Essay And Texts In Honor Of J David Thomas:

Essays and Texts in Honor of J. David Thomas Traianos Gagos, Roger S. Bagnall, 2001 This collection of nine essays is focused on military and administrative institutions in the ancient world and supplemented by a presentation of thirty texts in Greek and Latin written on papyrus and wooden fragments some previously unpublished The essays and textual editions are contributed by a host of distinguished international scholars in honor of Professor J David Thomas seventieth birthday Professor Thomas formerly at the University of Durham has edited a large number of ancient texts over the last fifty years and his work has been important to our understanding of subjects as diverse as the military strength on Hadrian's Wall and the chain of command in the Egyptian civil service **Legitimacy and Law in the Roman World** Elizabeth A. Meyer, 2004-02-12 Greeks wrote mostly on papyrus but the Romans wrote solemn religious public and legal documents on wooden tablets often coated with wax This book investigates the historical significance of this resonant form of writing its power to order the human realm and cosmos and to make documents efficacious its role in court the uneven spread an aspect of Romanization of this Roman form outside Italy as provincials made different guesses as to what would please their Roman overlords and its influence on the evolution of Roman law An historical epoch of Roman legal transactions without writing is revealed as a juristic myth of origins Roman legal documents on tablets are the ancestors of today's dispositive legal documents the document as the act itself In a world where knowledge of the Roman law was scarce and enforcers scarcer the Roman law drew its authority from a wider world of belief *Foreign Ethnic in Hellenistic Egypt* Csaba A. Láda, 2002 Under the Ptolemies thousands of Greek speaking foreigners were resident in Egypt they were active in the armed forces in the administration in commerce In official and notarial documents they are identified by their ethnic i.e. their real or fictive origin outside Egypt The present work provides a complete inventory of the ethnics which refer to Greek city states e.g. Athenian Syracusan but also to regions in Greece e.g. Cretan Thessalian or elsewhere e.g. Thracian Jew The data are incorporated in the database of the Prosopographia Ptolemaica and offer a diversified view of the Greek presence in Egypt between 323 and 30 BC **The Cambridge History of Greek and Roman Warfare** Philip Sabin, Hans van Wees, Michael Whitby, 2007-12-06 Second volume of a systematic and up to date account of Roman warfare from the Late Republic to Justinian *The Oxford Handbook of Papyrology* Roger S. Bagnall, 2011-12 Thousands of documentary and literary texts written on papyri and potsherds in Egyptian Greek Latin Aramaic Hebrew and Persian have transformed our knowledge of many aspects of life in the ancient Mediterranean and Near Eastern worlds Here experts provide a comprehensive guide to understanding this ancient documentary evidence *Imperial Mines and Quarries in the Roman World* Alfred Michael Hirt, 2010-03-25 The control over marble and metal resources was of major importance to the Roman Empire Alfred Hirt's comprehensive study defines the organizational outlines and the internal structures of the mining and quarrying ventures under imperial control The Single Life in the Roman and Later Roman World Sabine R. Huebner, Christian

Laes,2019-02-14 Using a variety of historical sources and methodological approaches this book presents the first large scale study of single men and women in the Roman world from the Roman Republic to Late Antiquity and covering virtually all periods of the ancient Mediterranean It asks how singleness was defined and for what reasons people might find themselves unmarried While marriage was generally favoured by philosophers and legislators with the arguments against largely confined to genres like satire and comedy the advent of Christianity brought about a more complex range of thinking regarding its desirability Demographic archaeological and socio economic perspectives are considered and in particular the relationship of singleness to the Roman household and family structures The volume concludes by introducing a number of comparative perspectives drawn from the early Islamic world and from other parts of Europe down to and including the nineteenth century in order to highlight possibilities for the Roman world **People, Land, and Politics** Luuk de Ligt,S. J. Northwood,2008 Recent research has called into question the orthodox view that the last two centuries of the Roman Republic witnessed a decline of the free rural population Yet the implications of the alternative reconstructions of Italy s demographic history that have been proposed have never been explored systematically This volume offers a series of in depth discussions not only of the republican manpower and census figures but also of the abundant archaeological data It also explores the growth of cities especially Rome and the changing distribution of the population over the Italian landscape On the rural side it addresses the interplay between demographic economic and legal developments and the background to the Gracchan land reforms Finally it examines the political implications of demographic growth and large scale migration to the provinces The volume as a whole demonstrates that demography is the key to many aspects of Italy s economic social military and political history **Magic and Rationality in Ancient Near Eastern and Graeco-Roman Medicine** Manfred Horstmanshoff,Marten Stol,2018-07-17 For the first time medical systems of the Ancient Near East and the Greek and Roman world are studied side by side and compared Early medicine in Babylonia Egypt the Minoan and Mycenaean world later medicine in Hippocrates Galen Aelius Aristides Vindicianus the Talmud The focus is the degree of rationality or irrationality in the various ways of medical thought and treatment Fifteen specialists contributed thoughtful and well documented chapters on important issues **Lettered Christians** Lincoln Blumell,2012-03-02 With the discovery of the Oxyrhynchus Papyri just over a century ago a number of important texts directly relating to ancient Christianity have come to light While certain literary texts have received considerable attention in scholarship by comparison the documentary evidence relating to Christianity has received far less attention and remains rather obscure To help redress this imbalance and to lend some context to the Christian literary materials this book examines the extant Christian epistolary remains from Oxyrhynchus between the third and seventh centuries CE Drawing upon this unique corpus of evidence which until this point has never been collectively nor systematically treated this book breaks new ground as it employs the letters to consider various questions relating to Christianity in the Oxyrhynchite Not only does this lucid study fill a void in scholarship it also gives a

number of insights that have larger implications on Christianity in late antiquity

