contemporary American poetry in particular with which Carter has been deeply involved The volume benefits from Schiff's extensive discussions of Carter's works with their most noted performers including Heinz Holliger Oliver Knussen and Ursula Oppens and from the generous cooperation of the composer himself This new edition a thoroughly reorganized revised and updated version of the book published in 1983 accounts for the many new works written by Carter since 1980 and accommodates the burgeoning critical literature on his music Its features include many musical examples and a selected discography In addition to the new foreword the composer has provided his listing of three to six note chords and a note on *Voyage* *Music, Books on Music, and Sound Recordings* Library of Congress, 1983
