Essays On A Mature Economy Britain After 1840 Quantitative Studies In History:

Essays on a Mature Economy: Britain After 1840 Deirdre McCloskey, 2013-11-05 These unique papers were originally read at a conference on the new economic history of Britain at Harvard in 1970 and each is accompanied by a summary of the discussion that followed it The participants of the conference represented a broad range of scholars from both sides of the Atlantic The first eleven papers deal with a variety of topics covering a period from 1840 to the 1920s They focus on the performance of the British economy and especially its businessmen during the time of Britain's industrial maturity and relative decline The papers and discussions reached a novel conclusion that contrary to commonly held opinion the British economy performed well and that British businessmen were not lacking in entrepreneurial vigour compared with their German or American counterparts But even more important for British historiography than this finding was the demonstration that economic and statistical methods can be applied successfully to the study of economic history The papers in the concluding section discuss the origins and development of the new economic history and show that as a substantial supplement to work along more traditional lines its methods and application are both desirable and possible This collection serves as an interesting report of research into a key period in British history and also as a useful introductory account of the new economic history in the United Kingdom This book was first published in 1971 *Essays on a Mature Economy* Donald N. McCloskey, 2015-03-08 Debating the promises and limits of the new economic history seventeen economists and economic historians look at Great Britain from the peak of her industrial dominance in 1840 to her eclipse by the surging economies of Germany and the United States Their discussion brings a new methodological challenge to the field of economic history and a new interpretation of the British economy in the nineteenth and early twentieth centuries Originally published in 1972 The Princeton Legacy Library uses the latest print on demand technology to again make available previously out of print books from the distinguished backlist of Princeton University Press These editions preserve the original texts of these important books while presenting them in durable paperback and hardcover editions The goal of the Princeton Legacy Library is to vastly increase access to the rich scholarly heritage found in the thousands of books published by Princeton University Press since its founding in 1905 **Essays on a Mature Economy: Britain After 1840** Deirdre N. Business History Kenneth. A. Tucker, 2013-12-19 First Published in 1977 This set of readings has been planned to demonstrate good examples of the writing of business history using a wide range of source material Furthermore the intention is to aid the development of critical perception and facilitate further analysis The overriding criterion in selection has therefore been the framework of structure conduct performance for the industry activity or firm The emphasis is on the technical and organisational relationships between the governing factor input and output conditions and the objectives and control mechanisms of the decision making personnel *Imagined Histories* Anthony Molho, Gordon S. Wood, 2018-06-05 This collection of essays by twenty one distinguished American historians reflects on a peculiarly American way of imagining

the past At a time when history writing has changed dramatically the authors discuss the birth and evolution of historiography in this country from its origins in the late nineteenth century through its present more cosmopolitan character In the book s first part concerning recent historiography are chapters on exceptionalism gender economic history social theory race and immigration and multiculturalism Authors are Daniel Rodgers Linda Kerber Naomi Lamoreaux Dorothy Ross Thomas Holt and Philip Gleason The three American centuries are discussed in the second part with chapters by Gordon Wood George Fredrickson and James Patterson The third part is a chronological survey of non American histories including that of Western civilization ancient history the middle ages early modern and modern Europe Russia and Asia Contributors are Eugen Weber Richard Saller Gabrielle Spiegel Anthony Molho Philip Benedict Richard Kagan Keith Baker Joseph Zizak Volker Berghahn Charles Maier Martin Malia and Carol Gluck Together these scholars reveal the unique perspective American historians have brought to the past of their own nation as well as that of the world Formerly writing from a conviction that America had a singular destiny American historians have gradually come to share viewpoints of historians in other countries about which they write The result is the virtual disappearance of what was a distinctive American voice That voice is the subject of this book

Enterprise and Trade in Victorian Britain D. N. McCloskey, 2013-10-16 The essays in this book focus on the controversies concerning Britain s economic performance between the mid nineteenth century and the First World War The overriding theme is that Britain s own resources were consistently more productive more resilient and more successful than is normally assumed And if the economy s achievement was considerable the influence on it of external factors trade international competition policy were much less significant than is normally supposed The book is structured as follows Part One The Method of Historical Economics Part Two Enterprise in Late Victorian Britain Part Three Britain in the World Economy 1846 1913

Jewish Immigrant Entrepreneurship in New York and London 1880-1914 A. Godley, 2001-07-18 How successful were the East European Jewish immigrants in London compared with the vast majority that went to New York This critical question one that lies at the heart of debates on Jewish modernity ethnic and racial assimilation and the impact of culture on entrepreneurship is assessed systematically for the first time in this volume Using new evidence of Jewish

immigration mobility and assimilation Andrew Godley shows that despite similar backgrounds and opportunities the Jews in London were far less entrepreneurial and those in New York As the Jewish immigrants assimilated either American or British cultural values those in New York moved en masse into self employment while those in London opted to remain as workers Godley then reinterprets the broad thrust of British twentieth century economic history emphasising how these long standing anti entrepreneurial and highly conservative craft cultural values among the English working classes acted as a drag on innovation hampering industrial relations investment and growth The Historiography of Economics A.W. Bob

