The Face of Mammon David Landreth, 2012-04-19 Money talked in sixteenth century England as money still does today But what the sixteenth century s gold and silver had to say for itself is strikingly different from the modern discourse of money As David Landreth demonstrates in *The Face of Mammon* the material and historical differences between the coins of the English Renaissance and today s paper and electronic money propel a distinctive and complex assessment of the relation between material substance and human value Although the sixteenth century was marked by the traumatic emergence of conditions that would prove to be characteristic of the modern economy the discipline of economics had not been invented to assess those conditions *The Face of Mammon* considers how literary texts investigated these unexplained material

transformations through attention to the materiality of gold and silver money In new readings of Spenser's Faerie Queene Marlowe's Jew of Malta three plays by Shakespeare King John The Merchant of Venice and Measure for Measure the poetry of John Donne and the prose of Thomas Nashe Landreth argues that these texts situate the act of exchange at the center of a system of common wealth that sought to integrate political ethical and religious values with material ones and probe the ways in which market value corrodes that system even as it depends upon it Joining the methods of material culture studies to those of economic criticism The Face of Mammon offers a new account of the historical transformations of the concept of value to scholars of early modern literature culture and art as well as to those interested in economic history **In the Face**

The True Face of the Antichrist James Prince, 2013-06 This book that you're holding in your hands will do what it was said about the two olive trees in Revelation and believe it what is written in it will torment the inhabitants of the earth just like it is described in the book of Revelation I am not a theologian but in this book you will find all the evidences all the necessary proofs which expose the true face of the antichrist the true face of the devil the one Jesus talked about in Matthew 13:39 And the enemy who sows them is the devil In this book you will also find the name of the beast finally Name that millions have tried in vain to identify The devil sowed the lies but we have believed in them despite all of Jesus and his disciples warnings and this causes our loss Only the key of the kingdom of heaven that Jesus gave to Peter the truth the word of God can save us Read very carefully 2 Thessalonians 2:10 They perish because they refused to love the truth and to be saved If you really have love for the truth you will read *The True Face of The Antichrist* to the end even though it is very shocking and troubling as you have never been but remember one thing it is for your own salvation I already have my salvation because I saw and I believed the truth and I have accepted it So I wish you the same joy the same happiness The truth that is in this book is a knife straight to the heart of the beast The more it will be sold and the more the truth will be known and accepted the more the beast will be destroyed What gives the power to the beast are the ignorance and the hypocrisy of its members The beast has its foundation on lies and this is why it will be destroyed by the truth by the word of God just like the prophecy says See 2 Thessalonians 2:8 And then the lawless one will be revealed whom the Lord Jesus will overthrow with the breath of his mouth the word of God and destroy by the splendor of his coming James Prince

Dostoyevsky in the Face of Death Julia Kristeva, 2023-12-19 Julia Kristeva has been both attracted and repelled by Dostoyevsky since her youth In this extraordinary book by turns poetic and intensely personal she brings her unique critical sensibility to bear on the tormented and visionary Russian author Kristeva ranges widely across Dostoyevsky's novels and his journalism plunging deep into the great works and many of the smaller ones to investigate her fascination with the Russian author What emerges is a luminous vision of the writer's achievements seen in a wholly new way through Kristeva's distinctive perspective on language With her keen psychoanalytical eye she offers brilliant insights into the passionate heroines of the great novels Focusing on Dostoyevsky's polyphonic writing Kristeva also demonstrates the importance of

Orthodox Christianity throughout his body of work analyzing the complex ways his carnivalesque theology informs his fiction and commentary An original and profound interpretation of one of the nineteenth century s greatest writers this book s insights are also relevant to the twentieth and twenty first centuries up to our unsettled present to which Kristeva s humane reading of the suffering Russian author brings understanding and even solace De caelo et ejus mirabilibus et de inferno ex auditis et visis Emanuel Swedenborg,1900 The Face of Africa Stan Chu Ilo,2012-12-01 This book is a call on Africans and non Africans to once more believe in the possibility of a better future for Africa In these pages Stan Chu Ilo writes of his experience and the experiences of many young Africans like himself who are disturbed by the present condition of Africa He writes about the challenges facing most Africans who are growing up in the African continent without any hope of quality education without any guarantee of adequate food water housing and clothing without any hope of getting a job and without any prospect of living in peace with their neighbors He writes of the sad situation of millions of young Africans who are dying of malaria and HIV AIDS and the African women whose fate and fortune have been shackled by a male dominated society He questions the bases of the existence of the failed states of Africa who are caught up in a cycle of violence and disorder and who are not asking the right questions about the future of their nations He argues that corruption excessive authoritarianism a stubborn hold on power and lack of openness to consensus building among some African leaders insult the cultural value of Africans with regard to a sense of community love and solidarity He also writes of the pain of globalization the debt burden immigration and trade restrictions on Africans and African countries exploitation of ordinary Africans by fellow Africans and Western governments and business conglomerates He wonders why many Western nations should turn their backs on Africa when they all share some responsibility in bringing Africa to her knees However even though many Africans have become exhausted in the battle for national survival and for a living space to pursue their ordered ends this book proposes that Africans should not claim perpetual victimhood rather they should stand up once more and work for a better tomorrow which is possible and within their reach Ilo insists that the imposing mountains of economic and social ruin the rising moans and groans of numberless Africans should not weaken the inner energy and ardent hopes of millions of Africans struggling against the untested assumption that the cracking social political and economic foundations of present day Africa are incapable of supporting the structures of a new Africa The face of Africa today is ugly but behind the ugly face is the beauty that has been distorted by historical and cultural factors The present condition of Africa is only the sign of the urgent need for the peoples of Africa to brace up for the long and hard journey to reclaim their future Ilo outlines how non Africans who are interested in the African condition can be involved with the peoples of Africa A proper understanding of the African continent and her peoples her history and cultural evolution is a necessary first step for those who wish to be engaged with the Africans His total picture approach model as the key to interpreting the African condition and in comprehensively addressing the challenges facing Africa offers a helpful and original tool in understanding Africa It helps to overcome the

stereotypes prejudices and paternalism which non Africans apply in their reading of African history and their relation with the African reality With masterly skills a keen sense of history a balanced perspective and objectivity Ilo identifies the constraints to growth and innovation in Africa in terms of the low stocks in the human capital and cultural development He introduces a new concept in the interpretation of the African condition homelessness in terms of cultural and existential crises that confront Africans today His conclusion is that cultural and human development is the irreducible decimal in any proposal for the transformation of the continent that grassroots village based action should be preferred over bogus and unworkable national approaches to African development
