Evidential Argument From Evil:

The Evidential Argument from Evil Daniel Howard-Snyder, 1996 Is evil evidence against the existence of God Even if God and evil are compatible it remains hotly contested whether evil renders belief in God unreasonable This book presents five statements on this issue by eminent philosophers and theologians and places them in dialogue with eleven essays reflecting thinking by these and other scholars

The God Beyond Belief Nick Trakakis, 2006-11-03 This study of Professor William Rowe s defense of atheism on the basis of evil assesses the literature that has developed in response to Rowe s work closely examining two strategies mystery the idea that God may have reasons beyond our comprehension for permitting evil and theodicy explanations as to why God allows evil to flourish The book unearths difficulties in both concluding that the God of theism must be beyond belief

William L. Rowe on Philosophy of Religion William L. Rowe, Nick Trakakis, 2017-05-15 William Rowe is one of the leading thinkers in contemporary philosophy of religion Although he is best known for his contributions to the problem of evil he has produced innovative and influential work across a wide array of subjects at the interface between philosophy and religion He has for example written extensively on the existentialist theologian Paul Tillich on the challenging problem of divine freedom and on the traditional arguments in support of the existence of God His work in these areas is distinguished by its clarity rigour originality and sensitivity towards the claims of his theistic opponents Indeed Rowe s work has played a pivotal role in the remarkable revival of analytic philosophy of religion since the 1970s The present collection brings together for the first time Rowe s most significant contributions to the philosophy of religion This diverse but representative selection of Rowe s writings will provide students professional scholars as well as general readers with stimulating and accessible discussions on such topics as the philosophical theology of Paul Tillich the problem of evil divine freedom arguments for the

existence of God religious experience life after death and religious pluralism [A Threefold Response to the Evidential Argument from Evil](#) Han Jen Chang, 2023 In this thesis I develop a threefold response to the evidential argument from evil I first raise a new version of skeptical theism data based skeptical theism to defend theism from the evidential argument from evil but it works only under certain conditions Data based skeptical theism needs to be supplemented by other arguments I then raise the evidential argument from evil against naturalism to reduce the explanatory power of naturalism over evil Finally I develop the divine justice theodicy to enhance theism's explanatory power over evil In this way theism can defend the attack of the evidential argument from evil My thesis can be further detailed as the following First I develop data based skeptical theism to protect theism from being directly disproved by the evidential argument from evil while avoiding skeptical theism's two general unwelcomed consequences global skepticism and moral skepticism However data based skeptical theism works for people who hold no other competing theories to theism When naturalism is regarded as a competing theory for the existence of evil the evidential argument from evil can still disconfirm theism indirectly Because data based skeptical theism does not offer explanations for evil and naturalism can explain more evil than theism evil's existence favours naturalism Therefore I supplement data based skeptical theism with the other two arguments the evidential argument from evil against naturalism and the divine justice theodicy The former can reduce the explanatory power of naturalism the latter can increase that of theism The two arguments render theism's explanatory power over evil stronger than that of naturalism Hence theism will not be indirectly disconfirmed by the evidential argument from evil Instead theism becomes a more plausible theory than naturalism with respect to evil In summary data based skeptical theism can prevent the evidential argument from evil from directly disconfirming theism the evidential argument from evil against naturalism and the divine justice theodicy can help theism avoid being indirectly disproved by the evidential argument from evil The three strategies constitute a solid threefold theistic response to the evidential argument from evil *The Popular Encyclopedia of Apologetics* Ed Hindson, Ergun Caner, 2008-05-01 The perfect combination of scholarship and accessible presentation for Christians who desire to know how to better understand and defend their faith Bestselling authors Ed Hindson and Ergun Caner have brought together a who's who of apologetic experts including Lee Strobel Norm Geisler Josh McDowell and John Ankerberg to produce a resource that's both easy to understand and comprehensive in scope Every entry provides a biblical perspective and mentions the key essentials that believers need to know about a wide variety of apologetic concerns including issues concerning God Christ and the Bible scientific and historical controversies ethical matters genetic engineering homosexuality ecology feminism a Christian response to world religions and cults a Christian response to the major worldviews and philosophies of our day Included with each entry are practical applications for approaching or defending the issue at hand along with recommendations for additional reading on the subject **The History of Evil: The evidential argument from evil** Chad V. Religion William E. Mann, 2008-04-15 The Blackwell Guide to the Philosophy of Religion features fourteen new essays written by some of the most prominent philosophers working in the field Contributors include Linda Zabzeski Hugh McCann Brian Leftow Gareth B Matthews William L Rowe Elliott Sober Derk Pereboom Alfred J Freddoso William P Alston William J Wainwright Peter van Inwagen Philip Kitcher and Philip Quinn Features fourteen newly commissioned essays Provides a comprehensive treatment of the major problems in the philosophy of religion Surveys the field and presents distinctive arguments

