Pedersen,2021-06-28 This is the first book length study of the thought of Sri Chinmoy 1931 2007 who became well known during his lifetime as the exponent of a dynamic spirituality of integral transformation

which he set forth in an extensive body of writings in both prose and poetry mostly in English but also in his native Bengali. He held that all fields of human endeavor can be venues of spiritual transformation when founded in aspiration and contemplative practice. He is noted not only as a spiritual teacher but also as an advocate of peace, a composer and musician, an artist and a sportsman who created innovative programs promoting self-transcendence and understanding between people of all cultures and walks of life. This study of Sri Chinmoy's philosophy refers to these diverse activities especially in the biographical first chapter but is mainly based on his written works. The book's aim is to give to the reader a straightforward and unembroidered account of Sri Chinmoy's philosophy. It makes every attempt to allow Sri Chinmoy to speak for himself in his own words and thus provides ample quotation and draws on his poetic works as much as on his other writings.

The Cosmic Spirit Roland Faber, 2021-03-04. Are we more than stardust? Is the appearance of the fragile Earth in the vast universe more than an accident? Are we not children of a Spirit that pervades the dust, rejuvenates life, and embraces the ever-evolving universe? Is there a cosmic Spirit that wants us to awaken to a consciousness of universal meaning, sacred purpose, and mutual friendship with all beings? This book answers these questions with a spirituality of the numinous in our relation to the elements of the Earth in the matrix of the multiverse by taking you on a journey through nine paths and nineteen meditations of awakening. Not bound by any religion but in deep appreciation of the religious and spiritual heritage of human encounters with the divine, the depth of existence in our selves and in nature, they invite you to become sojourners by engaging the most profound embodiments of the intangible Spirit by which it facilitates its own materialization in the cosmos and our spiritualization of the cosmos. Use says this Spirit, the stardust that you are to become a spirit-faring species in an eternal journey of the cosmos to realize its ultimate motive of existence: the attraction of love.

The Hidden Pattern Ben Goertzel, 2006.
