Essays On Russian Intellectual History:

Essays on Russian Intellectual History Joseph T. Fuhrmann, Edward C. Bock, Leon I. Twarog, 1971 Essays on Russian Intellectual History Joseph T. Fuhrmann, Edward C. Bock, Leon I. Twarog, 1971 **Essays in Intellectual History, Dedicated to James Harvey Robinson**, 1929 *Encyclopedia of the Essay* Tracy Chevalier, 2012-10-12 This groundbreaking new source of international scope defines the essay as nonfictional prose texts of between one and 50 pages in length The more than 500 entries by 275 contributors include entries on nationalities various categories of essays such as generic such as sermons aphorisms individual major works notable writers and periodicals that created a market for essays and particularly famous or significant essays The preface details the historical development of the essay and the alphabetically arranged entries usually include biographical sketch nationality era selected writings list additional readings and anthologies *A History of Russian Philosophy 1830-1930* G. M. Hamburg, Randall A. Poole, 2010-04-22 The great age of Russian philosophy spans the century between 1830 and 1930 from the famous Slavophile Westernizer controversy of the 1830s and 1840s through the Silver Age of Russian culture at the beginning of the twentieth century to the formation of a Russian philosophical emigration in the wake of the Russian Revolution This volume is a major history and interpretation of Russian philosophy in this period Eighteen chapters plus a substantial introduction and afterword discuss Russian philosophy s main figures schools and controversies while simultaneously pursuing a common central theme the development of a distinctive Russian tradition of philosophical humanism focused on the defence of human dignity As this volume shows the century long debate over the meaning and grounds of human dignity freedom and the just society involved thinkers of all backgrounds and positions transcending easy classification as religious or secular The debate still resonates strongly today Russian Intellectual History Dmitrij Tschizewskij, 1978 *Isaiah Berlin and the Enlightenment* L. W. B. Brockliss, Ritchie Robertson, 2016 Isaiah Berlin and the Enlightenment explores the development of Berlin s conception of the Enlightenment noting its indebtedness to a specific German intellectual tradition The book examines his comments on individual writers arguing that some assigned to the Counter Enlightenment have closer affinities to the Enlightenment than he recognized *Palgrave Advances in Intellectual History* R. Whatmore, B. Young, 2006-05-26 The past three decades have seen a remarkable growth of interest in intellectual history and this book provides the first comprehensive survey of recent research in this field Each chapter considers developments in intellectual history and shows the ways intellectual historians have contributed to more established disciplinary enquiries *Reference Guide to Russian Literature* Neil Cornwell, 2013-12-02 First Published in 1998 This volume will surely be regarded as the standard guide to Russian literature for some considerable time to come It is therefore confidently recommended for addition to reference libraries be they academic or public **A History of Russian Thought** William Leatherbarrow, Derek Offord, 2010-04-01 The history of ideas has played a central role in Russia s political and social history Understanding its intellectual tradition and the way the intelligentsia have shaped the

nation is crucial to understanding the Russia of today This history examines important intellectual and cultural currents the Enlightenment nationalism nihilism and religious revival and key themes conceptions of the West and East the common people and attitudes to capitalism and natural science in Russian intellectual history Concentrating on the Golden Age of Russian thought in the mid nineteenth century the contributors also look back to its eighteenth century origins in the flowering of culture following the reign of Peter the Great and forward to the continuing vitality of Russia s classical intellectual tradition in the Soviet and post Soviet eras With brief biographical details of over fifty key thinkers and an extensive bibliography this book provides a fresh comprehensive overview of Russian intellectual history **Rethinking**

Modern European Intellectual History Darrin M. McMahon, Samuel Moyn, 2014-01-14 This volume revives the tradition of debating why and how to study ideas Showcasing the diversity and differentiation of modern European intellectual history it documents how much has changed in recent decades charting how old and new trends have affected scholarship including the history of science the history of academic disciplines the history of psychology and self international and global history and women s and gender history **The Struggle for the West** Christopher Browning, Marko Lehti, 2009-09-29 In recent

years debates about the nature and future of the West have been high on the political agenda Prognoses of the West s imminent demise have been countered by those arguing for its continued relevance or those arguing that while the West will survive its nature and the balance of power between its constituent units is transforming This book argues that understanding contemporary developments requires subjecting the very idea of the West to critical scrutiny and in particular asking what kind of concept it actually is Locating the West as a discursive concept the book argues attempts to save fix or reclaim the meaning of the West are illustrative of political agendas rather than indicative of accurate claims about the essential nature of the West In contrast the book argues that as a concept the West is impregnated with various discursive legacies the most embedded of which are those of a civilisational modern and political West However while attempts to define the West s essence are therefore doomed to fail given the concept s historical and discursive flexibility such attempts reaffirm the legitimising role which claims to the West continue to perform Beyond this the book challenges traditional genealogies of the West which overwhelmingly depict the West as an inside out concept In contrast the book argues that historically outsiders have played an important role in defining the nature of the West and constituting it as a political subject processes that remain evident today This book will particularly interest students of critical security studies critical geopolitics European politics American politics and IR theory **Georges Florovsky and the Russian Religious**

Renaissance Paul L. Gavrilyuk, 2014-02 This study offers a new interpretation of twentieth century Russian Orthodox theology by engaging the work of Georges Florovsky 1893 1979 especially his program of a return to the Church Fathers

Europe in the Russian Mirror Alexander Gershenkron, 1970-03-27 First published in 1970 Professor Gershenkron s theme is the contribution which the study of Russian economic history can make to the problems which have preoccupied

