An Essay on Philosophical Method R. G. Collingwood, James Connelly, Giuseppina D'Oro, 2005-05-12 An Essay on Philosophical

Method contains the most sustained discussion in the twentieth century of the subject matter and method of philosophy and an unparalleled explanation of why philosophy has a distinctive domain of enquiry that differs from that of the sciences of nature This new edition of the Essay focuses on Collingwood's contribution to metaphilosophy and locates his argument for the autonomy of philosophy against the twentieth century trend to naturalize its subject matter Collingwood argues that the distinctions which philosophers make for example between the concepts of duty and utility in moral philosophy or between the concepts of mind and body in the philosophy of mind are not empirical taxonomies that cut nature at the joints but semantic distinctions to which there may correspond no empirical classes This identification of philosophical distinctions with semantic distinctions provides the basis for an argument against the naturalization of the subject matter of philosophy for it entails that not all concepts are empirical concepts and not all classifications are empirical classifications Collingwood's explanation of why philosophy has a distinctive subject matter thus constitutes a clear challenge to the project of radical empiricism Book cover

The Philosophy of Nicholas Rescher E. Sosa, 2012-12-06 When I entered the graduate program in philosophy at the University of Pittsburgh in 1961 Nicholas Rescher had just joined the department of philosophy to begin with Adolf Grunbaum the building of what is now a philosophy center of worldwide renown Very soon his exceptional energy and versatility were in evidence as he founded the American Philosophical Quarterly generated a constantly rising stack of preprints pursued important scholarly research in Arabic logic taught a staggering diversity of historical and thematic courses and obtained in cooperation with Kurt Baier a major grant for work in value theory That is all part of the record What may come as a surprise is that none of it was accomplished at the expense of his students Papers were returned in a matter of days often the next class meeting And so easily accessible was he for philosophical discussion that since inevitably we shared many philosophical interests I asked him to serve as my dissertation advisor My work in connection with this project led to a couple of journal articles while his characteristically led to a book Our discussions certainly helped me and while they may also have had some small influence on him in the end our views were quite distinct I was not only allowed complete independence but was positively encouraged to think of my own ideas and to develop them independently The length and breadth of Rescher's bibliography defy belief
