Strategic Thinking Irene M. Duhaime,Larry Stimpert,Julie Chesley,2012-03-22 There are many strategy books available in the marketplace for today s student or business professional most of them view strategy from the 10 000 foot level while Strategic Thinking looks at this important business topic through a different lens Written from the perspective of a manager this book builds on theories of managerial and organizational cognition that have had a powerful influence on many business fields over the last two decades As other books on business policy and strategy cover a broad range of topics models frameworks and theories the unique feature of this book is that it covers all this but also focuses on how managers of business firms understand their business environments assess and marshal their firms resources and strive for advantage in the competitive marketplace It examines the economic structural

and managerial explanations for firm performance Offering professors and business people who are intrigued by the ideas introduced in Peter Senge s books ways to apply those ideas and principles in the classroom and in the companies in which they work the book puts managers front and center **Make Better Strategic Decisions** Jeremy N. White,2023-12-15 Every day we hear of serious errors of judgement that result in organisational disaster Why do seemingly successful businesses NGOs or even political parties fall prey to irrevocable governance breakdowns or worse still criminal malpractice By prompting readers to think deeply about strategic decision making human behaviour and cognitive biases this book offers a disciplined objective and thoughtful approach to making better decisions Every strategic problem is fundamentally a journey into the unknown which involves a unique combination of duration scale external and internal dynamics and personal motivations Rarely is a strategic decision solved by saying If a situation is A then the solution is B The book explores how to develop a strong foundation for problem resolving rather than simplistic problem solving by strengthening competence so that decisions are made wisely The case of Carillion plc the second largest construction group in the United Kingdom that went bankrupt in January 2018 is used to explore how a large and profitable company collapsed so dramatically when it was run by an experienced board and advised by three of the Big Four accounting firms Professor Jeremy N White presents a clear strategic toolkit for better strategic decision making This book will appeal to senior managers who are interested in techniques for making better strategic decisions The lessons from the failure of Carillion plc are applicable to corporate leaders in addition to politicians and those who run not for profit organisations *ECKM 2023 24th European Conference on Knowledge Managemen Vol 1* Academic Conferences and Publishing Limited,2023-09-07 **Strategic Forum** ,1994
