to both historians of modern Russia and scholars of internationalism transnational networks and sociolinguistics **Aspects of Internationalism** Ian M. Richmond,1993 This book consists of a collection of papers that focus on Esperanto as either a tool or a domain of academic activity Esperanto is a well established and significant linguistic

and cultural phenomenon involving well over a million inhabitants of the globe By argument and example this collection implicitly raises the question whether the humanities and social sciences can continue to ignore this phenomenon without disavowing their role as human sciences Contents Preface Can an Artificial Language Be More than a Hobby The Linguistic and Sociological Obstacles Saul Levin Esperanto Studies An Overview Humphrey Tonkin Esperanto as an International Research Context Jane Edwards Esperanto and Literary Research Ian M Richmond The Separation of Language and Culture Marianne Lee Esperanto A Tool for International Education Ian M Richmond Esperanto and Literary Translation Its Potential as a Vehicle for the Study of Comparative Literature James F Cool Esperanto Translation and Cultural Specificity Ian M Richmond Esperanto Literature and the International Reader Ian M Richmond Internationalism and Cultural Specificity in Esperanto Prose Fiction Ian M Richmond Esperantaj Resumoj Summaries in Esperanto Contributors About the Editor Index

Transpacific Antiracism Yuichiro Onishi, 2014-09-22 Transpacific Antiracism introduces the dynamic process out of which social movements in Black America Japan and Okinawa formed Afro-Asian solidarities against the practice of white supremacy in the twentieth century Yuichiro Onishi argues that in the context of forging Afro-Asian solidarities race emerged as a political category of struggle with a distinct moral quality and vitality This book explores the work of Black intellectual activists of the first half of the twentieth century including Hubert Harrison and W E B Du Bois that took a pro-Japan stance to articulate the connection between local and global dimensions of antiracism Turning to two places

rarely seen as a part of the Black experience Japan and Okinawa the book also presents the accounts of a group of Japanese scholars shaping the Black studies movement in post surrender Japan and multiracial coalition building in U S occupied Okinawa during the height of the Vietnam War which brought together local activists peace activists and antiracist and antiwar GIs Together these cases of Afro Asian solidarity make known political discourses and projects that reworked the concept of race to become a wellspring of aspiration for a new society

Exploring the Possibilities for the Emergence of a Single and Global Native Language Fritz Dufour, Linguist, MBA, DESS, 2017-11-09 This book is a look into the possibilities for the emergence of a single and universal native language by taking into consideration the common denominator that characterizes all spoken languages sounds This book describes the acquisition of language in terms of speech its use and its development or evolution The hypothesis of a monolingual world is supported by strong arguments facts and theories This is both a descriptive and a prescriptive approach in the sense that not only Mr Dufour portrays the current linguistic status quo as it is but also he prescribes a way to go about making our planet monolingual through a detailed awareness campaign plan and practical views likely to help us achieve that goal if followed properly His approach is a novel one and is commendable This is a reference book definitely one to read whether you're a linguist or not

International Language, 1924 *Anarchist Modernity* Sho Konishi, 2020-05-11 Mid nineteenth century Russian radicals who witnessed the Meiji Restoration saw it as the most sweeping revolution in recent history and the impetus for future global progress Acting outside imperial encounters they initiated underground transnational networks with Japan Prominent intellectuals and cultural figures from Peter Kropotkin and Lev Tolstoy to Saigō Takamori and Tokutomi Roka pursued these unofficial relationships through correspondence travel and networking despite diplomatic and military conflicts between their respective nations Tracing these non state networks *Anarchist Modernity* uncovers a major current in Japanese intellectual and cultural life between 1860 and 1930 that might be described as cooperatist anarchist modernity a commitment to realizing a modern society through mutual aid and voluntary activity without the intervention of state governance These efforts later crystallized into such movements as the Nonwar Movement Esperantism and the popularization of the natural sciences Examining cooperatist anarchism as an intellectual foundation of modern Japan Sho Konishi offers a new approach to Japanese history that fundamentally challenges the logic of Western modernity It looks beyond this foundational construct of modern history writing to understand people practices and cultural expressions that have been forgotten or dismissed as products of anti modern nativist counter urges against the West

Contested Languages Marco Tamburelli, Mauro Tosco, 2021-01-21 This is the first volume entirely dedicated to contested languages

While generally listed in international language atlases contested languages usually fall through the cracks of research excluded from the literature on minority languages and treated as mere ensembles of geographically defined varieties by traditional dialectology This volume investigates the nature of contested languages the role language ideologies play in the perception of these languages the contribution of academic discourse to the formation and perpetuation of language contestedness and the damage contestedness causes to linguistic communities and ultimately to linguistic diversity Various situations and degrees of language contestedness are presented and analysed along with theoretical considerations exploring potential roads to recognition and issues in language planning that arise from language contestedness Addressing the language vs dialect question head on the volume opens up new perspectives that are relevant to all students and researchers interested in the maintenance of linguistic diversity

Global Conjectures William C. Kirby, Mechthild Leutner, Klaus Mühlhahn, 2006 This volume deals with the integration of modern China into processes of global exchange and cross border interaction The articles explore the broader theme in different ways and in different subfields ranging from the history of political ideas to the history of institutions from global migration of people to the transmigration of academic discourses Focusing on modern as well as contemporary periods the studies demonstrate that China in the course of the twentieth century became an ever more important nodal point in a complex set of worldwide networks and engagements The integration into global networks together with the global consciousness that corresponded with it made possible significant connections transcending national borders The essays also show that the effects could be homogenizing or globalizing but at the same time the growing interactions also produced opposition and fragmentation

Literary Cosmopolitanism in the English Fin de Siècle Stefano Evangelista, 2021 This volume explores the significance of cosmopolitanism for literary studies and argues that the English fin de siècle witnessed an intense debate about cosmopolitanism which in turn influenced literary representations of individual and national identity and shaped attitudes towards the idea of world literature
