Corkin, 2014-11-13 Europeanization of Judicial Review argues that the higher complexity of the political framework in which laws are made today leads to less well designed laws and loop holes allowing politicians to leave decisions to the courts The higher complexity of the political framework is a result of the need in the EU to consider both national and European legal and political rules when phrasing new laws Both to decrease the complexity in the design of legislation and to preserve the ideal of the rule of law the courts now are more likely to rule laws unconstitutional The book employs a wide range of quantitative and qualitative methods to collect new data about the German Austrian and Italian constitutional courts over the last four decades These three courts have a comparable history theoretical background and structure while differing in two key components length of EU membership and legitimacy perception Corkin employs multi method research based on over fifty interviews with judges politicians and civil servants content analysis of abstract judicial review cases over three decades and a database of over 300 variables relating to the courts and their surroundings Her data reveals that in abstract judicial review and in the wider political arena political culture has become more confrontational due to attitude changes in politicians and judges These

attitude changes can be directly linked to the EU and have wide ranging implications for legitimacy democracy and political methodology Presenting a bridge between the revitalized realist and legalist debate Europeanization of Judicial Review will contribute to socio legal theory literature on comparative courts and both new institutionalism and Europeanization theory

Principles of Evidence in International Criminal Justice Karim A. A. Khan, Caroline Buisman, Christopher Gosnell, 2010 Principles of Evidence in International Criminal Justice provides an overview of the procedure and practice concerning the admission and evaluation of evidence before the international criminal tribunals The book is both descriptive and critical and its emphasis is on day to day practice drawing on the experience of the Yugoslavia Rwanda and Sierra Leone Tribunals This book is an attempt to define and explain the core principles and rules that have developed at those ad hoc Tribunals the rationale and origin of those rules and to assess the suitability of those rules in the particular context of the International Criminal Court which is still at its early stages The ICC differs in structure from the ad hoc Tribunals and approaches the legal issues it has to resolve differently from its predecessors The ICC is however confronted with many of the same questions The book examines the differences between the ad hoc Tribunals and the ICC and seeks to offer insights as to how and in which circumstances the principles established over years of practice at the ICTY ICTR and SCSL may serve as guidance to the ICC practitioners of today and the future The contributors represent a cross section of the practising international criminal bar drawn from the ranks of the Bench the Prosecution and the Defence and bringing with them different legal domestic cultures Their mixed background underlines the recurring theme in this book which is the manner in which a legal culture has gradually taken shape in the international Tribunals drawing on the various traditions and experiences of its participants
