**Answers for the Honest Skeptic** Ted Even,2021-07-01 It is true that mankind himself has probably always been characterized with the main desire to

determine just what spiritual truth really is For centuries and centuries highly educated philosophers and religious men alike have always stood toe to toe disagreeing on spiritual truth Since they cannot all be right this would strongly indicate that education religious persuasion or even intelligence has little to do with our discovery of the real spiritual truth For if these things were truly critical then obviously the spiritual intellectual giants of history would have agreed on spiritual truth long ago In this work author Ted Even endeavors to show that the disagreeing intellectuals skeptics of the past only serve to reinforce Christ s radical statement about our need to just become like little children in order to discover the spiritual truth and that literally everyone has the same opportunity to enter the kingdom of heaven on that basis However while super intelligence or big degrees may not be necessary the discovery of spiritual truth does require just one very reasonable quality of heart which little children have always possessed Find out just what this basic quality of heart is as you continue your search for spiritual truth within this simple to understand work which only leaves the real spiritual truth left standing

Media,2022-08-23T22:59:00Z Please note This is a companion version not the original book Sample Book Insights 1 A Christian college or university is committed to the premise that the ultimate truth is the truth of God and that He is the foundation and source of all other truth Everything we learn should be understood in light of the overarching reality of the character of God 2 The word theology shares a suffix with the names of many disciplines and sciences such as biology

physiology and anthropology The suffix comes from the Greek word logos which means word or idea Theology is the study of God and it includes the study of Christ the Holy Spirit sin and future things 3 Existentialism is a philosophy of existence that rejects the notion of essential truth It holds that there is no such thing as essential truth and that life is chaotic and without meaning or purpose Existentialism has had a significant impact on Western culture and it is common in seminaries today 4 The first assumption is that God has revealed Himself not only in nature but also through the writings of the prophets and the Apostles and that the Bible is the Word of God The second assumption is that when God reveals Himself he does so according to his own character and nature
