Templeton, 2011-04-18 At thirty one widow Galen Granata was a veteran of such an unhappy marriage that she had never dared to long for what every woman dreamed of Like a man to love and children So she'd built a wall around herself that no one had even tried to penetrate Until Del Farentino And then Galen found herself face to face with the enormously attractive widower and his deaf little girl Wendy might not be able to talk in the conventional way but she and her sexy single father were speaking to Galen in a way that no one else ever had Could she find the courage to accept everything they offered **A**

Husband's Price Diana Hamilton, 2011-07-15 The betrayal Six years ago Claudia believed Adam betrayed her love and she'd ended their passionate affair little knowing that she was expecting his baby The marriage Now Claudia is on the verge of bankruptcy and desperately needs Adam's help Adam agrees but for a price He wants Claudia back in his life as his wife Marriage to the man who broke her heart seems almost too much to bear but for the sake of their little daughter it's a price she can't refuse to pay **Women, Gender, Remittances and Development in the Global South** Ton van

Naerssen, Lothar Smith, Marianne H. Marchand, 2016-03-09 This book endeavours to take the conceptualisation of the relationship between transnational remittance exchanges and gender to a new level Thus inevitably it provides a number of case studies of relationships between gender and remittances from around the world highlighting different processes and practises Thereby the authors seek to understand the impact of remittances on gender and gender relations both at the sending as well as at the receiving end For each case study authors ask how remittances affect gender identities and

relationships but also vice versa By itself this already adds a wealth of insights to a field that is remarkably understudied despite a volume of studies on gender and the feminization of migration in developing contexts Chapters take an open explorative approach to the relationship between gender and remittance behaviour with the aid of case studies focusing on transnational flows between migrants and countries of origin With the wide variety of cases this book is able to provide conceptual insights to better understand how remittances affect gender identity roles and relations at both the receiving and sending end and give specific attention to the roles of various actors directly and indirectly involved in remittance sending in current collectively organized remittance schemes from around the world
