Everything You Pretend to Know And Are Afraid Someone Will Ask Lynette Padwa,1996-04-01 You can fool some of the people all of the time but wouldn't you rather really know what you're talking about Why are conservatives on the right and liberals on the left What is an archetype Most people drop these and other cultural references in conversation all the time without really knowing much about them But with this witty information packed book you can quickly bone up on the actual facts behind the multitude of data events and words that come at you each day and that you've been casually bandying about without really understanding Here are invaluable explanations of a wide range of topics that are assumed to be common knowledge from deciphering newspeak What is a spin doctor to psychobabble What's the difference between the ego and the id to cyberlingo What is cyberlingo from the supposedly obvious What makes cholesterol good or bad to the deceptively simple What is a formula race car Perfect as a quick reference tool for browsing or simply for sharing impressive newfound knowledge with family and friends this handbook will endow you with genuine cultural literacy in just a few hours of fun filled reading