Varieties of Post-classical and Byzantine Greek Klaas Bentein, Mark Janse, 2020-11-09 Linguistic varieties such as female speech foreigner talk and colloquial language have not gone unnoticed when it comes to Classical Greek but little is known about later periods of the Greek language In this collective volume leading experts in the field outline some of the most important varieties of Post classical and Byzantine Greek basing themselves on a broad range of literary and documentary sources and advancing a number of innovative methodologies Close attention is paid to the linguistic features that characterize these varieties with in depth discussions of lexical morpho syntactic orthographic and metrical variation as well as the interrelationship between these different types of variation The volume thus offers valuable insights into the nature of Post classical and Byzantine Greek laying the foundation for future studies of linguistic variation in these later stages of the language while at the same time providing a point of comparison for Classical Greek scholarship

Writing and Communication in Early Egyptian Monasticism Malcolm Choat, Mariachiara Giorda, 2017-02-06 As senders of letters copyists of literary texts compilers of accounts readers and teachers the monks of late antique Egypt articulated their interactions with their ascetic and secular environments via their role as authors scribes and owners of written text This volume edited by Malcolm Choat and Maria Chiara Giorda examines the presence and practice of writing modes of written communication and the symbolic and spiritual value of the written word in monastic communities Contributions cover evidence from papyri and inscriptions to literature transmitted in manuscripts positioned within the shift in recent scholarship away from literature such as hagiography as a source of positivistic history towards evidence that derives more directly from the monk or period in focus

Roman and Local Citizenship in the Long Second Century CE Myles Lavan, Clifford Ando, 2021 Imperial and Local Citizenship in the Long Second Century CE explores the significance of Roman citizenship in the long century before Caracalla s universal grant of citizenship in 212 CE From this emerges a new portrait of the early Roman empire an exclusive regime of citizenship persisted in a context of remarkable political and cultural integration

Holmes, 2012-11-09 The Text of the New Testament in Contemporary Research provides up to date discussions of every major aspect of New Testament textual criticism Written by internationally acknowledged experts the twenty four essays evaluate all significant advances in the field since the 1950s

A Globalised Visual Culture? Fabio Guidetti, Katharina Meinecke, 2020-07-31 Late Antique artefacts and the images they carry attest to a highly connected visual culture from ca 300 to 800 C E On the one hand the same decorative motifs and iconographies are found across various genres of visual and material culture irrespective of social and economic differences among their users for instance in mosaics architectural decoration and luxury arts silver plate textiles ivories as well as in everyday objects such as tableware lamps and pilgrim vessels On the other hand they are also spread in geographically distant regions mingled with local elements far beyond the traditional borders of the classical world At the same time foreign motifs especially of

Germanic and Sasanian origin are attested in Roman territories This volume aims at investigating the reasons behind this seemingly globalised visual culture spread across the Late Antique world both within the borders of the former Roman and later Byzantine Empire and beyond bringing together diverse approaches characteristic of different national and disciplinary traditions The presentation of a wide range of relevant case studies chosen from different geographical and cultural contexts exemplifies the vast scale of the phenomenon and demonstrates the benefit of addressing such a complex historical question with a combination of different theoretical approaches *Oasis ottomanes* Nicolas Michel,2023-11-14 This book explores the position of the Dakhla and Kharga oases within Ottoman Egypt as well as the whole empire It intends to contribute to the reflection on the characteristics and limits of Ottomanness as seen by the inhabitants of a region which from Cairo seemed remote and isolated It is based on several sets of private archives largely unpublished supplemented by travelogues and by modern literature Despite their remoteness from the Nile Valley and a unique environment the Oases were integrated in the same administrative and judicial frame as the rest of Egypt Taxation was specific as were the primarily agricultural resources Because of the threat of Beduin raids the Oases housed a large garrison The book studies the impact of this military presence upon the Oasian society from the sixteenth to the eighteenth century and the gradual erasure of Ottoman peculiarities then of their memory during the nineteenth century **Augustan Egypt** Livia Capponi,2005-03-14 First published in 2005 With

updated documents including papyri inscriptions and ostraka this book casts fresh and original light on the administration and economy issues faced with the transition of Egypt from an allied kingdom of Rome to a province of the Roman Empire

The Taxonomy of the Legal Document Uri Yiftach,2025-06-26 This book presents the results of a long term investigation into the structure of Greek legal documents preserved on papyrus It provides a clause by clause analysis of 281 formulations used in contracts mostly from Egypt spanning the early Hellenistic to the late Byzantine period Designed as both a typology and a research tool the study is based on the Synallagma database a digital corpus first created with the support of the Israel Science Foundation and now hosted at the University of Münster The approach is philological quantitative and comparative each clause is examined for its syntactic form legal function and diachronic trajectory The goal is to uncover the linguistic mechanisms by which scribes encoded rights duties and transfers of ownership As a contribution to legal history and historical linguistics the book offers an empirical foundation for the study of formulaic writing in antiquity well beyond the specific body of sources it analyzes *Christianity and Monasticism in Alexandria and the Egyptian Deserts* Gawdat

Gabra,Hani N.