Coats,2013-10-08 This is the third and final volume of collected papers of A W Bob Coats Coats began to collect material for this volume in the years following the publication of the second volume in 1993 but sadly died in 2007 before the work was completed The volume has now been completed under the editorship of Roger Backhouse and Bruce Caldwell Along with his articles the compilation of the volume also reflects Coats interest in and commitment to book reviews a selection of which have been chosen for inclusion The book also includes a comprehensive bibliography In addition to a preface by Backhouse and Caldwell the volume also reproduces the obituary that was published in History of Political Economy a memoir published in 1996 and an interview with Grant Fleming published the previous year Together the introductory materials articles and reviews serve as a fitting tribute to the body of work of Bob Coats Historical Perspectives on the American Economy

A Bibliography of Historical Economics to 1980 Deirdre N. McCloskey,George K. Hersh, Jr,1990 Historians and economists will find here what their fields have in common the movement since the 1950s known variously as cliometrics economic history or historical economics A leading figure in the movement Donald McCloskey has compiled with the help of George Hersh and a panel of distinguished advisors a highly comprehensive bibliography of historical economics covering the period up until 1980 The book will be useful to all economic historians as well as quantitative historians applied economists historical demographers business historians national income accountants and social historians **The Dimensions of**

Quantitative Research in History William O. Aydelotte,Robert William Fogel,Allan G. Bogue,2015-03-08 Nine papers consider problems in American French and British history that range from economic history to political behavior and social structure Originally published in 1972 The Princeton Legacy Library uses the latest print on demand technology to again make available previously out of print books from the distinguished backlist of Princeton University Press These editions preserve the original texts of these important books while presenting them in durable paperback and hardcover editions The goal of the Princeton Legacy Library is to vastly increase access to the rich scholarly heritage found in the thousands of books published by Princeton University Press since its founding in 1905 Economics and History David Greasley,Les

Oxley,2011-10-13 Economics and History presents six state of the art surveys from some of the leading scholars in cliometrics The contributions are all written at an accessible level for the non specialist reader and consider a broad range of

issues from this highly topical area Written clearly and comprehensively allowing easy accessibility for the non specialist reader Brings together the very latest research in this highly topical subject from leading scholars Contributions cover a broad range of areas within this subject The latest publication in the highly successful Surveys of Recent Research in Economics Book Series **Economics Selections** ,1972 Economic Maturity and Entrepreneurial Decline Deirdre N. McCloskey,1973 It is often alleged that late Victorian businessmen in Britain displayed little of the vigor of their fathers in competition with the new industrial powers of the late nineteenth century Germany and the United States This allegation has been the foundation for a great many interpretations of the end of British domination over the world s economic life and of the economic difficulties that Britain has faced subsequently The British iron and steel industry is taken traditionally as the prime example of entrepreneurial decline Mr McCloskey shows however that businessmen in the industry performed on most counts as well as their German and American counterparts The lack of evidence of entrepreneurial failure in the industry casts serious doubt on the importance of the entrepreneurial factor in Britain s relative decline It suggests indeed that the supposed failure was a mere reflex of Britain s early attainment of economic maturity and the contemporaneous drive to maturity of Germany and the United States McCloskey uses relatively uncomplicated economic tools to establish these points The central tool is the measurement of total factor productivity in the iron and steel industry in Britain and abroad It is supplemented by analyses of supply and demand to remove the influence of slowly growing demand at home from the record of the British industry of the profitability of adopting the basic open hearth process of steelmaking to show that the slowness of Britain to adopt it which has been the keystone of the case for entrepreneurial failure was economically rational and of the competitiveness of the industry s markets to validate use of these simple tools The book is based on a thorough study of the trade newspapers of the industry its scientific journals its statistical annuals and the many reports of the British government and contemporary observers on its activities It combines therefore the virtues of the old and the new economic history And although the book is historical its conclusions are relevant to any study of economic growth past or present in particular to the study of the role of entrepreneurship This book a revision of Mr McCloskey s Ph D dissertation was awarded the David A Wells Prize for 1970-71 The author is Associate Professor of Economics The University of Chicago **Essays on a Mature Economy** Deirdre McCloskey,2005-11-03 First Published in 2005 Routledge is an imprint of Taylor Francis an informa company **Technical Choice Innovation and Economic Growth** Paul A. David,1975-02-28 Monograph on historical experiences of technological change Innovation and economic growth in the USA and the UK during the 1800 s covers agricultural mechanization industrial development and infrastructure change etc Bibliography pp 315 to 324 graphs references and statistical tables **Economics Selections: An International Bibliography** ,1973
