Lowe, 2021-01-07 More than ever the world appears to be hopelessly paralysed by an extremely challenging four letter F word FEAR At a time when people are looking for big answers to seemingly life threatening challenges there is an urgent need to raise awareness around the potent antidote to fear There is a cure available to us all though It comes in the form of something that is already around us and within us LOVE Through Speaking From Our Hearts We Become World Game Changers **Conversations with Todd**

McFarlane Jake Zawlacki, 2024-09-25 Over thirty years after his initial ascent to super stardom Todd McFarlane b 1961 remains one of the most popular and contentious comic artists ever The interviews compiled in this volume offer a nuanced portrait of McFarlane s polarizing character Beginning with his earliest days on Spider Man to the months before the hotly anticipated release of Spawn and ending with his writing ventures decades later the interviews offer compelling perspectives from the renowned creator As the most vocal representative of Image Comics McFarlane alongside Jim Lee Rob Liefeld Erik Larsen Jim Valentino Marc Silvestri and Whilce Portacio was a veritable rock star Eager fans swarmed into lengthy lines around comic book stores and conventions waiting for their chance at a thirty second autograph This book offers a glimpse

into the comic book world of the early 1990s a world rampant with variant covers impossibly exaggerated bodies and wild speculation about what would be the next comic to explode in value The volume also includes the momentous public debate between McFarlane and Peter David former collaborator on The Incredible Hulk moderated by the late George Perez at a standing room only event at ComicsFest in 1993 While this world sounds almost inconceivable to the comic book fan of today it was the milieu in which McFarlane rose to stardom and excelled like no other leaving his mark on the medium forever

Self-Knowledge for Humans Quassim Cassam, 2014-11-27 Human beings are not model epistemic citizens Our reasoning can be careless and uncritical and our beliefs desires and other attitudes aren't always as they ought rationally to be Our beliefs can be eccentric our desires irrational and our hopes hopelessly unrealistic Our attitudes are influenced by a wide range of non epistemic or non rational factors including our character our emotions and powerful unconscious biases Yet we are rarely conscious of such influences Self ignorance is not something to which human beings are immune In this book Quassim Cassam develops an account of self knowledge which tries to do justice to these and other respects in which humans aren't model epistemic citizens He rejects rationalist and other mainstream philosophical accounts of self knowledge on the grounds that in more than one sense they aren't accounts of self knowledge for humans Instead he defends the view that inferences from behavioural and psychological evidence are a basic source of human self knowledge On this account self knowledge is a genuine cognitive achievement and self ignorance is almost always on the cards As well as explaining knowledge of our own states of mind Cassam also accounts for what he calls substantial self knowledge including knowledge of our values emotions and character He criticizes philosophical accounts of self knowledge for neglecting substantial self knowledge and concludes with a discussion of the value of self knowledge This book tries to do for philosophy what behavioural economics tries to do for economics Just as behavioural economics is the economics of homo sapiens as distinct from the economics of an ideally rational and self homo economics so Cassam argues that philosophy should focus on the human predicament rather than on the reasoning and self knowledge of an idealized homo philosophicus **Money Store**