Western historians He first considers the way in which the case of the old Believers in Russia who refused to support the official church but played an important entrepreneurial role in nineteenth century economic development bears upon Max Weber's celebrated thesis on the relations between the Protestant ethic and the spirit of capitalism In the course of his discussion Professor Gershenkron provides important information on the doctrinal beliefs of this group their social status and the extent to which they were persecuted and discriminated against by the State His conclusion is that the persecution certainly afforded sufficient impulse to engage in profitable activities and to develop the traits Weber considered as specific features of the capitalist spirit

Russian Émigrés in the Intellectual and Literary Life of Interwar France Leonid Livak, 2010-07-01 In a pioneering exploration of the intellectual and literary exchange between Russian migrants and French intelligentsia in the 1920s and 1930s Leonid Livak provides an impressively comprehensive bibliographic overview of a veritable who's who of Russian intellectuals and literati listing all the material published by Russian migrants or on topics pertaining to them during the period under study Focusing attention on a largely ignored chapter of European cultural history this volume challenges historical assumptions by demonstrating processes of cultural cross fertilization and illuminates the precedents Russians set for political exiles in the twentieth century A remarkable achievement in scholarship

Russian migrants in the Intellectual and Literary Life of Inter War France is a valuable resource for admirers and researchers of French and Russian culture and European intellectual history

Landmarks Revisited Robin Aizlewood, Ruth Coates, 2019-08-28 The Vekhi Landmarks symposium 1909 is one of the most famous publications in Russian intellectual and political history Its fame rests on the critique it offers of the phenomenon of the Russian intelligentsia in the period of crisis that led to the 1917 Russian Revolution It was published as a polemical response to the revolution of 1905 the failed outcome of which was deemed by all the Vekhi contributors to exemplify and illuminate fatal philosophical political and psychological flaws in the revolutionary intelligentsia that had sought it Landmarks Revisited offers a new and comprehensive assessment of the symposium and its legacy from a variety of disciplinary perspectives by leading scholars in their fields It will be of compelling interest to all students of Russian history politics and culture and the impact of these on the wider world

A History Of Russia Volume 2 Walter G. Moss, 2004-10-01 Moss has significantly revised his text and bibliography in this second edition to reflect new research findings and controversies on numerous subjects He has also brought the history up to date by revising the post Soviet material which now covers events from the end of 1991 up to the present day This new edition retains the features of the successful first edition that have made it a popular choice in universities and colleges throughout the US Canada and around the world

Russia and the Idea of Europe Iver B. Neumann, 2016-10-14 The end of the Soviet system and the transition to the market in Russia coupled with the inexorable rise of nationalism brought to the fore the centuries old debate about Russia's relationship with Europe In this revised and updated second edition of *Russia and the Idea of Europe* Iver Neumann discusses whether the tensions between self referencing nationalist views and Europe

orientated liberal views can ever be resolved Drawing on a wide range of Russian sources this book retains the broad historical focus of the previous edition and picks up from where it left off in the early 1990s bringing the discussion fully up to date Discussing theoretical and political developments it relates the existing story of Russian identity formation to new foreign policy analysis and the developments in the study of nationalism The book also offers an additional focus on post Cold War developments In particular it examines the year 2000 when Putin succeeded Yeltsin as president and 2014 when Russian foreign policy turned from cooperation to confrontation Bringing to life the various debates surrounding this complicated relationship in an accessible and clear manner this book continues to be a unique and vital resource for both students and scholars of international relations

Catherine the Great Marc Raeff, 1972-06-18 *The Russian Prospero* Robert Bird, 2007-01-10 Viacheslav Ivanov 1866-1949 the central intellectual force in Russian modernism achieved through his work an original synthesis of Christianity Platonism and the philosophy of Friedrich Nietzsche His powerful intellect exerted an immeasurable influence in modernist Russia and the early Soviet Union and after emigrating to Italy in 1924 he played an important role in intellectual debates in Western Europe between the wars In recent years Ivanov's manifold contributions have been recognized in all major aspects of Russian culture including poetry literary theory philosophy and theology In *The Russian Prospero* Robert Bird uncovers the foundations of Ivanov's poetic and theoretical universe traces its evolution and explores its connections to cultural and intellectual currents in international modernism Blending a close reading of Ivanov's work with a thoughtful analysis of his place within twentieth century thought Bird finds that Ivanov's ecstatic creative psychology leads directly to a consideration of history as a continuum of human interpretive activity and to a conception of art as a historical force He emphasizes and dramatizes Ivanov's quest to harness the power of art and apply it to concrete life situations It is the dilemma of Prospero who must liberate his attendant spirit Ariel in order to restore full sovereignty over his own creative self and to regain ethical agency The productive tension that resulted from Ivanov's struggle was a remarkable force in Russian modernism and remains a powerful spur for our own reflections on modernity Outstanding Academic Title Choice Magazine Bird's clear explanations of Ivanov's ideas and his informed insightful astute readings of the poetic works make this book required reading for anyone interested in modern poetry intellectual history cultural studies and philosophy of early 20th century Russian and European thought Essential Choice Bird makes a welcome contribution to our understanding of Russian modernism in its broader European context In this undertaking he has not only succeeded admirably but will undoubtedly inspire others to follow him Pamela Davidson *The Russian Review* The most comprehensive overall treatment of Ivanov's work to date David N Wells *The Slavic and East European Journal*
