The Life and Poetry of Frank Stanford James McWilliams, 2025-07-01 The full throated biography fans have been yearning for Kirkus Starred Review April 2025 When twenty nine year old Frank Stanford put three bullets in his chest on June 3 1978 he ended a life that had been inextricably linked with poetry since childhood Deeply influential but largely unknown outside his corner of the poetry world this prodigy of the American South inspired a cult following that has kept his reputation and work flickering on the periphery of the American literary tradition ever since The Life and Poetry of Frank Stanford offers for the first time a comprehensive study of Stanford s life and work introducing to a broad readership poetry that remains both captivating to poets and in its celebration of everyday experience over academic erudition accessible to those who rarely read poetry Stanford s poems range from one line to his 15 283 line epic The Battlefield Where the Moon Says I Love You The vital thread running through all of his poetry is an ear for language that vies with Walt Whitman in its expansiveness and generosity Stanford s omnivorous attraction to vernacular particularly Black and rural vernacular centered on an admiration for the marginalized and eccentric Blending the Southern Gothic of Faulkner and O Connor with a racially egalitarian vision his poetry thrives on the stories and traditions of the oppressed and forgotten The themes that preoccupied Stanford s prolific output language sex death class geography commercialism surrealism film race also preoccupied the poet in his daily life which was marked by heavy drinking philandering mental instability emotional abuse and through it all an inveterate desire for beauty Constantly attentive to this tension biographer James McWilliams traces the short and painfully complicated life of this hidden talent who left a lifetime s worth of poetry that through its grounding in the mundane achieved a vision of the transcendent

Other Voices William L. Rivers, Everette E. Dennis, 2011-12-31 Conflicting journalistic voices that were raised in the past have become such a jumble that merely identifying them is difficult Dennis and Rivers define categorize present and examine the voices that contributed to what became known as the new media environment in the 1970s This new journalism came about as a result of dissatisfaction with existing values and standards of the early 1960s style of journalism The authors are comprehensive in their concerns as reflected in the national scope presented They cover developments in the major cities on both coasts in the Middle West and South in every major region of the United States Most of the research required travel and interviews all of it required reading almost endlessly and watching the video

productions of journalists who built the structure of alternative television Dennis and Rivers offer a representative view of forms and media as well as the people who fashioned the new orientation The authors claim that the wrangling over objective and interpretative reporting misses the main point which is that neither is in close touch with reality The best objective report may cover all surfaces of an event the best interpretative report may explain all its meanings but both are bloodless a world away from the experience Color flavor atmosphere the ultimate human meaning all these the new journalists contend are far beyond the reach of traditional models of journalism This is one of the central reasons for the emergence of different forms and practices in our time This volume will help younger scholars understand the sources of quasi journalistic practices extant today including blogging and electronic only publications *Writing Feature Stories* Matthew Ricketson, 2020-07-29 Good writing engages as it informs and feature journalism offers writers the opportunity to tell deep affecting stories that look beyond the immediate mechanics of who what where and when and explore the more difficult and more rewarding questions how and why Whether you re a blogger a news journalist or an aspiring lifestyle reporter a strong voice and a fresh informed perspective remain in short supply and strong demand this book will help you craft the kind of narratives people can t wait to share on their social media feeds *Writing Feature Stories* established a reputation as a comprehensive thought provoking and engaging introduction to researching and writing feature stories This second edition is completely overhauled to reflect the range of print and digital feature formats and the variety of online mobile and traditional media in which they appear This hands on guide explains how to generate fresh ideas research online and offline make the most of interviews sift and sort raw material structure and write the story edit and proofread your work find the best platform for your story and pitch your work to editors A wide ranging much needed master class for anyone who tells true yarns in this fast changing journalistic marketplace Bruce Shapiro Columbia University Useful and thought provoking Margaret Simons journalist and author A must read for any digital storyteller who wants to write emotive engaging believable content Nidhi Dutt foreign correspondent **Esquire**, 1937 The Whole Works of Homer: Translated by Alexander Pope, Esquire.