Divine Abandonment and the Evidential Argument from Evil Michael S. Valle, 2004 [The Problem of Evil and the Probity of Theodicy from William Rowe's Evidential Evidential of Evil](#) Olaoluwa Apata, 2016 In this research we discussed the types of evil moral and natural which are cited by atheistic philosophers as evidence against the existence of God The so called evidence from evil has been used by the atheistic and other non theistic scholars to raise hypothesis on evaluating the possibility or likelihood that an omnipotent omniscient and wholly good God exists in a world that is littered with evil Moral evil is evil that arise from the misuse of free will by moral agents while natural evils are natural disasters such as earthquakes famine floods hurricanes tornadoes etc We discussed moral evil and Plantinga's free will defense We also discussed the natural evil and how it poses threat to theism The logical and the evidential arguments from evil are the forms of arguments developed from moral and natural evils While many scholars have agreed that Plantinga's free will defense adequately responds to the problem of logical evil the same consensus does not necessarily apply to the evidential argument from evil We also examined William Rowe's evidential argument which he developed from cases of intense animal and human sufferings considered by him to be pointless or gratuitous with no known reasons or goods for which God should have allowed the visceral experience of such sufferings The work of Rowe and other non theistic philosophers have made evidential evil a relevant and predominantly modern argument addressing real life cases of animal and human sufferings thereby making a case for atheism and also creating an awareness for not just the irrationality of theism but also the problem of the probity morality or rightness of doing theodicy We also considered the works of other atheistic and even some theistic scholars who argue against the morality and rightness of doing theodicy Some of these scholars consider theodicy to be a failed enterprise simply because according to them it ignores or suppresses the effects of horrendous and terrible events

The Blackwell Companion to Natural Theology William Lane Craig, J. P. Moreland, 2009-05-06 With the help of in depth essays from some of the world's leading philosophers The Blackwell Companion to Natural Theology explores the nature and existence of God through human reason and evidence from the natural world Provides in depth and cutting edge treatment of natural theology's main arguments Includes contributions from first rate philosophers well known for their work on the relevant topics Updates relevant arguments in light of the most current state of the art philosophical and scientific discussions Stands in useful contrast and opposition to the arguments of the new atheists

Freedom, God, and Worlds Michael J. Almeida, 2012-08-30 Michael J Almeida presents a bold new defence of the existence of God He argues that

entrenched principles in philosophical theology which have served as basic assumptions in apriori atheological arguments are in fact philosophical dogmas Almeida argues that not only are such principles false they are necessarily false Reason for the Hope Within Michael J. Murray,1999 During the last two decades there has been a renaissance in the field of Christian philosophy Unfortunately most of this excellent work has not reached general readers Reason for the Hope Within was produced specifically to make available the best of contemporary Christian philosophy in a clear accessible and highly relevant manner Fourteen of America s rising Christian philosophers here cover many of the traditional themes of Christian apologetics arguments for the existence of God the problem of evil the possibility of miracles as well as topics of special relevance to today s world Eastern religions Christianity and science Christianity and ethics the existence of heaven and hell
