relief Secondly Von Speyr always retraces the content of the words back to the source of revelation which is the Trinity she has an unremitting regress to the Triune God who occupies the central position in the whole of scriptural revelation and is its one viewpoint and theme that must be heard for its own sake **Ever-Moving Repose** Sotiris Mitralaxis,2018-01-01 Sotiris Mitralaxis offers a contemporary look at Maximus the Confessor s 580 662 CE understanding of temporality logoi and deification through the perspective of contemporary philosopher and theologian Christos Yannaras as well as John Zizioulas and Nicholas Loudovikos Mitralaxis argues that Maximus possesses both a unique theological ontology and a unique threefold theory of temporality time the Aeon and the radical transformation of temporality and motion in an ever moving repose With these three distinct modes of temporality a Maximian theory of time can be reconstructed which can be approached via his teaching on the logoi and deification In this theory time is not merely measuring ontological motion but is more particularly measuring a relationship the consummation of which effects the transformation of time into a dimensionless present devoid of temporal spatial and generally ontological distance thereby manifesting a perfect communion in otherness In examining Maximian temporality the book is not focussing on only one aspect of Maximus comprehensive Weltanschauung but looks at the Maximian vision as a whole through the lens of temporality and motion

Rediscovering the Fifth dimension Jan Edvin Andersen,2023-05-31 This brand new universal model and physics was first published in book form September 26th 2015 Remember the important date This book is a brand new textbook in a brand new basic 5 dimensional quantum physics and is written for future physicists and researchers This new model is a full visualization of all these extra undetectable quantum physical dimensions Rediscovering the fifth dimension is a brand new 5 dimensional quantum physics model that builds up the entire universe only on energetic oscillating fields and a very special universal substance This substance is actually the difference between whether something can be seen discovered detected or not This universal substance was fully proven by Carl David Anderson as early as the 1930s This semi physical substance is produced only by the Higg s field That s the only reason they were able to discover this Higg s field as the absolute only possible field they could detect in the particle accelerator They found absolutely no physical particles Remember this This is very important if you want to understand the universe as it really appears This new quantum physical hologram model s atoms are only these 4 dimensional oscillating energetic fields which are actually fully proven by the particle accelerator in 2016 As a result 99% of the universe actually consists of an undetectable quantum physics side and 1% is this strange substance This is where reality comes to the surface and becomes fully visible in the highly active 5 dimensional quantum physical universal engine room The fact that something is visible and detectable is only due to the substance This new model reveals Tesla technology and stealth technology and points out the very reason why the UFO s can disappear from today s high tech radars The reason why the UFO can disappear from radar is that there are no physical particles left in the UFO only the atom This substance can disappear again completely controlled also the stealth effect occurs in the UFO The particle

accelerator's final and very clear evidence just says that there can be no physical particles and that it actually proves that there has never been a big bang. Still today is this fake big bang universe only researched and taught. Why? Is it only because scientists don't understand the right universe that the particle accelerator actually proved to them should be there? The energetic oscillating field universe

Folklore Studies of Traditional Chinese House-Building Shiwu Li, 2021-11-25
This book provides extensive information on craftsmen built houses in China. Though some inroads have been made in studying this folk custom, this work represents the first comprehensive and systematic monograph. The book examines the topic at the two main levels of history and theory. Combining historical textual research, contemporary textual research, and field study, the book presents systematic information on the folk custom of craftsmen built houses in China. At the level of theoretical research, it puts forward some original opinions on the major theoretical issues such as the folk custom of religious belief, the boundary between superstition and religion, and the relationship between oral literature and ritual. The book provides a guide to help readers systematically understand the folk custom of craftsmen built houses in China. Sharing valuable insights into Chinese architectural history as well as religious studies, cultural anthropology, and folklore, it will appeal to researchers in the fields of folklore, cultural anthropology, and architecture and can also serve as a popular science book for understanding Chinese architectural culture.

Gaining an Awareness and an Understanding of Life Thomas Kloevekorn, Walter Eckert, 2022-02-27
Life is a perfectly everyday thing to us. We live our lives without knowing why. How little do people know about why they are here on earth and about the mystery of life itself? Why do we live? What meaning do our lives have? Many people today are no longer satisfied by the answers to these questions that the major religions offer. Young people are looking for explanations, doubt whether their lives have any meaning, some of them slip away into the world of drugs or are otherwise led astray. Thomas Kloevekorn has been concerned with these issues for more than four decades and has now written a spiritual guidebook to share his experience with others. On the basis of his collaboration with the medium Walter Eckert, he explains where the human race comes from and the reason for its existence.
