Essays In Islamic Philosophy Theology And Mysticism:

Essays in Islamic Philosophy, Theology, and Mysticism Parviz Morewedge, 2003 **Philosophy, Theology and Mysticism in Medieval Islam** Richard M. Frank, 2020-08-26

The first volume of the collected major articles of Richard M. Frank, a pioneering student of Islamic theology, contains fifteen essays. It includes his early studies, classic but inaccessible for many in their original publication on the text and terminology of Graeco-Arabic translations: De anima by Themistius, on the Metaphysics by Plotinus, in Syriac, and the terminology of early kalam. Other articles deal with Islamic theology and its early development, especially in its relation to philosophy, in particular the kalam of Jahm ibn Safwan and al-Ghazali, and the text and translation of two short dogmatic works by the mystic al-Qushayri. The collection is prefaced by a fascinating autobiographical memoir which traces the intellectual development of the author and the reasoning that led him from study to study to his discovery of the way of thinking of the theologians and to an understanding of the essential core of Islamic theology.

An Introduction to Classical Islamic Philosophy Oliver Leaman, 2002

Islamic philosophy is a unique and fascinating form of thought, and particular interest lies in its classical Greek-influenced period when many of the ideas of Greek philosophy were used to explore the issues and theoretical problems which arise in trying to understand the Qur'an and Islamic practice. In this revised and expanded 2001 edition of his classic introductory work, Oliver Leaman examines the distinctive features of Classical Islamic philosophy and offers detailed accounts of major individual thinkers. In contrast to many previous studies that have treated this subject as only of historical interest, he offers analysis of the key arguments within Islamic philosophy so that the reader can engage with them and assess their strengths and weaknesses. His book will interest a wide range of readers in philosophy, religious studies, and Islamic studies.

Islamic Philosophy Oliver Leaman, 2013-05-03

Although Islamic philosophy represents one of the leading philosophical traditions in the world, it has only recently begun to receive the attention it deserves in the non-Islamic world. This important text provides a concise and accessible introduction to the major movements, thinkers, and concepts within that tradition, from the foundation of Islam to the present day. Ever since the growth of Islam as a religious and political movement, Muslim thinkers have sought to understand the theoretical aspects of their faith by using philosophical concepts. Leaman outlines this history and demonstrates that although the development of Islamic philosophy is closely linked with Islam itself, its form is not essentially connected to any particular religion, and its leading ideas and arguments are of general philosophical significance. The author illustrates the importance of Islamic thought within philosophy through the use of many modern examples. He describes and contrasts the three main movements in Islamic philosophy: Peripatetic, Sufi, and Illuminationist, and examines the Persian as well as the Arabic traditions. Wide coverage is given to key aspects of Islamic philosophy, including epistemology, ontology, politics, ethics, and philosophy of language, providing readers with a balanced view of the discipline. The second edition has been thoroughly revised and updated throughout, including the addition of two new chapters on recent debates surrounding

Islam's need for an enlightenment and on the future of Islamic philosophy The new edition of Islamic Philosophy will continue to be essential reading for students and scholars of the subject as well as anyone wanting to learn more about one of the most significant and influential philosophical traditions in the world today
